Easy Ordering Tips:

- An authorized company representative must be present at the time of delivery to your booth to inventory the items and to sign for receipt of items. Delivery hours may be restricted, check with the representatives at the cold storage desk. An advance deposit is required to guarantee storage reservations.
- It is very important to use the Specially Coded Label that is provided in this manual. This ensures perishable items are delivered to the trailers for cold storage when they arrive.
- Shipments will be accepted beginning at 8:00 AM, Tuesday, October 15, 2019 - Wednesday, October 16, 2019
- Target dates do not apply to Refrigerated & Frozen Storage
- Straight Time: Monday through Friday from 8:00 AM to 5:00 PM
- Overtime: All other times Monday through Friday. All day Saturday, Sunday & Holidays.

Step 1. Order Storage

- 1 Skid or 30 cubic feet per day. Storage charges begin on the day the shipment is received. Labor for delivery is not included. You will be billed for each delivery.
- Please confirm delivery arrangements the day before delivery of stored material is required at the storage control center at the loading docks.
- A work order must be placed at the storage control center each time material is moved to or from storage. The work order must be signed by a representative of the Exhibitor when delivery is made.
- During Show days, with the massive congestion in the aisles, it will take an additional amount of time for deliveries and it will be necessary to use a minimum of two laborers.

Storage is billed per Cubic foot

Cubic footage is determined as follows: Determine measurements of each piece in inches and multiply the width times the length times the height. Divide this figure by 1,728. Example: 10 cartons 24" x 16" x 13.5" = 5,184 (5,184 ÷ 1,728 = 3 cubic feet each x 10 cartons = 30 cubic feet). Storage required would be 1 Skid or 30 cubic feet.

Calculate Cubic Footage: $\frac{\text{Width} \times \text{Length} \times \text{Height}}{1728} = \text{Cubic Footage}$
