

BOOTH CONSTRUCTION REGULATIONS & DIAGRAMS STANDARD LINEAR BOOTH

STANDARD LINEAR BOOTH: One or more standard booth units (10 x 10) in a straight line.

- Back 5' of booth has a maximum height of 8'.
- Displays are limited to a maximum height of 4', in the front 5' portion of each booth. Machinery, equipment or products may not be shown on a raised/built-up platform or counter if they interfere with the height restrictions. If your display exceeds 4' in height, it is required that you place it away from the 5' x 10' sightline area in the front of the booth in order to provide a "see-through" lane for neighboring exhibitors.

****Booths 10' x 20' or larger are required to submit a Booth Rendering by March 20, 2023. See Booth Rules & Regulations for details.****
