

Donating at IMEX America

At the end of IMEX America you might have items you don't want to ship back, so why not donate?

How to donate:

Large booth items

Venue staff will distribute information on how to donate large items for recycling

Small booth items

Take smaller items to donation bins around the show floor

Badges

On your last day at the show place your badges in the badge back bins by the exit

What to donate:

Tables and shelves

Pens, notepads & office equipment

Booth graphics

Bottled water

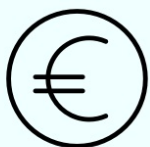

Cut flowers in good condition

Promotional & giveaway items

Benefits:

Reduces shipping costs AND carbon emissions from transportation

Your items will be donated to local charities

Rethink, Reduce, Reuse, Recycle

Before

Promotional materials

Consider digital options over printed materials

Don't bring more brochures than you need!

Printing tips

Print on post-consumer recycled paper using vegetable based inks

Make all printed materials timeless (not date specific) so they can be reused

Print locally - [Click to find printers in Las Vegas](#)

Packing

Avoid using styrofoam packing peanuts, these are not recyclable

Onsite

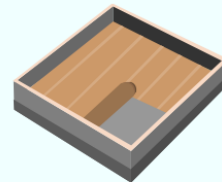

During Move-in

Flatten & stack cardboard boxes on your booth for collection

Pack all plastic wrap & Visqueen in a pile at the corner of your booth

Use non-reinforced Visqueen to protect your booth carpet as this is recyclable - Nylon-reinforced Visqueen is not recyclable

During the Show

Support Water Wise Wednesday by selecting low water catering options

We value your support! Help us to better understand exhibitor sustainability and improve our compliance

Take part in the IMEX America 2016 Sustainable Exhibiting Survey

Did you know?

At IMEX America 2016 all service ware (cups, plates, bowls, wraps, cutlery) is 100% compostable. Help us by disposing of your items in the correct bins.

Sustainable Logistics

Shipping

Leave excess items at home
Use recyclable packaging
Purchase materials locally
Ship items by sea/rail

Top Tip:

Use the
SmartWay Partner
List to find an
environmentally
friendly carrier.

Landfill Materials

AVOID USING

Foamcore

Made from polystyrene, it's dirty to
manufacture & CAN'T be recycled in
Las Vegas

Vinyl (PVC)

Vinyl is toxic and CANNOT
be recycled in Las Vegas
(example: Komatex)

Recyclable Materials

USE

Falconboard

Reusable, renewable and 100%
recyclable rigid material made from
honeycombed cardboard. This is what
IMEX uses for all rigid signage

conVerd Board

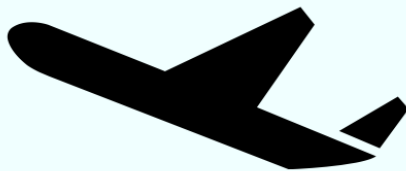

A fiber-based,
rigid, recyclable
material

Traveling to IMEX America

Airport

Shuttles available
around McCarran
Airport

\$7- 9 one way to a
Strip hotel

The Strip

The Deuce Bus
Runs 24/7 along Las
Vegas Blvd (The Strip)
