Onsite Contact Name: _____
Phone: _____ Email: _____
Booth/Room #: _____

Exhibitor/Faculty agree to use all laser equipment in full compliance with the [ANSI Standards for the Safe Use of Lasers in Healthcare Facilities ANSI Z136.3-2018](#).

Specifically the following questions and concerns need to be addressed:

1. What is the ANSI Z136.3 Laser Classification (Class 1 – 4) of the device you will be displaying or demonstrating?

2. What is the Manufacturer’s Model Name / Model Number of the device(s) you will be displaying or demonstrating?

3. For Class 3B or Class 4 devices, describe the safety eyewear and/or other protection (laser safe barriers) which will be engaged during the demonstration to prevent potential eye injury.

4. For Class 3B and Class 4 devices, appropriate signage outside the nominal hazard zone (prescribed area within the exhibit, laser safe enclosure) must be used. Please provide a brief description of what signage will be used:

5. If laser plume is produced, describe the plume/smoke evacuation system that will be employed to prevent contamination with laser generated particulate matter.

Each exhibit will be visited by AVMA staff prior to or during the exhibition. If critical issues regarding the safe use of lasers are determined, exhibitors shall correct the deficiencies or discontinue the demonstrations.

I agree to all of the above terms and conditions and agree to not hold AVMA or any its constituents liable for any injury/damage that may occur.

Authorized Signature: _____
