

EXHIBITOR SERVICES ORDER FORM

For Electrical, Telephone, Cable TV, Air, Water and Drain.

**AVOID 20% SURCHARGE BY PLACING YOUR ORDER
ONLINE!!!**

For Advanced Rate, orders must be placed no later than two weeks prior to first show move-in date at:

www.denverconvention.com/exhibit-at-an-event

In this kit, you will find orders for:

Electrical services, Telephone services, Air/Water/Drain and Natural Gas services, Internet services, Audio Visual services, Business Center services and Catering services.

To help you with a successful show, we offer you these tips and checklist:

1. The Colorado Convention Center (CCC) is responsible for all utility services, including power, telephone, air, water and drain.
2. ALL exhibitor utility orders should be ordered on-line, faxed, emailed or mailed directly to the CCC. **All payments should be submitted directly to the CCC for utility orders — NOT TO SHOW MANAGEMENT OR THE GENERAL SERVICE CONTRACTOR.**
3. Orders for Internet, Audio Visual Services, Business Center Services and Catering should be sent to their respective companies.
4. For your security, we do not accept orders over the phone. All forms must be mailed, faxed, emailed or ordered on-line at: www.denverconvention.com.
5. Read all the Forms and Guidelines carefully. You may find something specific to your booth that will reduce on-site complications.
6. Save money by ordering prior to your arrival. The onsite surcharge of 30% will be applied to all orders placed onsite, during the first move-in date of the event.
7. The CCC reserves the right to update or amend these forms as needed. If you have questions, please call before ordering.

To save time and even more money, order on-line at www.denverconvention.com. These rates are available only on the web and will avoid the 20% surcharge on the listed rates in this kit.

Checklist Requirements/Reminders:

- ◇ Individual orders are required for each booth you will occupy.
- ◇ If you have any questions, call us direct at 303.228.8027 before you order.
- ◇ All 10X10 and in-line booth services will be installed in the center back of the space.

Please submit a properly oriented booth floor plan for booth exhibits in which services **are not to be** installed in the center back of the space. Please include adjacent booth numbers surrounding the booth, to ensure proper installation and also to prevent postponement.

NOTE: If a booth floor plan is not provided, services will be placed in the most convenient location. Floor plans that include multiple service drop locations must identify exact placement for each individual drop which must be indicated on the Service Locator Plan, including electric, telephone, cable TV, compressed air, drain and water services. Special placement, testing and/or changes after the initial set will require additional labor and material charges.

Orders with multiple service drops submitted without a floor plan, will be installed on-site, on a first come first serve basis and labor charges will be assessed if the service drop must be relocated.

We look forward to seeing you in Denver!

GENERAL OPERATING POLICIES AND PROCEDURES ANSWERS TO MOST FREQUENTLY ASKED QUESTIONS

RIGGING/SUSPENSION OF LOADS

The **CCC** management must approve all rigging/suspension of loads from any part of the facility structure.

1. All signs, banners, and displays suspended from exhibit hall ceilings must be approved in advance and hung by CCC or general service contractor personnel.
2. If you are using any part of the facility structure for rigging or the suspension of loads, you must submit to CCC two copies of your rigging plot to Exhibitor Services two months prior to move in for the CCC approval. Part of this requirement is due to possible shared or compounded loading between booths or different shows and even between levels of the convention center which can also be a concern. This is even more important on larger shows where several booths are rigging within proximity to each other.
3. All submittals will need to be overlaid in the correct location and orientation onto the Reflected Ceiling Plan (RCP) for the relevant area for proper review to take place (these drawings can be provided in .DWG or .PDF format if they are not on file already and/or upon request).
4. The rigging plot should conform to the following:
 - A. Name of show, show dates, building location; the name of the contractor responsible for rigging, including contact information; and if applicable, the names of the audio, lighting and scenery contractors. Contact information should be printed on the plans.
 - B. Rigging plots must be drawn in 1/16"=1' scale.
 - C. Rigging plots must indicate locations of points, loads for each point, and a legend that explains the use of each point; such as audio, lighting, and scenery.
 - D. Rigging plots must include facility column locations and roof steel locations.
5. The first point of contact for this should be your event manager. However, for more specific information, requirements, and limitations regarding rigging/suspension of loads at the CCC or for any inquiries that have not been assigned a specific point person please contact:

Jason Hiester
Director of Event Operations
303.228.8126
JHiester@denverconvention.com

6. If submittals do not meet/or exceed the outlined acceptable criteria the building provides, the rigging plan may need to be sent to the Structural Engineer of Record (SER) for approval at an additional cost. **Note: this SER review can add additional time to the review/approval process. If the rigging plan is not submitted 30 days prior to the first move in date a \$500.00 review fee will be charged in addition to any applicable SER fee's or cost.**
7. If not received in a timely fashion, rigging oversight charges may also apply and any rigging work may not be performed until a submittal is made and the plan has been approved by the building/Operations.
8. Without all the information being submitted with ample time to review it limits options.

FAQ

Frequently Asked Questions

DOES SMART CITY NETWORKS PROVIDE COMPLIMENTARY WI-FI?

Yes! Smart City Networks provides complimentary Wi-Fi in most designated public areas of the facility, such as the concourse lobbies and food courts. Check with your specific venue for locations. This service is made available to approximately 30 million guests, visitors, and attendees at our convention centers throughout the country. There is no requirement to purchase a Smart City Networks service in order to take advantage of the complimentary Wi-Fi.

WHY DOESN'T SMART CITY NETWORKS PROVIDE COMPLIMENTARY WI-FI IN THE EXHIBIT HALLS?

Exhibit halls are not public areas since this space is typically licensed to a company, government agency, or trade association for a private event. The space license agreement governs the availability of a range of services for the event and the license may or may not call for complimentary Wi-Fi services.

WILL MY PERSONAL HOTSPOT (MI-FI) WORK IN YOUR BUILDING?

Yes – however, the capability of your personal mobile hotspot is limited by your cellular carrier by the spectrum and Internet bandwidth capacity they have made available. Cellular carrier signals penetrate into a facility either from a nearby cellular tower or via an in-building Distributed Antenna System (DAS). It is important to remember that your personal mobile hotspot is obtaining a wireless signal from a shared cellular network, so service may be disrupted or become unreliable due to user density and demand on the carrier's network. In all cases, you have the option to take advantage of the complimentary Wi-Fi throughout the public areas, or if you choose, you can purchase an upgraded package based on your service requirements.

WHAT MUST BE IDENTIFIED ON MY FLOORPLANS?

Floor plans should include the surrounding booth numbers for orientation, measurements and easy identification of all required end location(s). Be sure to distinguish your main distribution line (MDL) and additional patch cables. Please reference Smart City's Communications Floorplan Worksheet.

TIP: Most of our venue's data jacks originate from a floor pocket. Be sure to submit a completed floorplan prior to the first day show move-in to avoid any additional labor charges.

Order online at:
orders.smartcitynetworks.com
or call 888.446.6911

DO YOU OFFER INCENTIVE RATES?

Yes! Orders received along with payment by the incentive deadline date will receive our early incentive pricing.

WHY ARE ROUTERS NOT ALLOWED ON A SHARED NETWORK?

Many times, Smart City has found that routers on a shared network are installed incorrectly, which can cause problems for other users of the network. Additionally, an accurate count of the number of devices on the network is required to determine the appropriate network size and bandwidth available to the network. For more information and to request the build-out of a special system to meet your needs, contact our team today for a quote.

CAN I PROVIDE MY OWN SWITCH AND/OR CABLING?

Yes, you can provide your own switch and patch cables for in booth cabling. Unless otherwise mandated by the venue.

Please Note: Connectivity can be guaranteed only to the point where Smart City Networks' services originate in the booth. Smart City Networks cannot guarantee service on customer/exhibitor-provided cable(s) and/or equipment. Any request for trouble diagnosis or problem resolution found not to be the fault of Smart City Networks (such as faulty equipment or damaged cable) may be billed to the exhibitor at the prevailing labor rate.

HOW MUCH BANDWIDTH DO I NEED?

To identify how much bandwidth you should require, please reach out to a technical representative in your organization, review your program specifications listed with any demonstrations or downloads you plan to run.

WHAT DOES SD, HD, AND UHD STAND FOR?

SD, HD, and UHD are the abbreviated names of three video streaming formats. The basic difference between each of the formats is the number of pixels comprising the video image. The greater the pixel count the sharper and more detailed your video will be.

FORMAT	RESOLUTION	BANDWIDTH REQUIRED
Standard Definition (SD)	720x480	3.0-5.0 Mbps
High Definition (HD)	1280x720 & 1920x1080	5.0-8.0 Mbps
Ultra High Definition (UHD)	3840x2160	25 Mbps
