Tips

## Form Tips:

- Use bold lines to indicate the outline of your booth.
- As a check and balance, please be sure the power allotted on the booth layout form matches the outlet(s) ordered on the Electrical Outlets Order Form. Each power distribution point should have a minimum of 5 amps. No bulking of power is allowed.
- Notate any 24 hour power requirements on the booth layout, i.e. refrigerator, uninterrupted power equipment.
- If this grid scale is too small for easy drawing return a separate sheet indicating booth layout.
- Return multiple booth layouts if necessary. Can be submitted through PDF or CAD.
