Details Matter When Shipping

Material Handling is the unloading of your exhibit materials. The service includes delivery to your booth, handling of empty containers to and from storage and removal of your materials from your booth for reloading onto your outbound carrier. This is not to be confused with the cost to transport your exhibit material to and from the event.

- Unloading the freight and delivery to your booth is not included. Avoid unexpected costs at show site and estimate the cost for this service. <http://e.ges.com/022601189/item/200500>
- We understand that your calculation is only an estimate. Invoicing will be done from the actual weight. Adjustments will be made accordingly.
- Save by combining shipments. A minimum charge applies for each shipment under 200 lbs.
- Make sure that a Bill of Lading is filled out completely for each shipment.
- Confirm that your driver has the correct dates and times that your shipment needs to be delivered and picked up.
- Use provided shipping labels to make sure show name, booth number and other vital information is provided.

No Tipping

GES work rules prohibit the solicitation or acceptance of tips in cash, products or gifts of any kind by any employee. Our employees are paid appropriate wages denoting professional status; therefore, tipping of any kind is prohibited.

Where Did My Crates Go?

After your exhibit is set-up and your products displayed, you must place "empty" stickers on your empty containers for storage during the show. At show site a kiosk with a floor plan and color coded "empty" stickers will be available. Crews will clear the floor of all "empty" stickered containers to clear room for other freight.

- Simply write your booth number, company and show name on the sticker and place the container in the aisle. It will be stored throughout the exposition and then returned to your booth upon show close.
- Place stickers on all four (4) sides of the crate.
- Please label your empty containers as soon as possible to keep your area clear and make it easier to prepare your booth.

Don't Forget to Take Out the Trash

Exhibitors planning on disposing of booth properties and/or floor covering at the end of the show should pre-order this service. In the event that excessive booth properties and/or floor covering are abandoned/left on the floor at the conclusion of a move-out, a dumpster fee will be billed to the exhibiting company.

Keeping Up Appearances

Pay close attention to your booth size when ordering items based on booth sq. footage or quantity of decorating items. Please do not order more than what will comfortably fit in your space.

- Exhibitors that order two (2) standard pre-cut carpet pieces should keep in mind that there will be a visible seam where the pieces of carpet are placed together. GES cannot guarantee that carpet colors will be an exact match due to dye lot differences.
- Order just enough carpet to fit your standard booth space. A 10' x 10' booth should not order 10' x 20' carpet.
- We custom cut carpet to fit your needs.

It's All About the Padding

Ordering carpet for your booth? Think about the kind of padding you need if you are going to be on your feet all day. That little extra cushion can make all the difference at the end of the day.

Carpet and Padding: <http://e.ges.com/022601189/carpet/esm>

Electrical Outlets Not Included

Need power for that lamp or arm light in your booth? Electrical outlets must be ordered separately for your booth space through the electrical service provider. Be sure to indicate if the wiring should run under your booth carpet or not.

Electrical Equipment Rental: <http://e.ges.com/022601189/electrical>

Reminder

- Booth Layout is required to process your electrical orders.
- Carefully read the electrical labor rules. Some outlets do not include labor in pricing.

What Goes Up Must Come Down

If labor is needed for your booth space at the time of move-in, you will also need labor for move-out. Remember, what you put up must be taken down.

- See Labor Information form for rules specific to the show. Work rules can vary based on show location.
- Gratuities in any form, including cash, gifts, or labor hours for work not actually performed are prohibited by GES.
- All rates are subject to change if necessitated by increased labor and material costs.
- Pre-order labor to save.

Orange County International Auto Show Anaheim Convention Center October 3 - 6, 2019

We are committed to partnering with you to provide comprehensive and effective graphic solutions for your event. The graphics print and production industry continuously evolves, and we want your graphics and images to look their absolute best. To ensure the highest quality output from your digital files, and to make file transfers as seamless as possible, please review and follow these guidelines when submitting artwork to GES. We also offer layout and design services for a fee. Please contact GES for details.

- Save money by providing your artwork/graphic files in the recommended formats.
- Send your graphics early with client name, show name and booth number to avoid costly delays.
- Do not copy graphics from web pages as they will be low resolution and not suitable for your exhibit/sign.

Graphics

- Avoid setting type in Photoshop - instead use a vector-based program (such as Adobe Illustrator) for your type. If you do use vector smart objects, save the file as an .eps or .psd to retain vector properties.
- If you plan to add effects to your type (such as drop shadows or glows), follow these steps:
 - a. Import the Illustrator type into Photoshop
 - b. Add effects to the type
 - c. Separate the effects onto a layer
 - d. Delete the type layer
 - e. Assemble the type and photo in a vector program
- Always provide logos in a vector format.
- If you have critical PMS colors to match, provide us with a layered Photoshop file to allow for color editing.
- Use gradients carefully and sparingly. Gradients often "band," and little can be done to correct the problem. Look at your high res file at 100% if you can see the banding, it WILL appear in the print. Adding 1 pt. of noise to the file may resolve the problem.

Suitable programs for images or logos:

- Adobe Illustrator CC 2018 - .ai, .pdf, .eps
- Adobe InDesign CC 2018 - .indd, .pdf
- Adobe Photoshop CC 2018 - .pdf, .tiff, .jpeg
- Adobe Acrobat

Color

If your Vector artwork needs to be color specific, please set up your files using the Pantone color pallet. Some Pantone colors are more likely to be achieved than others, we will match all Pantone colors to the best possible interpretation. We do our best to match any physical print sample, however, the colors may deviate slightly due to the limitations within the print process.

If providing colors as CMYK, please set colors as spot. Spot Colors are colors that have been specifically labeled within design software so that RIP Stations can recognize them. Setting colors to "Spot" it enables the RIP Station to adjust the colors independently of the design software to maximize work flow.

Vector Artwork

For the best quality, create graphics in vector format (AI, EPS). Logos taken from websites are generally GIF files, and those are not acceptable as they will not print clearly. Artwork produced for contour cut decals, such as solid company logos or text, must be supplied in a vector format (AI or vector EPS). Artwork created in a pixel format (TIF, JPG) is not compatible with equipment.

preferred* AI/EPS (vector)

GIF, TIFF, JPEG (raster)

Bitmap/Raster Artwork

TIF, JPEG, PDF and PSD - These are the preferred file formats for raster images. Files should be supplied at 100dpi at full size, or they should scale to those dimensions. If the resolution is lower than 100dpi, images can look blurry or pixelated when printed. If there is a lot of small text in the raster image, the file can be provided at higher resolutions to ensure print quality. Files obtained from the internet (JPG, GIF, PNG) or artwork created in MS Office applications (Word, Excel, PowerPoint, etc.) are often not suitable for high quality output for large/grand sized graphics or signage.

Estimating Material Handling Charges

Handling charges are based on the weight of the freight. Shipments are billed by the hundred weight and rounded up to the nearest hundred. Minimum per shipment may apply, see enclosed Material Handling/Drayage Order Form for details. Please prepay all shipping charges - GES cannot accept or be responsible for collect shipments. Crated and uncrated shipments must be separated and clearly identified on separate Bills of Lading with separate weight tickets; otherwise, GES will invoice the entire load at the uncrated rate.

- Crated - Material that is skidded, or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
- Uncrated - Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.

Late Surcharges - May be charged an additional overtime surcharge

- If advance freight is received before or after the published deadline date for shipments to arrive at the warehouse. See enclosed Material Handling/Drayage Order Form for details.
- Freight shipments sent to the show after it has opened.
- Freight shipments that are received at show site that do not meet their published date and time.
- Shipment Surcharges - A surcharge will be incurred per shipment for those that are received with incomplete information on shipping labels identifying company name and booth number and/or shipments that are left on the show floor at the end of the show with no labels and no Bill of Lading turned in.

Machinery Labor and Equipment

Labor and equipment for uncrating, unskidding, positioning, leveling, dismantling, rekrating, and reskidding machinery and/or equipment must be ordered separately. Place your order for this labor using the Forklift Labor Order Form. If your material requires specialized rigging equipment, please notify us promptly so that we can make arrangements. When possible, supply your own rigging equipment with shipments and pre-rig your material.

Storing Empty Containers

Properly labeled empty shipping cartons will be picked up, stored and returned after the show. Labels are available at the GES Servicenter® or from your GES Service Executive and are for empty storage only. Depending on the size of the show, it can take from two to twelve hours to return empty crates. Do not store any items in crates marked "empty." GES has no liability for damage to crates or items sent to empty storage in crates.

Outgoing Shipments

An OMHF (Outbound Material Handling Form / Bill of Lading) must accompany all outgoing shipments. Shipping information, outbound forms and labels will be available at the GES Servicenter®. Exhibitors selecting non-official carriers will need to make their own arrangements for pickup. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display and product.

Target Move-In and Freight Information

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

Orange County International Auto Show
Anaheim Convention Center
October 3 - 6, 2019

Form Tips:

- A targeted move-in is a designated day and time for arrival of a particular exhibitor or exhibit area depending on their location within the facility, according to a target map/floor plan.
- Your assigned target is the date and time that your truck must check into the marshalling yard. Once the marshalling yard sends your truck to the building to start unloading your company's truck, your exhibit/samples are taken directly to your booth space.
- As long as your truck arrives on or before your target time on your targeted date, there is no additional off-target charge.
- Find your targeted/scheduled time for move-in by reviewing the Targeted Floor Plan provided by the show organizer for target move-in times. This is for the move-in of your exhibit only. Your product can arrive at a later date.

Attention:

Attention:

- All inbound exhibit material and equipment is specifically targeted by booth number.
- Please refer to target assignments contained in this section.
- Do not allow your carrier to block your on-target freight with off-target freight as the entire load may be rescheduled.
- Every attempt will be made to accommodate all inbound deliveries within their targeted day. However, there can be no guarantees with respect to absolute delivery dates and times.
- We recommend scheduling installation labor to begin the day after your inbound target assignment.
- It remains the exhibitors' responsibility to ensure that their freight is loaded to accommodate the inbound target assignments. Please plan carefully.
- Off-target freight and equipment may be refused and/or rescheduled. Off Target Surcharge: 30% (\$30 minimum) will apply to all inbound shipments arriving off-target. Please refer to Target Schedule.

Important Reminders

Reminder:

- A target assignment is the point at which direct deliveries may begin checking in. It is not the point at which set-up should be scheduled.
- Freight shipped through our warehouse will be delivered prior to the beginning of your assigned target date and time.
- Route your shipments carefully. Utilize only carriers who provide Bills of Lading and can be contacted at any point in time.
- Insure your material from the time it leaves your facility until it is returned.
- Do not allow your carrier to block your on-target freight with off-target freight as the entire load may be rescheduled.

Marshaling Yard and Direct Deliveries Information

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

Orange County International Auto Show
Anaheim Convention Center
October 3 - 6, 2019

Tips For New Exhibitors

What is a marshaling yard? The marshaling yard is an offsite location where trucks are checked in and held until dock space for unloading becomes available onsite.

Why is a marshaling yard used? Large shows use a marshaling yard to ease vehicle congestion and to ensure the unloading process runs smoothly.

Attention

- The per shipment fee for this Marshaling Yard service is \$ 32.50

Marshaling Yard Site Address:

4961 Katella Avenue
Cypress, CA 90630
USA

Marshaling Yard Process

It is important that you advise your carrier of this marshaling yard information to better facilitate your direct shipment to showsite.

- All delivering carriers and privately owned vehicles must check in at the marshaling yard prior to show site deliveries. All inbound shipments will be weighed at the Marshaling Yard to obtain the gross or heavy weight.
- All inbound shipments must be accompanied by a certified weight certificate and Bill of Lading.
- At the marshaling yard, drivers will be assigned a number and will be dispatched to the appropriate dock at Anaheim Convention Center as space is available. Waiting time at the marshaling yard should be anticipated by your carrier. Every effort is made to keep this waiting time at a minimum. However, the waiting time depends on many factors, including the number of vehicles arriving to unload/load, the type of loads being unloaded at the Anaheim Convention Center, the number of booths on a truck, etc.
- After unloading, all vehicles must return to the Check-in Trailer with a completed copy of the GES Receiving Report to be weighed to obtain the light weight. This determines the total weight of your shipment. In the event of weight discrepancies or shipments received without a certified weight certificate, a \$16.80 fee will be charged per shipment. Drivers who fail to return to weigh-out may face having their shipment billed at the heavy weight.
- All drivers are expected to adhere to GES' policies and procedures with respect to the loading and unloading of trailers.

☐ Exhibitor Supervised (Do Not Proceed)

Exhibitor will supervise.

- Indicate workers needed for installation and dismantling
- GES assumes no liability for loss, damage or bodily injury arising out of the installation and/or dismantling of Exhibitor's property by GES provided union labor. Exhibitor assumes the responsibility and any liability arising therefrom, for the work performed by union labor under Exhibitor's supervision. Exhibitors must stay clear during movement of freight.

GES is responsible for the following type(s) of work:

- ☐ Uncrating ☐ Unskidding ☐ Positioning
☐ Leveling ☐ Dismantling ☐ Recrating
☐ Reskidding

Additional labor will be assigned if necessary.

Step 3. Schedule In Booth Forklift Labor

Starting time can be guaranteed only when labor is requested for the start of the working day. All exhibit labor scheduled at the start of the working day will be dispatched to booth space. Confirm labor and forklifts by 2:30 PM the day before date requested. Please have a representative pick up the crew at the labor desk and supervise the work to be done. Upon completion, the Exhibitor's representative will return the crew to the labor desk and approve the work order. Equipment and labor cancelled without a 24 hour notice shall be charged a one (1) hour cancellation fee per worker and forklift. If Exhibitor fails to use the workers and equipment at the time confirmed, a one (1) hour cancellation fee per worker and forklift will apply.

The minimum charge for labor is one (1) hour per worker and equipment. Labor thereafter is charged in half (½) hour increments per worker and equipment. Gratuities in any form, including cash, gifts, or labor hours for work not actually performed are prohibited by GES. GES requires the highest standards of integrity from all employees. Please call our confidential Always Honest hotline at 866.225.8230 to report fraudulent or unethical behavior.

Hanging Sign / Truss Labor Information

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

Orange County International Auto Show
Anaheim Convention Center
October 3 - 6, 2019

Please complete and return the Hanging Sign / Truss Labor Order Form by September 9, 2019.

By sending us this information in advance you will help us assure your sign is properly assembled and installed.

GES Rigging must suspend all hanging signs/truss. No other contractor or personnel will be allowed to attach any properties to the ceiling or building structure. GES is the sole provider of lift equipment for all public areas & exhibit halls.

Assembly: All assembly of hanging signs, suspended video walls and truss must be done by GES Rigging. Additional GES personnel are available upon request for truss or sign assembly. Please submit hanging sign floorplan to include booth orientation. Set-up instructions must be provided for signs requiring assembly. Exhibitor or exhibitor's authorized representative may supervise assembly.

Hanging Signs:

GES is responsible for assembly, installation and removal of all hanging signs.

- All signs must be designed to comply with Show Organizer rules and regulations and facility limitations.
- All signs, with the exception of banners and light weight moss signs, must have structural rigging points, and include detailed construction plans with a current structural engineer's stamp.
- If your sign requires electricity, make sure it is in working order and in accordance with the National Electric Code.
- Include show site Exhibitor contact information with the order.
- GES reserves the right to not hang any signage/structure that in our opinion is not deemed structurally sound.

Truss and Hoists:

GES is responsible for assembly, installation, and removal of all truss and hoists.

- All truss must be designed to comply with Show Organizer rules and regulations as well as facility limitations.
- All truss must be from a recognized manufacturer. Manufacturer load specifications for your truss must be at show site prior to rigging.
- Ground support truss without the needs of a scissor lift, must be installed/removed by a GES Rigger or a member of Local 831.
- Self Climbing truss structures must be installed by GES Riggers.
- Climbing on truss is strictly prohibited.
- All hoists must be from a recognized manufacturer and must be in good working order.
- Hoist maintenance records should be available for inspection by GES.
- All lamps and fixtures to be attached to truss must be in good working order and in compliance with the National Electric Code.

LED Walls:

LED walls are somewhat challenging to suspend to the ceiling due to their inherent weight. Please submit accurate single panel weights, total number of panels, bumper weight, pick point locations, and overall dimensions. Please include the weight of all rigging hardware and brackets.

- Labor to assemble/remove suspended or ground supported LED Walls requiring a scissor lift, must be performed by GES Riggers. Attaching speakers or other AV components i.e. projectors or projection screens to truss, or into the ceiling, is also work performed by GES Riggers. The Hanging Sign/Truss Labor Order Form should be used to order this labor.
- The load limits to the ceiling are strictly enforced. The loads to the ceiling need to be considered in your design process. GES will be glad to consult with your designer during this process to help them interpret the allowable ceiling loads.
- Ground supported walls without the need of a scissor lift, must be installed/removed by a GES Rigger or a member of Local 831.

3. No outside/external additional power sources are allowed. All show power must be provided by the official Electrical Service Contractor unless special approval is provided.
4. Electrical requirements for an exhibit at all convention facilities are for the safety of all Exhibitors and are based on national electrical codes and local ordinances. Too frequently, fires have been traceable to faulty wiring, sometimes because of carelessness and sometimes because of lack of understanding the risks involved. If an Exhibitor is not informed or does not understand basic safety standards for electrical wiring, an electrician should be consulted before shipment is made to the convention facilities.
5. Serious risks are involved, which can be eliminated by understanding basic requirements of safe wiring inside your booth. For the safety of you and the public and to avoid code violations, remember these points:
 - All wiring must have a 3-wire grounded cord with a minimum of #14 gauge.
 - Spot or flood lighting is a hazard when lamps are too close to fabrics or other material which can be affected by heat.
 - Cube taps and multi-headed extension cords are not allowed.
 - The use of clip-on sign sockets, latex, or lamp cord wire in displays, or the use of 2-wire clamp on fixtures, is prohibited by order of fire prevention bureaus at trade shows and conventions.
 - Zip cords or two-wire cords are ungrounded and could result in safety hazards. Their use is forbidden in all convention facilities. Please leave all 2-wire cords at home.
 - Exhibitor is responsible for providing surge protectors for their goods. Daisy chaining of power strips is not allowed. GES is not responsible for loss or damage resulting from power surges. Furthermore, GES' liability for any and all loss or damage is limited to the value of the cost of electrical services provided or depreciated value of Goods, whichever is less.
 - You may pre-wire your equipment to match our receptacles. Any other modifications are not accepted. Here is a list of the plugs that match our equipment receptacles:
 - 5 amp 120 volt: Standard U-ground cord cap
 - 20 amp 208 volt 1phase or 3phase: Leviton 3521 or Hubbell 3521
 - 60 amp 208 volt 1phase or 3phase: Daniel Woodhead Plug Y560P
 - 100 amp 208 volt 1phase or 3phase: Litton-Veam Plug CIR01GRH
6. In the interest of public safety, exhibits at all convention facilities may be inspected to determine if any violations exist. If they are found, qualified electricians are available to correct the problems. This work will be performed on a time and materials basis. If the Exhibitor does not wish to have the fault corrected, electrical service to the offending booth will not be connected. A fee of \$300.00 may be assessed for the safety and rules violation.

7. GES is not responsible for voltage fluctuation or power failure due to temporary conditions. Exhibitor is responsible for providing surge protectors for their Goods. GES is not responsible for loss or damage resulting from power surges. Furthermore, GES' liability for any and all loss or damage is limited to the value of the cost of electrical services provided or depreciated value of Goods, whichever is less. All electrical installations and connections to all electrical service should be made by a GES electrician. GES will not be responsible for any damage or loss to any equipment, component, computer hardware or software, and/or any damage or bodily injury to any person caused by installation, connection, or plugging in of any electrical outlet by persons other than a GES Electrician.

**Reminder:**

- Check rating plates on your equipment to ensure that you will have the proper power to operate your display.
- Order 24 hour power if required for refrigeration, computer systems, water pumps, heaters, etc.

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

Orange County International Auto Show

How do I know how much power I need?

First, gather a list of all electrical equipment to be powered on in your booth. Consider some of the following elements: lighting, computer equipment, plasmas, company products, AV equipment, and lead retrieval machine. Next, you will want to note where in your booth space the items will be placed and retrieve the power required for each item. The power voltage/wattage/amperage can be found on the equipment tag located in the back of the item. Typically most items require 110/120 volt power. Machinery leans more towards the 208 or 480 volt power ordered either in single phase or 3 phase. Now you can start calculating how power will be required in each area in your booth space. Start by combining the wattage for the 110/120 volt devices in each area and select an outlet that meets or exceeds this total. It is safer to slightly overestimate your power requirements to help minimize tripping or outages. You must order separate outlets for each electrical apparatus with a minimum of 5 amp at each location.

120 Volt Single Phase
60 Cycle
1000 Watts

230 volts
30 Amps
3 Phase

Is this price listed for power per day?

No, the prices listed on the Electrical Outlets Price List are for the duration of the show.

Where will my power be located?

For inline and peninsula booths, you will find your power located on the back side of your booth space. Island/Pavilion booth exhibits will need to submit a diagram indicating where your main power source needs to start from. If GES Electrical does not receive this information, the power will be installed in the center of your booth. Any movements of the main power source after installation will be chargeable on time and materials basis. The first ninety feet of cabling to deliver power to your booth is free. If additional cabling is necessary to power your booth, it will be charged on material and motorized equipment basis. If additional cabling is necessary to power your booth, it will be charged on time, material, and motorized equipment basis. In the following diagrams, the symbol represents the approximate location of power outlets. Main Drop Locations must be indicated on the floor plan as MDL. For Island or Pavilion booths, you need to designate one location for each outlet you order. Multiple outlet locations will be charged on a time, equipment and material basis.

Inline Booths

Peninsula Booths

Back-to-Back Peninsula Booths

Island/Pavillion Booths

One drop will be provided within the booth when power source is in the ceiling or one location on perimeter when power is in the floor.

What is a Main Drop Location (MDL)/Additional Drop?

MDL is the main power source located in your booth. Power is then distributed from this point. If you do not want cords run on the floor throughout your booth, you may choose to request additional drops within your booth space billed on time, equipment, and material basis. The location of the main drop should be placed in area that can either be hid or kept out of sight (i.e. closet or storage area).

How many places do I have to plug into?

You will have two connection points to plug into. Power strips can provide additional sockets, but keep in mind the power you have reserved for your booth space. Additional sockets do not mean additional power. Power strips are designed to trip at 1500 watts/15 amps. Use of the power strip on a 2000 watt outlet location will drop the use in that location to 1500 watts/15 amps. All orders exceeding 120 volts/20 amps provide one connection point only. They cannot accommodate power strips and require labor.

Do I need 24 hour power?

If you have equipment that requires power service to be on throughout the entire show (i.e. refrigerators, programmable equipment), we would recommend ordering 24 hr services. Power is turned on ½ hour before the show opens and turned off ½ hour after the show closes.

092019 022601189
E-1b 100417

When will my power be turned on during move-in?

Every attempt is made to have power installed by the end of day on exhibitor's assigned target date. Freight hold areas (typically by freight doors) are done as space becomes available. Any special requests should be communicated to the GES Electrical Department pre-show. Once on-site, please visit the GES Electrical Service Desk.

Why are the power outlet rates for the outdoor lots higher?

The rates are higher than indoor rates because the outdoor lots have minimal available power source locations. The cost is inclusive of getting power to multiple strategic power source locations in the lots. Getting the power from these locations to your booth is chargeable on a time and material basis, outside of the first ninety feet of cabling that is free. This may include cables, ramps, transformers, etc.

Do I need lighting?

Full facility lights will be turned on during show hours; however, some exhibitors choose to enhance the look of their booth or product by directing light to these areas. GES Electrical has different lighting options available. Contact GES Electrical department pre-show for suggestions and recommendations.

Can I hang my own lights?

Exhibitors (not EAC's) may hang up to four (4) arm lights per total booth space as long as the power does not exceed 2000 watts/20 amps.

Do I need to order power for the lighting I use in my booth?

Power needs to be ordered for any lights brought in by an exhibitor or EAC. Power is included for lights ordered on the Lighting Order Form. Power is not included for lights ordered on the Standard Exhibit Systems and must be ordered separately.

How do I know if I need to order labor?

Referencing the Show Site Work Rules, for safety and liability reasons, GES Electrical is required to provide distribution of all electrical wiring from the main power source (MDL) and to other power locations in your booth typically run under carpet; this is considered Floor Work labor. A good rule of thumb for estimating your floor work labor is three extension cords per hour. You may also reference previous GES Electrical invoices. Any connection of an electrical apparatus in your booth space exceeding total combined wattage of a 2000 watt/20 amp service must also be performed by electricians. This includes, but not limited to, hook-up of electrical equipment, distribution above carpet, installation of lights, monitors, hanging signs, and electrical booth structures; this is considered Booth Work labor. Both types of labor can be ordered on the Electrical Labor Order Form. Accurate estimates can help avoid additional show site labor for unscheduled returns/Go Backs. Additional electricians are billed at showsite rates. Exhibitors are responsible for managing the labor. Please notify the service desk immediately if you are not satisfied with the labor for any reason. Dismantle labor is calculated at 50% of the installation time and is based on the date and time the show closes and move-out time frames (overtime rates may apply); this is an automatic charge and does not need to be scheduled. If the nature of your booth requires specific dismantle requests, please advise GES Electrical service desk. Equipment used for dismantle is billed at one (1) hour minimum. Labor orders submitted for Floor Work – Exhibitor Supervised and Booth work must provide date and time. GES Electrical does not accept will calls. This is not considered a complete order. Regular or show site rates may apply. Floor Work – GES Electrical Supervised does not require a date and time as this labor will be performed and completed prior to your arrival, dependent on receiving power, floor plan and payment.

Do I need to order labor to hang my lights?

Referencing the Electrical Outlets Order Form for GES Electrical lights: For inline and peninsula booths that require placement in the back of the booth, labor is included in the price of the lights. For peninsula and island booths that require placement away from the main power source and throughout the booth space, exhibitors are required to order labor. Keep in mind, depending on location and height, equipment may be required and billed accordingly. Typically, lights hung over 12ft require a scissor lift. Equipment rental is recommended for expediting larger quantities of light. If the lights are exhibitor owned, outside of the four (4) arm light rule, a labor order is required. If the lights are EAC owned, a labor order is required.

What if I want to use my own cords and plug strips?

Exhibitors may use their own extension cords and power strips under the regulations provided on the Electrical Safety and Regulations form (to be used over carpet only and not exposed to attendee foot traffic). Be sure to advise the electricians working in your booth that you have brought your own materials. All materials under the carpet must be supplied by GES Electrical for safety reasons.

What is an electrical floor plan and why do I need one?

A floor plan provides the electricians with the necessary information to perform the work requested in your booth space. A floor plan must have the following components: must be scaled, have orientation (call out the surrounding booths in accordance to front/back/sides in your booth), Main Drop Location (MDL), and power distribution points (provide specific measurements of these locations). GES Electrical must also receive an electrical floor plan for placements of the 1000 watt overhead lights.

How can I ensure that I receive the discount rates on my electrical order?

Be sure to submit the following by the electrical discount deadline date:

- Complete valid Payment and Credit Card Authorization.
- Order Electrical Outlets
- Schedule Electrical Labor if distribution is required or for the hook up of electrical apparatus.
- Return complete Booth Layout Form. Prefer submission in PDF or CAD form.

All of the items listed above must be received on or before the discount deadline date in order to receive the discount rates. If one item is incomplete or missing, the order is considered incomplete and the outlet rates will be placed at regular rates and the labor rates will be based on when a complete order is received. Common examples of incomplete orders are (but not limited to) unreadable floor plans, will call (missing date/time), bulk power, no main drop location, and power/floor plan revisions. If you have any questions or concerns, please contact us.

How do I know if my Hanging Sign is Electrical?

Your sign is electrical if it requires electricity, requires a hoist or rotator, or exceeds 300lbs. Hanging Signs require lift equipment to reach the ceiling and must be ordered on the Hanging Sign Order Form. Hanging Sign must be received at the advanced warehouse and the order and payment to GES Electrical office by the discount deadline date.

What is Exhibitor Supervision? An exhibitor chooses Exhibitor Supervised so they are able to instruct the laborer in person. The exhibitor is required to be in the booth and there are no supervision fees. A Scheduled date and time is necessary for this choice.

What is GES Supervision? An exhibitor chooses GES Supervised when they want the work completed prior to their assigned target date and time. - Solicitation of business on the show floor is strictly prohibited. If EAC attempts to provide services designated to another party as "exclusive" or is discovered soliciting on the show floor including the distribution of official company literature, or otherwise does not comply with the rules, the company may be removed from the show floor, and the exhibitor will not be able to use that company for the remainder of the event.

Rules and Regulations (continued)

17. The exhibitor or its EAC should take steps to protect the exhibitor and the EAC's product in the booth by arranging for booth security and/or cages. GES is not responsible for items left unattended on the show floor.
18. EAC agrees GES is not responsible for any items stored in empty containers. Do not store empty cartons inside of empty crates. Cartons are returned from storage before crates so exhibitors may begin packing their product.
19. EAC/exhibitor agrees to keep "No Freight Aisles" clear at all times. If GES is required to rearrange any material situated in a clearly identified "No Freight Aisle," the exhibitor or the EAC depending upon the billing arrangements with GES will be charged a one hour minimum for forklift rental and labor.
20. EAC/exhibitor agrees that all outbound freight bills should be turned into the service desk on a timely basis. Holding freight bills until late in the day or turning in large amounts of freight bills to the GES Servicer at one time may delay outbound truck scheduling and subsequently force your loading out into overtime.
21. During tear down, pull all manageable structures back from aisle carpet lines. Electronics, mannequins, etc. should be placed in the center of the booth.
22. Be aware of vehicle traffic inside and outside of the facility. All attendees should be aware of their surroundings and all individuals are solely responsible for their own safety in parking lots, driveways, access roads and non-exhibit hall areas.
23. Label empty cartons and crates for storage as soon as they are ready. Holding back on "empties" only adds congestion to the aisles.
24. For services such as electrical, plumbing, telephone, cleaning and drayage, no service provider other than the Official Service Provider will be approved. This regulation is necessary due to licensing, insurance and work done on equipment and facilities owned by parties other than the exhibitor. Exhibitors shall provide only the material and equipment they own and those materials are to be used only in their exhibit space.
25. Smoking is prohibited in most facilities. Smoking shall only be allowed in designated areas.
26. This agreement is to be interpreted under the laws of the State of Nevada.
27. A faxed signature will serve as an original signature and will stand as a fully executed agreement once faxed to and received by GES.

Union Information

To assist you in planning your participation in your show, we are certain you will appreciate knowing in advance that union labor will be required for certain aspects of your exhibit handling.

Decorators Union - Local 831

Members of this union claim jurisdiction over all set-up and dismantling of exhibits including signs and carpet installation. This does not apply to the unpacking and placement of your merchandise. You may set-up your exhibit display if one person can accomplish the task in less than one (1) hour without the use of tools.

If your exhibit preparation, installation, or dismantling requires more than one (1) hour, you must use union personnel supplied by the Official Service Contractor.

As an exhibitor, you will be pleased to know that when union labor is required, you may provide your company personnel to work along with a union installer in Southern California on a one-to-one basis.

Teamsters Union

Members of this union claim jurisdiction on the operation of all material handling equipment, all unloading and reloading, and handling of empty containers. An exhibitor may move materials that can be carried by hand, by one person in one trip, without the use of dollies, hand trucks or other mechanical equipment.

Electrical Union

Members of the IBEW claim jurisdiction for hard wiring ordered outlets to the line side of the exhibitors' equipment and wiring of caps over 120 volts to the raw cord feeding exhibitors' equipment. All plugs over 120 volts will be plugged in by electrical union personnel. Exhibitors may plug in their own plugs of 120 volts to their ordered outlets.

Our work rules prohibit the solicitation or acceptance of tips in cash, product or gifts in kind by any employee (union or non-union). Our employees are paid appropriate wages denoting professional status, therefore tipping of any kind is not allowed.

All balances must be paid upon conclusion of the event. You agree to late fees up to 1.5% per month on any balance not paid at the conclusion of the event, or balance left without appropriate credit card on file.

For your convenience, we will use the credit card authorization to charge your credit card for any additional amounts ordered by your representative or services rendered to your company for this event.

GES will charge a convenience fee for each request to reprocess payment to an alternate credit card in order to cover incremental processing costs. An alternate credit card is a credit card different than the one used to process your initial payment in accordance with GES payment policy. The convenience fee will be quoted at the time your request is made to reprocess payment. The convenience fee will be added to your account balance and settled utilizing the new credit card provided.

GES requires the highest standards of integrity from all its employees. Please call our confidential Always Honest hotline at (800) 443-4113 to report fraudulent or unethical behavior.
