Exhibit Construction

The ISSE show adheres to booth construction guidelines developed by the International Association of Expositions & Events (IAEE). Specific guidelines listed below are supplemented with diagrams and descriptions. Please contact Show Management to discuss any booth construction issues. When in doubt, a picture or booth layout may help to clarify. Your booth cannot hinder the sight line of booths next to you.

Exhibits, booths, signs, partitions, and display counters, exceeding 8' in height or more than 24' above the floor will require inspection. All must be pre-approved by Show Management.

Scaffolding, stairs/risers, exhibit booths, signs, partitions, display counters and platforms over 24' and above, and single story covered and uncovered structures over 12' in height require an inspection to be completed on site. All must be pre-approved by Show Management.

The Long Beach Convention Center (LBCC) Service desk must be notified of any equipment needing 24-hour electrical hookup.

All exhibits and/or displays are subject to inspection by the Long Beach Fire Department. Written authorization by LBCC management and the Long Beach Fire Department shall be required for the following:

Operation of any heater, barbecue, heat producing or open flame devices, candles, lanterns, torches, welding equipment, smoke emitting devices or materials, etc.

All decorations including but not limited to drapes, table cloths that hang six (6) inches below the edge of the table, signs, banners, acoustical materials, cotton, hay paper, straw, moss, split bamboo, wood chips, wood less than ¼ inch, foam core, etc., shall be treated with flame retardant. Glass or otherwise inherently fire retardant cloth may be used without being treated.

Exhibitors shall present a State Fire Marshall certificate of flame retardant treatment and a sample of material for a field test upon the request of the Fire Marshall.

Crate storage is not permitted in an unoccupied exhibit or event area. No empty cartons are to be stored behind curtains or in booths.

Show management reserves the right to enforce guidelines and intervene with actions that will affect exhibitor booth placement and participation at future ISSE shows.

Height and Sightline Guide

Due to extravagant booth heights and sightline violations, all booth displays that exceed the 8ft height limit, regardless of size, must turn in a picture or diagram of the booth display, to be approved by Show Management. The layout should indicate all measurements of the display (height/width), along with any other pertinent booth design information. Diagrams must be submitted to ISSE Show Management no later the December 10th, 2018.

Even if they have pre-purchased a ticket from an authorized distributor, they must show a photo ID and a professional license in order to get through the show doors.
