

OPERATIONS, MAINTENANCE
& SAFETY CONFERENCE

February 23-25, 2027
Long Beach, CA
Long Beach Convention Center

Dear OMS Exhibitor,

We are thrilled to welcome your organization to the **2027 Operations, Maintenance & Safety Conference & Exhibition (OMS)**, taking place **February 23 to 25** at the **Long Beach Convention & Entertainment Center in Long Beach, CA**.

As an exhibitor, your presence on the show floor is what makes OMS the premier event where industry leaders come together to tackle retention strategies, recruitment techniques, and training best practices, all aimed at strengthening our workforce and our industry.

We are pleased to share the 2027 Exhibitor Services Kit, which contains the key information you need to transport your materials, manage move-in and move-out, and place orders for booth utilities, catering, furniture, AV, and other services. GES returns as our general services contractor, and together with the ACP Business Development Team, we are ready to help you build a memorable and engaging presence in Long Beach.

Please note that the exhibit display rules and regulations, specifically the height regulations and line-of-sight rules, as well as exhibit hall hours, will be strictly enforced. If you have questions about your booth design, please check with ACP's Business Development Team before you finalize it. If you are new to OMS, you will find that our rules and regulations align with current IAEE (International Association of Exhibitions and Events) standards.

Key Things to Keep in Mind:

- 1. Complete your exhibitor checklist.** Review and update your company profile in the Exhibitor Resource Center (ERC) and complete all checklist items so attendees can find you early and easily in the event app and your load-in goes smoothly and stays compliant.
- 2. Place your orders early to take advantage of discounts.** All discount deadlines are on the ERC Exhibitor Checklist and the GES Service Kit home page.
- 3. Put your complimentary passes to work.** If you have unused exhibitor passes, invite colleagues or partners using the passes allotted to your booth space. Visit the ERC for details on purchasing additional passes beyond your allotment.
- 4. Expand your presence through additional opportunities, including:**
 - ✓ Announce that you are exhibiting across your social media channels.
 - ✓ Secure sponsorships to amplify your brand at the show. You can find sponsorship opportunities in the ERC Exhibitor Checklist section.
 - ✓ Schedule meetings with clients, colleagues, and partners in the supplemental meeting rooms on the show floor.

Thank you for partnering with ACP and joining us for OMS 2027. We are excited to see you in Long Beach and look forward to another successful show. If you have any questions, please contact the ACP Business Development Team at partnerships@cleanpower.org.

Thank you,

Christian A. Sanchez-Feliciano, CEM

Sr. Manager, Event Sales
