## WHERE THE CHIP MEETS THE BOARD Rules & Regulations

### BOOTH CONSTRUCTION REGULATIONS & DIAGRAMS

#### STANDARD LINEAR BOOTH

**Definition:** One or more standard booth units (10x10) in a straight line.

#### Height Limit Specifications:

- Back 5' of booth has a maximum height of 8'.
- Front 5' of booth has maximum height of 4'.
- Displays are limited to 4' in height, in the front portion of each booth. Machinery, equipment, or products may not be shown on a raised/built-up platform or counter if they interfere with the height restrictions. If your display exceeds 4' in height, it is required that you place it away from the 5' x 10' sightline area in the front of the booth in order to provide a "see-through" lane for neighboring exhibitors.
- All booths must have carpet/flooring and no cement is allowed to show at sides or front of booth.

Approvals for hanging signs and for variances will not be considered for standard linear booths.
