Before any Contractors or Vendors load in for the show, please be aware of and inform all your on-site managers and foremen about the building policy, which applies to all BOH workers, clients, and guests who may be exposed to a hazardous area.

- Team San Jose has determined that the loading dock and all areas where forklifts operate are hazardous. PPE is required for all persons that may be exposed to the hazard.
- Team San Jose has determined all areas under or near overhead work are hazardous. PPE is required for all persons that may be exposed to the hazard.
- Your companies must supply PPE to your employees.
- If you have contractors, they or you supply PPE to work in these areas on TSJ buildings.
- TSJ will supply PPE to IATSE 134 if needed; they are TSJ employees.
- All this and the ID requirements are in the Team San Jose Access Control System.
- ACS is a TSJ building policy.
- TSJ ACS complies with OSHA subpart 1910 (a-h) regarding PPE.
- PPE and ID requirements are on pages 2 and 3.
- All visiting workers must enter and exit by the employee entrance on Viola Street (see maps below). Pedestrian traffic is prohibited on the loading dock ramp.
- Please provide the names of all visiting managers and foremen for easy communication throughout the event.
