IMPORTANT-PLEASE READ BEFORE SETTING UP DISPLAY-IMPORTANT

SPRAY, PAINTING: Any Exhibitor wishing to spray paint or touchup any equipment or display may do so only at locations authorized by building management and must provide protection for surrounding surfaces. Absolutely no painting will be permitted in any carpeted areas. There will be no exceptions to any of the above.

1. Positive battery terminals must be disconnected from battery.
2. Gas tank cap filler tube or door must be taped shut, or a locking gas cap must be used.
3. No gasoline motors or engines may be run in exhibit spaces, after equipment is in place in exhibit, motors are not allowed to run.
4. No open gas cans, gas, oils, propane, butane, helium, or other gases may be brought into exhibit area. No open flames allowed.
5. Vehicles must have plastic or visqueen in place under motor and drive train components when placed on carpeted areas.
6. No straw, chips, or any other flammable materials are allowed unless treated by flame retardant spray. If sand is used, plastic must be placed on floor before sand is used. Sand must be contained and kept from spreading beyond the plastic area.
7. All fire hoses and extinguisher cabinets must be visible at all times.
8. All electrical panels on columns and floor utility boxes must be accessible at all times.
9. Live Christmas trees are not permitted, unless they have a root ball at the base of the tree.

Regarding safety and fire regulations, if you are in doubt as to what is allowed, contact show management for your event or The Director of Convention Services.

We thank you in advance for your cooperation in the above-stated rules and regulations.
