

Booth Design Approvals

Deadline: June 1, 2026

ALL IWF 2026 exhibitors ARE REQUIRED to submit booth designs to IWF for approval.

Drawings submitted by exhibitors for booth design approvals are intended to ensure your design complies with IWF display rules before the show to avoid any problems during set-up. Please review the rules for your space's configuration with close attention to height restrictions and graphic placement. Drawings can be as simple as a hand drawn sketch but must indicate heights of display items including any lighting mounted on the back wall or side walls. If you have questions regarding display compliance rules for your exhibit space, please contact J.P. Roberts at: jp@iwfatlanta.com or by phone: 404-693-8337.

Also, reminder that ALL Hanging Signs must be approved also.
