1. PAYMENT AND CANCELLATION - All booth reservations made prior to **June 24, 2013**, must be accompanied by **50% deposit and signed contract**. Booth reservations made on or after **June 24, 2013**, must be accompanied by full payment and a signed contract. Applications will not be processed nor exhibit space assigned until exhibitor submits the appropriate payment by the dates set forth above. Incomplete applications will not be processed. Deposits are nonrefundable.

Cancellation of booth space after June 24, 2013, will incur **100%** of booth rental fee. All cancellations must be submitted in writing in order to be valid. In the event of cancellation, space reverts back to Show Management for use at its sole discretion. Show Management's ability to resell the space shall not affect the refund schedule. In the event an exhibit booth is cancelled, exhibit booth registrations are prohibited from being utilized by the canceling company regardless of whether booth payment has been received. The Exhibitor will be notified by Show Management in the event of such occurrence

4. SUBLETTING SPACE - Exhibitors may not assign, sublet, or apportion to others all or part of their space and may not advertise or display goods or services other than those manufactured or sold by them in the regular course of business. However, an exhibitor may use outside equipment or products to enhance his own presentation without giving credit to the manufacturer.

5. DISPLAY - Show Management reserves the right to restrict the operation of, or evict completely, any exhibit which, in its sole opinion, detracts from the general character of the exposition as a whole. This includes, but is not limited to, an exhibit which because of noise, flashing lights, method of operation, display of unsuitable material, is determined by Show Management to be objectionable to the successful conduct of the exposition as a whole. Use of so-called "barkers" or "pitchmen" is strictly prohibited. All demonstrations or other promotional activities must be relegated to the confines of the exhibit space. Sufficient space must be provided within the exhibit booth for the comfort and safety of persons watching demonstrations and other promotional activities. Each exhibitor is responsible for keeping the aisles near his exhibit space free of congestion caused by demonstrations or other promotions.

An exception will be granted only if it will not interfere with, or prejudice, the orderly installation, interim services, or dismantling of the exhibition. An exception will be denied if it interferes with commitments Show Management has made in any contract with service contractors, or in its agreement with the lessor of the exhibition space. For electrical, plumbing, telephone, drayage, and rigging services, no exception will be made. All employees of agents representing the exhibitor must be identified by proper identification. All persons performing services directly for an exhibitor, other than the exhibitor's employees, must maintain liability insurance in the amount of not less than \$1,000,000 per occurrence, with Corcoran Expositions, Inc. named as an additional insured and such persons must provide Corcoran Expositions, Inc. with certificates of insurance at least 30 days before the show opens, or Show Management may revoke any exception made. The exhibitor waives any right to service or to written notice of Show Management intentions to close an exhibit.** COMPTTEL assumes no liability for any work performed by any contractor, and exhibitor shall look solely to such contractor in the event of any injury or damage resulting from the work performed by such contractor.

11. STORING CRATES AND BOXES - The official drayage contractor will handle and provide storage spaces for crates and boxes during the exhibition and will return properly marked materials after the show is over. The contractor will supply tags to be attached to each piece stored. Small boxes should be nested in larger ones to reduce the number of pieces to be stored. No boards will be accepted for storage unless they are securely tied in bundles and tagged. Fire regulations require that wrapping materials such as paper, excelsior, etc. must be completely enclosed within the packing boxes.
