Details Matter When Shipping

Material Handling is the unloading of your exhibit materials. The service includes delivery to your booth, handling of empty containers to and from storage and removal of your materials from your booth for reloading onto your outbound carrier. This is not to be confused with the cost to transport your exhibit material to and from the event.

- Unloading the freight and delivery to your booth is not included. Avoid unexpected costs at show site and estimate the cost for this service. <http://e.ges.com/052601368/item/200500>
- We understand that your calculation is only an estimate. Invoicing will be done from the actual weight. Adjustments will be made accordingly.
- Save by combining shipments. A minimum charge applies for each shipment under 200 lbs.
- Make sure that a Bill of Lading is filled out completely for each shipment.
- Confirm that your driver has the correct dates and times that your shipment needs to be delivered and picked up.
- Use provided shipping labels to make sure show name, booth number and other vital information is provided.

- Make sure your credit card information is complete and correct, including the expiration date.
- Review GES Payment Policy and the Terms and Conditions of Contract.
- Clearly indicate when paying by check. All check payments should be returned to:

No Tipping Required

GES work rules prohibit the solicitation or acceptance of tips in cash, products or gifts of any kind by any employee. Our employees are paid appropriate wages denoting professional status; therefore, tipping of any kind is not allowed.

Where Did My Crates Go?

After your exhibit is set-up and your products displayed, you must place "empty" stickers on your empty containers for storage during the show. At show site a kiosk with a floor plan and color coded "empty" stickers will be available. Crews will clear the floor of all "empty" stickered containers to clear room for other freight.

- Simply write your booth number, company and show name on the sticker and place the container in the aisle. It will be stored throughout the exposition and then returned to your booth upon show close.
- Place stickers on all four (4) sides of the crate.
- Please label your empty containers as soon as possible to keep your area clear and make it easier to prepare your booth.

Don't Forget to Take Out the Trash

Exhibitors planning on disposing of booth properties and/or floor covering at the end of the show should pre-order this service. In the event that excessive booth properties and/or floor covering are abandoned/left on the floor at the conclusion of a move-out, a dumpster fee will be billed to the exhibiting company.

Keeping Up Appearances

Pay close attention to your booth size when ordering items based on booth sq. footage or quantity of decorating items. Please do not order more than what will comfortably fit in your space.

- Exhibitors that order two (2) standard pre-cut carpet pieces should keep in mind that there will be a visible seam where the pieces of carpet are placed together. GES cannot guarantee that carpet colors will be an exact match due to dye lot differences.
- Order just enough carpet to fit your standard booth space. A 10' x 10' booth should not order 10' x 20' carpet.
- We custom cut carpet to fit your needs.

It's All About the Padding

Ordering carpet for your booth? Think about the kind of padding you need if you are going to be on your feet all day. That little extra cushion can make all the difference at the end of the day.

Carpet and Padding: <http://e.ges.com/052601368/carpet/esm>

What Goes Up Must Come Down

If labor is needed for your booth space at the time of move-in, you will also need labor for move-out. Remember, what you put up must be taken down.

- See Labor Information form for rules specific to the show. Work rules can vary based on show location.
- Gratuities in any form, including cash, gifts, or labor hours for work not actually performed are prohibited by GES.
- All rates are subject to change if necessitated by increased labor and material costs.
- Pre-order labor to save.

Labor Services: <http://e.ges.com/052601368/LaborandEquipment/esm>

Graphic File Solutions

We are committed to partnering with you to provide comprehensive and effective graphic solutions for your event. The graphics print and production industry continuously evolves, and we want your graphics and images to look their absolute best.

To ensure the highest quality output from your digital files, and to make file transfers as seamless as possible, please review and follow these guidelines when submitting artwork to GES. We also offer layout and design services for a fee. Please contact GES for details.

Suitable Programs for images or logos	
Program	Preferred Format
Adobe Illustrator CS6, CC 2014	.ai, .eps
Adobe Photoshop CS6, CC 2014	.tif (LZW), .jpg (High Quality), .psd
Adobe InDesign CS6, CC 2014	.indd (include all links)
Adobe Acrobat	.pdf (Press Quality Setting)

Suitable Media for images or logos	
Media	Preferred Format
CD-ROM	Hard copy color proofs
DVD-ROM	Hard copy color proofs
Email Attachments	Limited to maximum size of 5MB
FTP	Mandatory ZIP or SIT compression

- Save money by providing your artwork/graphic files in the recommended formats.
- Send your graphics early with client name, show name, and booth number to avoid costly delays.
- Do not copy graphics from web pages as they will be low resolution and not suitable for your exhibit/sign.

Avoiding Additional Costs

Files obtained from the internet (.jpg or .gif) or artwork created in MS Office applications (Word, Excel, PowerPoint) are often not suitable for high quality output, and often require additional hourly charges. Artwork should be created at actual size, however, for larger files i.e., banner artwork, 10% or 25% of actual size is acceptable. Scans should be no smaller than 300dpi at quarter size. To avoid additional costs associated with these file types, please supply files in accordance as defined herein.

Vector Artwork

For the best quality, create in vector format (ai or vector eps).

Logos taken from websites are generally GIF files. GIF files are not acceptable as they will not print clearly. See visual.

Artwork produced in vinyl, for example, solid company logos or text must be supplied in a vector format (ai or vector eps). Artwork created in a pixel format i.e., TIFF and JPEG is not suitable. See visual.

Bitmap/Raster Artwork

TIFF and PSD - These are the preferred file formats for raster images. Files should be supplied at 100dpi at full size, or they should re-scale to those dimensions. If the resolution is lower than 100dpi, images can look blurry or pixelated when printed. If there is a lot of small text in the raster image, the file can be provided at higher resolutions to ensure print quality. See visual.

JPEG - We can use JPEG files, but because JPEGs use file compression this can sometimes affect image quality. Therefore, this file type should only be used if the files are being emailed.

PDF - These are print files only and cannot be altered to fit different sizes; artwork must be set up at the correct proportion and at print-ready quality. Ensure images are saved at high resolution (100dpi at final size).

Front and Backlit Graphics

When producing artwork for front lit graphics or transparencies keep these points in mind:

- Avoid setting type in Photoshop — instead use a vector-based program (such as Adobe Illustrator) for your type. If you do use vector smart objects, save the file as an .eps or .psd to retain vector properties.
- If you plan to add effects to your type (such as drop shadows or glows), follow these steps:
 - a. Import the Illustrator type into Photoshop
 - b. Add effects to the type
 - c. Separate the effects onto a layer
 - d. Delete the type layer
 - e. Assemble the type and photo in a vector program
- Always provide logos in a vector format.
- If you have critical PMS colors to match, provide us with a layered Photoshop file to allow for color editing.
- Always add at least 1" of bleed to your images.
- Use gradients carefully and sparingly. Gradients often "band," and little can be done to correct the problem. Look at your high res file at 100% — if you can see the banding, it WILL appear in the print. Adding 1 pt. of noise to the file may resolve the problem.

File Sizes

Please build Photoshop (raster) graphics to at least 100dpi at final size. Any combination of size/resolution that produces this result is acceptable.

(e.g. 1/4 size file @400dpi)

Here is an easy way to determine how much digital information is needed for your graphic:

- Open a new document in Photoshop.
- Enter the final width and height of your graphic.
- Enter a resolution of 100 dpi.

The resulting megabyte size is the approximate amount of digital information we need for best quality output.

Adobe Illustrator, InDesign, Photoshop

- Work with .eps files as much as possible. .eps files are a better quality file format than .tif files and are accepted more easily by Adobe Illustrator.
- Save a Low Res version of your files for proofing and a Hi Res file for production. Illustrator allows for seamless swapping of LR and HR files provided the images are the same dimensions.
- When saving your HR file, use the settings shown in *figure a*. This will compress the information in the file without degrading the quality. High resolution files saved with this setting present no issues for our output devices.
- If you must work with a .tif file because you are colorizing it in Illustrator, save the HR file with the LZW compression option.
- Keep all color-critical elements of your design vector whenever possible. Don't send the layered Photoshop unless you need critical color corrections. If you want to add a Photoshop effect to a logo or color critical text: set the text in Illustrator or keep the logo vector, create the desired effect in Photoshop, then link the Photoshop file into Illustrator under the color critical vector art or text.
- Photoshop files with text or vector smart objects need to be saved out as .eps or .psd to retain vector properties.

Placed Images

Provide placed images at 100dpi at 100% of final size as a .tif (LZW compression) or .psd. Embedding images in Illustrator is preferred and need to be 100dpi at final size.

Fonts

Turn all fonts to outlines or convert to paths before sending the files. If you are using a program where this is not an option, YOU MUST INCLUDE ALL FONTS with your files. OTF (open type fonts) are preferred.

Vinyl

We can only produce vinyl for type or logos from VECTOR based artwork. DO NOT send PowerPoint files, .gifs, .jpgs, .pdfs or raster-based images output to vinyl.

Remember

- You MUST add bleed to your photographic images.
- Backlit graphics are held in place with velcro or with a frame—place type and critical images at least 1" from all edges to avoid this dead space (see diagram below).
- You MUST provide PMS colors. We are not responsible for accurate reproduction of your logo or corporate colors if PMS matches are not provided.
- Please make certain that your scans are clean (free of dust, dirt, and scratches) BEFORE you send them for production. Deadlines and time constraints do not allow us to check all your images for quality. We must assume the images you provide are the highest quality available to you. To check for quality, look at your Photoshop files at 100% enlargement. If you can see dirt and scratches, they will appear on your final output. Use the rubber stamp tool (clone stamp tool) to eliminate these imperfections.

Delivery and pick up times are often out of the range of normal delivery hours; make sure your carrier is committed to meeting your target dates and times. While making shipping plans to the show, also plan for the return shipment.

Tracking Shipments

Confirm your delivery date and time with your carrier, and have all pertinent shipping information in the hands of your representative at show site. You may also want to review the return of your goods at the end of the show. GES Logistics domestic shipments can be tracked online by going to:

Estimating Material Handling Charges

Handling charges are based on the weight of the freight. Shipments are billed by the hundred weight and rounded up to the nearest hundred. Minimum per shipment may apply, see enclosed Material Handling/Drayage Order Form for details. Please prepay all shipping charges - GES cannot accept or be responsible for collect shipments. Crated and uncrated shipments must be separated and clearly identified on separate bills of lading with separate weight tickets; otherwise, GES will invoice the entire load at the uncrated rate.

- Crated - Material that is skidded, or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
- Uncrated - Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.
- Special Handling - Defined as shipments that are loaded by cubic space and/or packed in such a manner as to require special handling, such as ground loading, side door loading, constricted space loading and designated piece loading or stacked shipments. Also included are mixed shipments and shipments without proper delivery receipts.
- Overtime Surcharges - Shows that move-in or move-out on weekends or after 4:30 PM during the weekday, may be subject to additional overtime surcharges. See enclosed Material Handling/Drayage Order Form for details.

Late Surcharges - May be charged an additional overtime surcharge

- If advance freight is received before or after the published deadline date for shipments to arrive at the warehouse. See enclosed Material Handling/Drayage Order Form for details.
- Freight shipments sent to the show after it has opened.
- Freight shipments that are received at show site that do not meet their published date and time.
- Shipment Surcharges - A surcharge will be incurred per shipment for those that are received with incomplete information on shipping labels identifying company name and booth number and/or shipments that are left on the show floor at the end of the show with no labels and no bill of lading turned in.

Machinery Labor and Equipment

Labor and equipment for uncrating, unskidding, positioning, leveling, dismantling, recrateing, and reskidding machinery and/or equipment must be ordered separately. Place your order for this labor using the Forklift Labor Order Form. If your material requires specialized rigging equipment, please notify us promptly so that we can make arrangements. When possible, supply your own rigging equipment with shipments and pre-rig your material.

Storing Empty Containers

Properly labeled empty shipping cartons will be picked up, stored, and returned after the show. Labels are available at the GES Servicer[®] or from your GES Service Executive and are for empty storage only. Depending on the size of the show, it can take from two to twelve hours to return empty crates. Do not store any items in crates marked "empty." GES has no liability for damage to crates or items sent to empty storage in crates.

Outgoing Shipments

An OMHF (Outbound Material Handling Form / Bill of Lading) must accompany all outgoing shipments. Shipping information, outbound forms and labels will be available at the GES Servicer[®]. Exhibitors selecting non-official carriers will need to make their own arrangements for pickup. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display and product.

Stacked, Cubed-out, or Loose Shipments

Personally Owned Vehicle (POV) Instructions

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

South Beach Symposium
Loews Miami Beach Hotel
March 1 - 3, 2018

Important Instructions for Personally Owned Vehicles (POV)

To support your event planning for Loews Miami Beach Hotel, GES would like to point out the following information related to POVs.

- All POVs and individuals wishing to gain access to the docks must check in at the Freight Desk to obtain a DOCK PASS. The registered booth name, number and identification will be required.
- Drayage services provided for POVs are subject to the material handling rates as outlined on the Material Handling/ Drayage Order Form.
- Loads will be weighed on a scale at the exhibit hall dock. Items are weighed to ensure accurate material handling billing.
- At close of show exhibitors obtain an Outbound Material Handling Form from the GES Servicenter. Exhibitors who will be removing their items via a POV must have this form signed and dated by a GES Service Representative.
- This authorized Outbound Material Handling Form is required to gain access to the docks for outbound material handling services. This paperwork must be in the hands of the POV driver (please do not leave in the exhibit hall).
- It is difficult to project the number of exhibitor's who will utilize POV material handling services. POVs are served on a first come, first serve basis and need to follow the times outlined on the Show Information form for a smooth process. Exhibitors planning to remove items immediately at show close should anticipate a two-hour window for these services at Loews Miami Beach Hotel.
- Exhibitors may park in the Loews Miami Beach Hotel parking lots and hand carry items into the exhibit hall (without the use of wheeled carts or dollies). This restriction is for safety purposes and to reduce damage to entrance ways and common areas of the facility.
- Please do not park POVs in any of the public areas near the building as Loews Miami Beach Hotel Security may ticket or tow.

GES makes it a priority to service POVs in an efficient manner through the material handling process. For additional questions please chat with us www.ges.com/chat/.

For those POVs who wish to Self Unload utilizing the Exhibit Hall docks, please be advised of the following instructions.

- The following Vehicles are the only vehicles that qualify for this:

Sedan

Van

SUV

Small Pickup

- Trailers of any size are not eligible to be unloaded and are considered part of the GES's material handling jurisdiction. Some shipments may be eligible for the GES Cartload service with costs billed per the kit form.
- Two persons must be present in the vehicle so that the driver remains in the vehicle at all times. There is very limited space for this service, so a maximum time limit of 10 minutes per vehicle is allowed for the freight and vehicle to be removed from the dock. This will allow efficiencies in other POVs wishing to utilize this self unload service.
- Vehicles left unattended will be subject to towing.

Agreement and Rules and Regulations between GES and EAC

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

March 1 - 3, 2018

Form Deadline Date:
January 30, 2018

Company Name	Email	Phone Number	Booth Number
--------------	-------	--------------	--------------

Rules and Regulations (continued)

17. The exhibitor or its EAC should take steps to protect the exhibitor and the EAC's product in the booth by arranging for booth security and/or cages. GES is not responsible for items left unattended on the show floor.
18. EAC agrees GES is not responsible for any items stored in empty containers. Do not store empty cartons inside of empty crates. Cartons are returned from storage before crates so exhibitors may begin packing their product.
19. EAC/exhibitor agrees to keep "No Freight Aisles" clear at all times. If GES is required to rearrange any material situated in a clearly identified "No Freight Aisle," the exhibitor or the EAC depending upon the billing arrangements with GES will be charged a one hour minimum for forklift rental and labor.
20. EAC/exhibitor agrees that all outbound freight bills should be turned into the service desk on a timely basis. Holding freight bills until late in the day or turning in large amounts of freight bills to the GES Servicer at one time may delay outbound truck scheduling and subsequently force your loading out into overtime.
21. During tear down, pull all manageable structures back from aisle carpet lines. Electronics, mannequins, etc. should be placed in the center of the booth.
22. Be aware of vehicle traffic inside and outside of the facility. All attendees should be aware of their surroundings and all individuals are solely responsible for their own safety in parking lots, driveways, access roads and non-exhibit hall areas.
23. Label empty cartons and crates for storage as soon as they are ready. Holding back on "empties" only adds congestion to the aisles.
24. For services such as electrical, plumbing, telephone, cleaning and drayage, no service provider other than the Official Service Provider will be approved. This regulation is necessary due to licensing, insurance and work done on equipment and facilities owned by parties other than the exhibitor. Exhibitors shall provide only the material and equipment they own and those materials are to be used only in their exhibit space.
25. Smoking is prohibited in most facilities. Smoking shall only be allowed in designated areas.
26. This agreement is to be interpreted under the laws of the State of Nevada.
27. A faxed signature will serve as an original signature and will stand as a fully executed agreement once faxed to and received by GES.

Union Information

To assist you in planning your participation in your show, we are certain you will appreciate knowing in advance that union labor will be required for certain aspects of your exhibit handling.

Global Experience Specialists, Inc. (GES) will have trained labor available to assist you in all aspects of the setup and dismantle of your booth and with the movement of your equipment. Union exhibit labor claims jurisdiction for the installation, dismantling and cleaning of prefabricated exhibits and displays when this work is done by persons other than full time company personnel. Exhibitors handling this work themselves must be prepared to provide proof of full time employment. Labor may be employed by completion of labor forms enclosed in the service kit. If, however, you hire any labor to assist you, it should be through the Official Services Contractor. All mechanical equipment on the trade show floor must be under the care, custody and control of GES. This includes Forklifts, Scooters, Pallet Jacks, Genie Lifts, etc. as well as all other equipment mechanical in nature.

Freight Handling Jurisdictions

Global Experience Specialists, Inc. (GES) has the responsibility of receiving and handling all exhibit materials and empty crates. It is their responsibility to manage docks and schedule vehicles for the smooth and efficient move-in and move-out of the exhibition. Global Experience Specialists, Inc. (GES) will not be responsible, however, for any materials they do not handle. Global Experience Specialists, Inc. (GES) will have complete control of the loading docks at all times. If you wish to unload or load, you must report to the GES Servicenter. Do not proceed to the docks until authorized to do so. Vehicles must not be left unattended at the loading areas. Any unattended vehicles will be towed away at the owner's expense.

The Fire Marshal absolutely prohibits the storage of empty containers in the exhibit hall. Arrangements are available with Global Experience Specialists, Inc. (GES) to store empty crates. Please refer to the Material Handling & Shipping Information in the service kit for the handling of empties. The following is a guideline of the work your company's staff is permitted to do:

- w Transport small items to your booth by hand, or with personally owned 2-wheel carts **(GES will have carts available for GES' use only)**. All forklifts will be operated by GES. Personally Owned Vehicles (POV's) such as cars, pick up trucks and minivans that are utilized for the unloading/loading of exhibit materials will be monitored by GES Freight Personnel. This will allow exhibitors the opportunity to unload quickly and safely into the exhibit area. All box trucks, straight trucks, personal trucks over one ton, trailers and bobtails or other larger vehicles not classified as a Personally Owned Vehicle, will be directed to the marshalling yard area for GES freight handling services.
- w Unpacking and uncrating of boxes, equipment, merchandise, etc.
- w Fine-tuning/calibrating your equipment and the interconnection of computers and peripherals.
- w The setup of signs/graphics.
- w After electrical service has been ordered and the power box delivered, you may plug in your own equipment. However, for safety reasons, if your equipment needs to be hard wired, electricians must do the work.

In General

Craftsmen at all levels must be instructed to refrain from expressing any grievances or directly challenging the practices of any exhibitor. All questions originated by labor are to be expressed only to Global Experience Specialists, Inc. (GES) and/or the Exhibit Manager. Exhibitors are asked to refrain from voicing labor complaints directly to craft personnel. Any questions regarding contract labor should be directed to the Exhibit Manager or Global Experience Specialists, Inc. (GES).

Should you have questions about the work you can perform, please contact GES or Show Management. Rates for moving shipments from the dock to your booth are located on the Material Handling Form. This form includes rates for handling shipments received at show site and at the GES warehouse.

- k. Hanging items from Booth: Customer shall not hang any articles, merchandise, product, advertisements, or other similar items from GES supplied booth materials (this includes but is not limited to GES panels or pipe and drape), utilized in Customer's own booth set up or in areas occupied by the show organizer or third parties. If Customer does hang any prohibited items, Customer alone shall be held liable for any damages, costs, actions or injuries resulting from the hanging of such item(s). GES shall have no liability for any damages, costs, actions or injuries arising out of Customer's failure to comply with this provision.

VII. Measure of Damage
