Global Pet 2027 Move-Out Target Legend

The move-out process is controlled by a color-coded target system designed to reduce congestion and ensure an orderly freight departure. Exhibitors should not begin dismantling their booth until their assigned target time. All freight must be packed, labeled, and ready for pickup by the deadline associated with their target color. Exhibitor Explanation

Move-out is conducted in target-color order. Your assigned target color determines when you may begin dismantling your booth and when freight can be released from the show floor. Exhibitors should have all outbound freight packed, labeled, and shipping documents completed before the published deadlines. Carriers must check in during the designated marshalling yard window for their target color. Failure to meet these deadlines may result in freight being rerouted or additional charges.

Move-Out Sequence: ⚪ Grey → 🟠 Orange → 🟢 Green → 🩷 Pink → 🔵 Blue
