The Roosevelt has a Fiber circuit dedicated to the meeting space, managed and provided by Uniti Fiber. Our switch infrastructure is Cisco, and our APs are Cisco Aironet 2800i Access Points. Segmented Circuit from Uniti Fiber (UF is Verizon's main fiber wholesaler) - the circuit provider has the newest secured Cisco routing equipment - which is monitored at their NOC 24/7. A distinct fiber run is solely used for meeting space internet usage.

The Roosevelt meeting infrastructure boasts the Cisco Aironet 2800i Access Points (Layer 7 switch - PCI 2.0 compliant) - with the highest security settings in place along with Intelligent Capture, Streaming Telemetry, and Real-time Analytics and Advanced Troubleshooting.

Internet connections are provisioned for workstations and laptops only. Additional bandwidth can be purchased. Printers can only be used with a direct connection to a workstation or laptop. No hubs, routers or switches are allowed (unless otherwise contracted). Switching, routing, and server equipment housed in any MDF or IDF will be a daily charge. Please contact your Royal Productions IT representative for more information.
