Details Matter When Shipping

Material Handling is the unloading of your exhibit materials. The service includes delivery to your booth, handling of empty containers to and from storage and removal of your materials from your booth for reloading onto your outbound carrier. This is not to be confused with the cost to transport your exhibit material to and from the event.

- Unloading the freight and delivery to your booth is not included. Avoid unexpected costs at show site and estimate the cost for this service. <http://e.ges.com/061600447/item/200500>
- We understand that your calculation is only an estimate. Invoicing will be done from the actual weight. Adjustments will be made accordingly.
- Save by combining shipments. A minimum charge applies for each shipment under 200 lbs.
- Make sure that a Bill of Lading is filled out completely for each shipment.
- Confirm that your driver has the correct dates and times that your shipment needs to be delivered and picked up.
- Use provided shipping labels to make sure show name, booth number and other vital information is provided.

No Tipping

GES work rules prohibit the solicitation or acceptance of tips in cash, products or gifts of any kind by any employee. Our employees are paid appropriate wages denoting professional status; therefore, tipping of any kind is prohibited.

Where Did My Crates Go?

After your exhibit is set-up and your products displayed, you must place "empty" stickers on your empty containers for storage during the show. At show site a kiosk with a floor plan and color coded "empty" stickers will be available. Crews will clear the floor of all "empty" stickered containers to clear room for other freight.

- Simply write your booth number, company and show name on the sticker and place the container in the aisle. It will be stored throughout the exposition and then returned to your booth upon show close.
- Place stickers on all four (4) sides of the crate.
- Please label your empty containers as soon as possible to keep your area clear and make it easier to prepare your booth.

Don't Forget to Take Out the Trash

Exhibitors planning on disposing of booth properties and/or floor covering at the end of the show should pre-order this service. In the event that excessive booth properties and/or floor covering are abandoned/left on the floor at the conclusion of a move-out, a dumpster fee will be billed to the exhibiting company.

Keeping Up Appearances

Pay close attention to your booth size when ordering items based on booth sq. footage or quantity of decorating items. Please do not order more than what will comfortably fit in your space.

- Exhibitors that order two (2) standard pre-cut carpet pieces should keep in mind that there will be a visible seam where the pieces of carpet are placed together. GES cannot guarantee that carpet colors will be an exact match due to dye lot differences.
- Order just enough carpet to fit your standard booth space. A 10' x 10' booth should not order 10' x 20' carpet.
- We custom cut carpet to fit your needs.

It's All About the Padding

Ordering carpet for your booth? Think about the kind of padding you need if you are going to be on your feet all day. That little extra cushion can make all the difference at the end of the day.

Carpet and Padding: <http://e.ges.com/061600447/carpet/esm>

What Goes Up Must Come Down

If labor is needed for your booth space at the time of move-in, you will also need labor for move-out. Remember, what you put up must be taken down.

- See Labor Information form for rules specific to the show. Work rules can vary based on show location.
- Gratuities in any form, including cash, gifts, or labor hours for work not actually performed are prohibited by GES.
- All rates are subject to change if necessitated by increased labor and material costs.
- Pre-order labor to save.

We are committed to partnering with you to provide comprehensive and effective graphic solutions for your event. The graphics print and production industry continuously evolves, and we want your graphics and images to look their absolute best. To ensure the highest quality output from your digital files, and to make file transfers as seamless as possible, please review and follow these guidelines when submitting artwork to GES. We also offer layout and design services for a fee. Please contact GES for details.

- Save money by providing your artwork/graphic files in the recommended formats.
- Send your graphics early with client name, show name, and booth number to avoid costly delays.
- Do not copy graphics from web pages as they will be low resolution and not suitable for your exhibit/sign.

Graphics

- Avoid setting type in Photoshop - instead use a vector-based program (such as Adobe Illustrator) for your type. If you do use vector smart objects, save the file as an .eps or .psd to retain vector properties.
- If you plan to add effects to your type (such as drop shadows or glows), follow these steps:
 - a. Import the Illustrator type into Photoshop
 - b. Add effects to the type
 - c. Separate the effects onto a layer
 - d. Delete the type layer
 - e. Assemble the type and photo in a vector program
- Always provide logos in a vector format.
- If you have critical PMS colors to match, provide us with a layered Photoshop file to allow for color editing.
- Use gradients carefully and sparingly. Gradients often “band,” and little can be done to correct the problem. Look at your high res file at 100% if you can see the banding, it WILL appear in the print. Adding 1 pt. of noise to the file may resolve the problem.

Suitable programs for images or logos:

- Adobe Illustrator CC 2018 - .ai, .pdf, .eps
- Adobe InDesign CC 2018 - .indd, .pdf
- Adobe Photoshop CC 2018 - .pdf, .tiff, .jpeg
- Adobe Acrobat

Color

If your Vector artwork needs to be color specific, please set up your files using the Pantone color pallet. Some Pantone colors are more likely to be achieved than others, we will match all Pantone colors to the best possible interpretation. We do our best to match any physical print sample, however, the colors may deviate slightly due to the limitations within the print process.

If providing colors as CMYK, please set colors as spot. Spot Colors are colors that have been specifically labeled within design software so that RIP Stations can recognize them. Setting colors to "Spot" it enables the RIP Station to adjust the colors independently of the design software to maximize work flow.

Vector Artwork

For the best quality, create graphics in vector format (AI, EPS). Logos taken from websites are generally GIF files, and those are not acceptable as they will not print clearly. Artwork produced for contour cut decals, such as solid company logos or text, must be supplied in a vector format (AI or vector EPS). Artwork created in a pixel format (TIF, JPG) is not compatible with equipment.

preferred* AI/EPS (vector)

GIF, TIFF, JPEG (raster)

Bitmap/Raster Artwork

TIF, JPEG, PDF and PSD - These are the preferred file formats for raster images. Files should be supplied at 100dpi at full size, or they should scale to those dimensions. If the resolution is lower than 100dpi, images can look blurry or pixelated when printed. If there is a lot of small text in the raster image, the file can be provided at higher resolutions to ensure print quality. Files obtained from the internet (JPG, GIF, PNG) or artwork created in MS Office applications (Word, Excel, PowerPoint, etc.) are often not suitable for high quality output for large/grand sized graphics or signage.

Make sure your file(s) are labeled with the exhibiting company's name, the show name and the booth number (e.g. ABC Company_SHOW_Booth 1234.zip)

Text

Turn all fonts to outlines or convert to paths before sending the files. If you are using a program where this is not an option, YOU MUST INCLUDE ALL FONTS with your files. OTF (open type fonts) are preferred.

Editable Text

Outlined Text - preferred*

Final Print package should contain:

- Consistent color pallets in all files (if providing colors as CMYK, please set colors as spot)
- All fonts converted to outlines and/or the fonts used
- Embedded images and/or linked images
- Final art at 100ppi at 100% scale (or an accurate aspect ratio with supporting resolution) Mandatory ZIP or SIT compression

Allow for Frames & Finishing

Some graphics are held in frames. Place all type and critical images at least 1" from all edges to avoid being covered by frames.

For graphics that are held in railroad bases, please place all type and critical images at least 6" from the base to avoid being covered.

Estimating Material Handling Charges

Handling charges are based on the weight of the freight. Shipments are billed by the hundred weight and rounded up to the nearest hundred. Minimum per shipment may apply, see enclosed Material Handling/Drayage Order Form for details. Please prepay all shipping charges - GES cannot accept or be responsible for collect shipments. Crated and uncrated shipments must be separated and clearly identified on separate bills of lading with separate weight tickets; otherwise, GES will invoice the entire load at the uncrated rate.

- Crated - Material that is skidded, or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
- Uncrated - Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.
- Special Handling - Defined as shipments that are loaded by cubic space and/or packed in such a manner as to require special handling, such as ground loading, side door loading, constricted space loading and designated piece loading or stacked shipments. Also included are mixed shipments and shipments without proper delivery receipts.

Late Surcharges - May be charged an additional overtime surcharge

- If advance freight is received before or after the published deadline date for shipments to arrive at the warehouse. See enclosed Material Handling/Drayage Order Form for details.
- Freight shipments sent to the show after it has opened.
- Freight shipments that are received at show site that do not meet their published date and time.
- Shipment Surcharges - A surcharge will be incurred per shipment for those that are received with incomplete information on shipping labels identifying company name and booth number and/or shipments that are left on the show floor at the end of the show with no labels and no bill of lading turned in.

Machinery Labor and Equipment

Labor and equipment for uncrating, unskidding, positioning, leveling, dismantling, recrating, and reskidding machinery and/or equipment must be ordered separately. Place your order for this labor using the Forklift Labor Order Form. If your material requires specialized rigging equipment, please notify us promptly so that we can make arrangements. When possible, supply your own rigging equipment with shipments and pre-rig your material.

Storing Empty Containers

Properly labeled empty shipping cartons will be picked up, stored, and returned after the show. Labels are available at the GES Servicenter® or from your GES Service Executive and are for empty storage only. Depending on the size of the show, it can take from two to twelve hours to return empty crates. Do not store any items in crates marked "empty." GES has no liability for damage to crates or items sent to empty storage in crates.

Outgoing Shipments

An OMHF (Outbound Material Handling Form / Bill of Lading) must accompany all outgoing shipments. Shipping information, outbound forms and labels will be available at the GES Servicenter®. Exhibitors selecting non-official carriers will need to make their own arrangements for pickup. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display and product.

What is "Special" Handling?

Special Handling applies to shipments that are loaded in such a manner as to require additional labor and handling to unload or load out. An additional fee beyond the standard crated rate will apply.

Special Handling Includes:

Ground Loading

- Vehicles that are not dock height, preventing the use of loading docks.
- When docks are not readily available.
- When convention facility has no dock space.

Side Door Loading

- Shipments tendered for delivery in such a manner as to prevent access from the rear of the trailer.

Constricted Space Loading

- Freight loaded "high and tight" or down one side as to make shipments not readily available.

Designated Piece Loading

- When a trailer must be loaded in a particular sequence to ensure fit.

Stacked, Cubed-out, or Loose Shipments

- Shipments loaded in such a manner requiring items to be removed to ground level for delivery to booth.
- Items that would need to be unstacked/stacked, unstrapped/strapped, or loadbars to be removed/installed during the unload or load out process.

Multiple Shipments

- Shipments that are loaded mixed on the truck, failing to maintain shipment integrity and/or have multiple delivery areas.

Mixed Shipments

- Pieces for separate shipments that are loaded mixed throughout the delivery vehicle, or shipments of crated and uncrated goods where the percentage of uncrated is minimal and does not warrant full uncrated rate for shipment.

Improper Delivery Receipts

- Shipments that arrive without individual Bill of Lading. Possible examples might include: UPS, FedEx, company trucks, privately-owned vehicles.

Uncrated Shipments

- Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.

Form Tips:

- A targeted move-in is a designated day and time for arrival of a particular exhibitor or exhibit area depending on their location within the facility, according to a target map/floor plan.
- Your assigned target is the date and time that your truck must check into the marshalling yard. Once the marshalling yard sends your truck to the building to start unloading your company's truck, your exhibit/samples are taken directly to your booth space.
- As long as your truck arrives on or before your target time on your targeted date, there is no additional off-target charge.
- Find your targeted/scheduled time for move-in by reviewing the Targeted Floor Plan provided by the show organizer for target move-in times. This is for the move-in of your exhibit only. Your product can arrive at a later date.

Attention

Attention:

- All inbound exhibit material and equipment is specifically targeted by booth number.
- Please refer to target assignments contained in this section.
- Do not allow your carrier to block your on-target freight with off-target freight as the entire load may be rescheduled.
- Every attempt will be made to accommodate all inbound deliveries within their targeted day. However, there can be no guarantees with respect to absolute delivery dates and times.
- We recommend scheduling installation labor to begin the day after your inbound target assignment.
- It remains the exhibitors' responsibility to ensure that their freight is loaded to accommodate the inbound target assignments. Please plan carefully.
- Off-target freight and equipment may be refused and/or rescheduled. Please refer to Target Schedule.

Important Reminders

Reminder

- A target assignment is the point at which direct deliveries may begin checking in. It is not the point at which set-up should be scheduled.
- Freight shipped through our warehouse will be delivered prior to the beginning of your assigned target date and time.
- Route your shipments carefully. Utilize only carriers who provide Bills of Lading and can be contacted at any point in time.
- Insure your material from the time it leaves your facility until it is returned.
- Do not allow your carrier to block your on-target freight with off-target freight as the entire load may be rescheduled.

Tips For New Exhibitors

Tips

What is a marshaling yard? The Marshaling Yard is an offsite location where trucks are checked in and held until dock space for unloading becomes available onsite.

Why is a marshaling yard used? Large shows use a marshaling yard to ease vehicle congestion and to ensure the unloading process runs smoothly.

Marshaling Yard Process

It is important that you advise your carrier of this Marshaling Yard information to better facilitate your direct shipment to showsite.

- All delivering carriers and privately owned vehicles must check in at the Marshaling Yard prior to show site deliveries. All inbound shipments need to have the gross or heavy weight before being checked in. Drivers without the gross weight will need to go to the Gull Station located at: 3215 4th Avenue South, Seattle, WA 98134, phone: (206) 621-9777. The Gull Station fee is \$9.00 and the station is open 24 hours.
- All inbound shipments must be accompanied by a certified weight certificate and Bill of Lading.
- At the Marshaling Yard, drivers will be assigned a number and will be dispatched to the appropriate dock at CenturyLink Field Event Center as space is available. Waiting time at the Marshaling Yard should be anticipated by your carrier. Every effort is made to keep this waiting time at a minimum. However, the waiting time depends on many factors, including the number of vehicles arriving to unload/load, the type of loads being unloaded at the CenturyLink Field Event Center, the number of booths on a truck, etc.
- All drivers are expected to adhere to GES' policies and procedures with respect to the loading and unloading of trailers.

What is Exhibitor Supervision? An exhibitor chooses Exhibitor Supervised so they are able to instruct the laborer. The exhibitor is required to be in the booth and there are no supervision fees. Scheduling a date and time is necessary for this choice.

What is GES Supervision? An exhibitor chooses GES Supervised when they do not want to be present when the work is completed. On most shows and services, there is a minimum surcharge for the professional supervision. Remember, when an exhibitor chooses this option, they do not need to schedule a date and time for services to be completed.

Attention:

- **This form must be completed by the EAC.**

The undersigned Exhibitor Appointed Contractor (EAC) has been designated by an exhibitor to perform certain services for the exhibitor at the above referenced show. In consideration of the show organizer and GES permitting the EAC to perform such services at the show, the EAC and GES hereby agree as follows:

Rules and Regulations

- EAC agrees to comply with all rules and regulations of the show as outlined in this agreement, the Exhibitor Services Manual, including all union rules and regulations, and accept liability for any negligent actions.
- EAC agrees that it must ascertain and comply with all rules and regulations of the venue, Show Management, and/or the Official Service Provider in order to create a safe work environment. A failure to do so can result in a delay or termination of your right to continue work if the condition cannot be corrected.
- EAC agrees that the show site, dock and surrounding areas are active work zones and the EAC, its agents, employees and representatives are present at their own risk. Entry into the dock area is prohibited.
- EAC must have all business licenses and permits required by the State and City governments and the convention facility management prior to commencing work. A certificate of insurance naming GES as an additional insured with appropriate insurance limits prepared by the EAC's insurance agent must be submitted to GES at least 30 days prior to the first date of move-in.
- This Agreement and Rules and Regulations between GES and EAC must be completed by an authorized representative of EAC and returned to GES before the deadline noted above.
- If the EAC fails to provide the documentation required in paragraphs 4 and 5 above, the exhibitor will be required to use GES for such services at the prevailing rates set forth in the Exhibitor Services Manual.
- EAC shall provide, if requested, evidence to GES that it possesses applicable and current labor contracts and must comply with all labor agreements and practices. The EAC must not commit or allow to be committed by persons in its employment any acts that could lead to work stoppages, strikes or labor problems.
- EAC will be responsible for all reasonable costs related to its operation, including overtime pay for stewards, restoration of exhibit space to its initial condition, etc. Where applicable a one hour minimum labor charge will be charged at the appropriate steward rate of pay per day/per union to either the EAC/exhibitor depending upon the billing arrangement set up with GES (based upon EAC not number of booths).
- The show aisles and public spaces are not part of the exhibitor's booth. Therefore, EAC is required to confine all activities to the exhibit space of the exhibitor who has given a valid order for services. Exhibitors may be charged for costs related to movement of its property if the EAC does not contain its operations within the confines of the booth. No service desks, storage areas or other work facilities will be located anywhere in the building. The show aisles and public space are not a part of the exhibitor's booth space and must be kept clear at all times.
- During show hours, only EACs with exhibit badges will be permitted on the exhibit floor. No EAC will be permitted on the exhibit floor during show hours without the proper Convention name badge supplied by the exhibiting company. EAC must furnish Show Management and GES with the names of all on-site employees who will be working on the show floor and ensure that they have and wear identification badges at all times necessary as determined by Show Management.
- EAC has uploaded certificates of insurance through CertFocus, confirming the following required insurance:
 - Commercial General Liability, including contractual liability, with limits of not less than \$1,000,000 each occurrence, \$2,000,000 general aggregate and \$2,000,000 products & completed operations aggregate.
 - Automobile Liability with a limit of not less than \$1,000,000 combined single limit - each accident. All owned, hired and non-owned boxes marked.
 - Workers Compensation, as required by law, with Employers Liability Limits of not less than \$1,000,000 each accident, \$1,000,000 disease - each employee and \$1,000,000 disease - policy limit.
 - Umbrella/Excess Liability with a limit of not less than \$1,000,000 each occurrence/aggregate.
 - All Policies (except Worker's Compensation) shall name GES (Official Service Provider), Washington State Auto Dealers Association (Show Management), Seattle International Auto Show (Show) and CenturyLink Field Event Center (Facility) as additional insureds on a primary and non-contributory basis per the attached sample certificate of insurance. Umbrella follows form.
- EAC agrees to indemnify, defend and hold the Show Management, the Facility and GES harmless from and against any and all claims, lawsuits, demands, liability, costs and expenses, including reasonable attorney's fees and court costs, arising out of EAC's operations, including supervision of GES provided labor. EAC also agrees to reimburse GES for all attorney's fees and costs incurred in connection with any and all claims, lawsuits and counterclaims that should arise out of EAC's failure to adhere to the terms of this agreement.
- Solicitation of business on the show floor is strictly prohibited. If EAC attempts to provide services designated to another party as "exclusive" or is discovered soliciting on the show floor including the distribution of official company literature, or otherwise does not comply with the rules, the company may be removed from the show floor, and the exhibitor will not be able to use that company for the remainder of the event.
- EAC/ exhibitor may not move freight from one booth to another booth, or to meeting rooms. GES must provide labor.
- EAC must coordinate all of its activities with GES.
- The exhibitor or its EAC should order services required from GES and the Exhibit Hall in advance. Ordering labor or services onsite (which contractors may not be prepared to provide immediately) may delay the set-up of your booth or force your set-up into overtime.

Rules and Regulations (continued)

17. The exhibitor or its EAC should take steps to protect the exhibitor and the EAC's product in the booth by arranging for booth security and/or cages. GES is not responsible for items left unattended on the show floor.
18. EAC agrees GES is not responsible for any items stored in empty containers. Do not store empty cartons inside of empty crates. Cartons are returned from storage before crates so exhibitors may begin packing their product.
19. EAC/exhibitor agrees to keep "No Freight Aisles" clear at all times. If GES is required to rearrange any material situated in a clearly identified "No Freight Aisle," the exhibitor or the EAC depending upon the billing arrangements with GES will be charged a one hour minimum for forklift rental and labor.
20. EAC/exhibitor agrees that all outbound freight bills should be turned into the service desk on a timely basis. Holding freight bills until late in the day or turning in large amounts of freight bills to the GES Servicerenter at one time may delay outbound truck scheduling and subsequently force your loading out into overtime.
21. During tear down, pull all manageable structures back from aisle carpet lines. Electronics, mannequins, etc. should be placed in the center of the booth.
22. Be aware of vehicle traffic inside and outside of the facility. All attendees should be aware of their surroundings and all individuals are solely responsible for their own safety in parking lots, driveways, access roads and non-exhibit hall areas.
23. Label empty cartons and crates for storage as soon as they are ready. Holding back on "empties" only adds congestion to the aisles.
24. For services such as electrical, plumbing, telephone, cleaning and drayage, no service provider other than the Official Service Provider will be approved. This regulation is necessary due to licensing, insurance and work done on equipment and facilities owned by parties other than the exhibitor. Exhibitors shall provide only the material and equipment they own and those materials are to be used only in their exhibit space.
25. Smoking is prohibited in most facilities. Smoking shall only be allowed in designated areas.
26. This agreement is to be interpreted under the laws of the State of Nevada.
27. A faxed signature will serve as an original signature and will stand as a fully executed agreement once faxed to and received by GES.

Show Site Work Rules

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

Seattle International Auto Show

Union Information

To assist you in planning your participation in your show, we are certain you will appreciate knowing in advance that union labor will be required for certain aspects of your exhibit handling.

Exhibit Labor

GES offers experienced union labor exclusively through the Pacific Northwest Regional Council of Carpenters to assist with the installation of your exhibit booth(s). Full-time employees of the exhibiting company may set their own exhibit, provided that the booth space is no greater than 10'x20' and does not require the use of power tools nor ladders. Also it is permissible for one (1) full time, company employee to supervise GES Carpenters on the work, or GES will provide a foreman for that function at applicable rates.

Freight Handling Jurisdiction

GES has the responsibility of receiving and handling all exhibit materials and empty crates. It is our responsibility to manage docks and schedule vehicles for the smooth, safe, and efficient move-in and move-out of the exposition. Exhibitors may hand-carry their own materials into the exhibit hall through the hand carry entrance. The use of mechanical equipment by exhibitors is not permitted. Access to the loading docks will be controlled by GES in order to provide for a safe and efficient move-in and move-out. GES will not be responsible, however, for any materials we do not handle.

Gratuities

Our work rules prohibit the solicitation or acceptance of tips in cash, product or gifts in kind by any employee (union or non-union). Our employees are paid appropriate wages denoting professional status, therefore tipping of any kind is not allowed.

GES requests that exhibitors do not tip (such practices as giving money, merchandise, or other special consideration for service rendered) to our employees. Do not give coffee breaks other than mid-morning and mid-afternoon, when employees have a fifteen minute paid break. Any attempts to solicit a gratuity by an employee for any service should be reported immediately to a GES supervisor. Employees of GES are paid at an excellent wage scale and thus, tipping is strongly discouraged as not being an accepted policy of GES. This applies to all GES employees.

Work Zone

Customer acknowledges that the show site and surrounding areas are active work zones. Customer, its agents, employees and representatives are present at their own risk.

Always Honest Hotline

GES requires the highest standards of integrity from all employees. Please call our confidential Always Honest Hotline at (866) 225-8230 to report fraudulent or unethical behavior.

SEATTLE FIRE DEPARTMENT RULES & REGULATIONS FOR EXHIBITS

1. All decorations, drapes, signs, banners, plastic displays, hay, split bamboo, combustibles, etc. **must be flame-retardant and accompanied by a Flame Certificate that verifies that they are flame-retardant.** Wood panels greater than 1/4" original thickness are considered flame-resistant. The use of oilcloth, tarpaper, sisal paper, nylon, Orlon, and certain synthetic materials cannot be made flame resistant, and **their use is strictly prohibited.**
2. Special Effects permits are required for indoor fireworks, etc. Each of these effects will be subject to extensive review and will be handled on a case-by-case basis. Permits are not required to use smoke machines or lasers. Smoke machine usage must be communicated to the Fire Marshal and Convention Facilities Event Manager in case it becomes necessary to authorize deactivation of smoke sensors.
3. Displayed vehicles must be indicated on submitted floor plans and are subject to the following restrictions:
 - a. Fuel in tanks is limited to a maximum of ¼ tank or five (5) gallons, whichever is less. Diesel fuel tanks are limited to a maximum of ¼ tank. **Vehicles with no or non-functioning fuel gauges will not be allowed in public assembly areas without prior approval by the Fire Marshal.**
 - b. Battery cables must be disconnected, with the cable ends taped over to prevent sparking.
 - c. Fuel tank fill caps must either be lockable or taped shut.
4. Deep fat fryers can be used under the following conditions without prior approval or permit:

 - b. Fire extinguisher readily available in the booth with a minimum UL rating of [Class "K".] This fire extinguisher is in **ADDITION** to any built in suppression system.
 - c. A metal cover capable of covering the deep fat fryer shall be readily available in the booth.

5. Candles may only be used in public assembly areas if under permit for Open Flame, and only within an approved container (specific conditions apply). Sterno does not require a permit.
6. LPG (Propane) and CNG (Compressed Natural Gas) are prohibited in the Convention Center. Exception: 8-oz. butane canisters, which are used in conjunction with tabletop burners. Each exhibit booth is limited to one 8-oz. canister. If additional canisters are needed, they must be stored outside the building in an area that is acceptable to the Fire Department and the Convention Facility. (Specific approval is required for any cooking within a booth)
7. Combustible storage is not allowed on the event floor. Combustible storage is specifically prohibited in dead areas, behind booth drapes or in unsold areas. Empty cardboard boxes intended for repackaging must be removed from the event floor. Booth storage of literature/brochures is limited to full boxes that can be easily stored under tables in the booth.
8. Helium, Nitrogen, Oxygen and Nitrous oxide tanks are allowed on the event floor with prior approval by the Fire Marshal. Tanks must be properly labeled for contents and firmly secured in the upright position, with valves protected against damage. Nitrous oxide and Oxygen tanks over 250 cubic feet are prohibited. Oxidizing gases (Oxygen or Nitrous oxide) in amounts in excess of 503 cubic feet may only be used in public assembly areas under permit for Hazardous Materials.

Exhibit Hall Guidelines:

1. All fire hose cabinets and fire extinguishers must be visible and kept clear and readily accessible during move-in, show days and move-out. The issue of visibility and ease of access to fire equipment applies to the event floor as well as service corridors.
2. Large covered booths [over 100 square feet] require that the floor plan and booth plan be pre-approved by the Fire Marshal. Booths up to 300 square feet require a 2A 10BC fire extinguisher and a smoke detector.

NOTE: In covered booths over 300 square feet, the Fire Marshal will require that a fire suppression system be installed in the booth.

Multi-Level and Covered Exhibit Booths:

This information is provided as a general guideline of the policies pertaining to the installation of a multi-level or covered booth. These regulations are described in the National Fire Protection Act (Section 12.7.4.3.7), as applied by the Seattle Fire Department, as well as in the Seattle Building Code and Convention Facility Policy. Facility Clients, Exhibit Managers, Show Decorators, and/or General Service Contractors are responsible for ensuring that all exhibitors are aware of and comply with these regulations. The review process for covered or multi-level booths should be started early to ensure approval before the start of the show. Please contact GES if you have questions regarding this information or the overall process

Fire Regulations

Definitions

Covered Booth: A booth that has any material or object placed over or upon the exhibit is considered a covered booth. (e.g. roof, canopy, tent, Moss fabric, etc.)

Multi-level Booth: An exhibit that has a second level or tier constructed on top of the exhibit or portion of the exhibit, is accessed by stairs, and can be occupied by persons is considered a multi-level booth.

Covered Booths of 100 to 299 square feet

Booth plan must be reviewed and approved by the Fire Marshal at least 3 months in advance. A detailed .pdf drawing of the proposed exhibit, to include exact dimensions of covered area Minimum of (1) "2A 10BC" rated fire extinguisher must be placed within the covered area. A smoke detector must be placed at the highest point of each covered area. There must be a means of turning off electrical power to the booth during non-show hours.

Covered & Multi-level booths of 300 square feet and above

In addition to the above requirements, the following will apply: A minimum of 3 months lead-time may be required for the approval process. An approved temporary automatic fire suppression sprinkler system must be installed.

The following information needs to be provided to the Fire Department Engineer:

- a. Name and contact information for the licensed & qualified sprinkler contractor.
- b. Engineer certified plans of the sprinkler head locations, pipe sizes, and flow calculations.

The exhibitor is allowed to select the qualified provider of their choice to design and install their in-booth sprinkler system.

Convention Center's selected life safety system contractor must connect the booth system to the facility's life safety system. Please contact the Facility Representative for an estimate of charges.

ALL Multi-level booths of any square footage

A Temporary Structure Permit must be obtained from Seattle Department of Planning and Development (DPD). Contact Joel Lehn at (206) 684-8600 or joel.lehn@seattle.gov.

The following information needs to be submitted to DPD at least 3 months in advance:

- a. Completed DPD application form and associated fees
- b. (2) Sets of stamped engineering drawings for DPD
- c. Letter of Structural Integrity
- d. DPD may require an onsite field inspection of the completed structure.
- c. (1) Set of drawings in .pdf format e-mailed to the CONVENTION FACILITY Events Representative

Special Considerations

Approval of a covered or multi-level booth plan is contingent upon final approval of the overall exhibit hall floor plan submitted by show management.

Coverings constructed of open grate or mesh greater than ¼ inch or a UL listed drop out ceiling may be exempt from the sprinkler requirement.

It is suggested that covered booths of less than 100 square feet submit plans to GES for review.

A series or combination of covered areas, whether in one booth or adjacent booths, must be separated by a minimum of 10 feet.

An exhibit that fails to comply with these regulations will not be allowed to install for the event.

Special Effects	Code #7801 and/or Code #7802

- k. **Hanging items from Booth:** Customer shall not hang any articles, merchandise, product, advertisements, or other similar items from GES supplied booth materials, (this includes but is not limited to GEM panels or pipe and drape), utilized in Customer's own booth set up or in areas occupied by the show organizer or third parties. If Customer does hang any prohibited items, Customer alone shall be held liable for any damages, costs, actions or injuries resulting from the hanging of such item(s). GES shall have no liability for any damages, costs, actions or injuries arising out of Customer's failure to comply with this provision.

VIII. Miscellaneous

- a. **Insurance:** **GES IS NOT AN INSURANCE COMPANY AND DOES NOT OFFER OR PROVIDE INSURANCE.** It is the obligation of Customer to ensure Goods are insured at all times. Loss or theft of the Goods in storage or in transit to and from the show and or while on the show floor is the sole responsibility of Customer. GES recommends Customer arrange for all Risk Coverage.
- b. **Notice of Loss or Damage:** In order to have a valid claim, notice of loss or damage to Goods must be given to GES or its agent within 24 hours of occurrence (as evidenced in an Incident Report completed at Show Site by GES) or delivery of outbound Goods.
- c. **Filing of Claim:** Any claim for loss or damage to Goods must be in writing, containing facts sufficient to identify the Goods, asserting liability for alleged loss or damage, and making claim for the payment of a specified or determinable amount of money. Such claim must be filed with the appropriate party within the time limits specified herein. LABOR ORDERING INSTRUCTIONS

Step 1 Review Jurisdiction Information Below

The work outlined under Electrical Jurisdiction below must be performed by Edlen Electricians and cannot be performed by any other union or I&D House. Determine the type of work required in your booth space and complete the corresponding labor forms. The Power Delivery section indicates if power typically comes from the ceiling or the floor which may impact your booth layout.

Step 2 Complete the Appropriate Form

There is a different form utilized to schedule labor in your booth space. This allows exhibitors to pre-pay the estimated labor cost. This is only an estimate. Final labor and/or lift cost may be greater or less depending on time required and minimum labor charges.

A. Electrical Distribution

This form is used for the distribution of power on the floor in your booth space. This form should be completed for all island booths. Inline and peninsula booths need to provide this information only if power is required at any other location than the rear of the booth space.

Step 3 Return the following forms to Edlen

Electrical Order, Method of Payment, applicable Labor Forms and Electrical Layout.

ELECTRICAL JURISDICTION

WORK REQUIRING EDLEN ELECTRICIANS

1. Delivery of main power line to Island Booths only
2. Electrical distribution under carpet or overhead
3. Connection of all high voltage services
4. Hardwiring of any electrical apparatus
5. Installation of lighting hung from ceiling
6. Assembly & installation of lighting hung from truss
7. Motor, truss, rigging installation and cabling

POWER DELIVERY

Power is typically delivered from the floor in this facility and is brought to one main distribution point. From this point it is distributed to all other locations in the booth space. Depending on the total power requirements an electrical panel may be placed at the main distribution point. Electrical panels utilize a minimum of 1'x1'6" floor space. Please call if you have any concerns.

ELECTRICAL DISTRIBUTION UNDER CARPET

Complete all of the fields below including the "Labor Estimate" Section. Edlen will make every attempt to complete the work prior to your arrival, but it can not be guaranteed.

- Provide an Electrical Layout Form:
 - The electrical layout must indicate each power outlet and its location with exact measurements.
 - The electrical layout must reflect booth orientation. Use surrounding booth or aisle numbers.
 - Identify a main distribution point. Power is delivered to that point and then distributed to other locations. Inline or peninsula booths do not need to provide a main distribution point. Power will be located at the rear of the booth.
 - If power is only required in one location in Island booths, indicate that location with measurements on your electrical layout.
- What date will you begin building your booth?
 - Date: _____ Time: _____
- Will you be utilizing any specialty floor covering other than carpet, such as vinyl or wood?
