

X = MOVE-IN LIGHTS

This floor plan represents all of the building lighting that exists in the ceiling of the North Building Exhibit Hall. The "X" located on the floor plan indicates lights which will be on during the move-in installation of the show and will not be eligible to be turned off. All other lights remaining on the floor plan will remain off during the move-in of the show and will be turned on automatically for the duration of the event.

Any requests for approval of "backing out" lights must be sent to Show Management c/o/ Chris Konecki, no later than Monday, January 16, 2017. His e-mail address is ckonecki@cata.info. All lighting requests will apply to the public show, charity preview and the media preview. On-site requests after January 16, cannot be accepted.

Chicago Auto Show 2017
February 9 - 20, 2017
McCormick Place North
Level 3 - Hall B1
