Details Matter When Shipping

Material Handling is the unloading of your exhibit materials. The service includes delivery to your booth, handling of empty containers to and from storage and removal of your materials from your booth for reloading onto your outbound carrier. This is not to be confused with the cost to transport your exhibit material to and from the event.

- Unloading the freight and delivery to your booth is not included. Avoid unexpected costs at show site and estimate the cost for this service. <http://e.ges.com/071600921/item/200500>
- We understand that your calculation is only an estimate. Invoicing will be done from the actual weight. Adjustments will be made accordingly.
- Save by combining shipments. A minimum charge applies for each shipment under 200 lbs.
- Make sure that a Bill of Lading is filled out completely for each shipment.
- Confirm that your driver has the correct dates and times that your shipment needs to be delivered and picked up.
- Use provided shipping labels to make sure show name, booth number and other vital information is provided.

Shipping, Drayage and Material Handling: <http://e.ges.com/071600921/shippinghandling/esm>

Dot Your I's and Cross Your T's

Please be aware that a valid credit card is required for all forms of payment. We require your credit card charge authorization to be on file with GES even if you are paying by check or wire transfer.

- Make sure your credit card information is complete and correct, including the expiration date.
- Review GES Payment Policy and the Terms and Conditions of Contract.
- Clearly indicate when paying by check. All check payments should be returned to:

No Tipping

GES work rules prohibit the solicitation or acceptance of tips in cash, products or gifts of any kind by any employee. Our employees are paid appropriate wages denoting professional status; therefore, tipping of any kind is prohibited.

Where Did My Crates Go?

After your exhibit is set-up and your products displayed, you must place "empty" stickers on your empty containers for storage during the show. At show site a kiosk with a floor plan and color coded "empty" stickers will be available. Crews will clear the floor of all "empty" stickered containers to clear room for other freight.

- Simply write your booth number, company and show name on the sticker and place the container in the aisle. It will be stored throughout the exposition and then returned to your booth upon show close.
- Place stickers on all four (4) sides of the crate.
- Please label your empty containers as soon as possible to keep your area clear and make it easier to prepare your booth.

Don't Forget to Take Out the Trash

Exhibitors planning on disposing of booth properties and/or floor covering at the end of the show should pre-order this service. In the event that excessive booth properties and/or floor covering are abandoned/left on the floor at the conclusion of a move-out, a dumpster fee will be billed to the exhibiting company.

Keeping Up Appearances

Pay close attention to your booth size when ordering items based on booth sq. footage or quantity of decorating items. Please do not order more than what will comfortably fit in your space.

- Exhibitors that order two (2) standard pre-cut carpet pieces should keep in mind that there will be a visible seam where the pieces of carpet are placed together. GES cannot guarantee that carpet colors will be an exact match due to dye lot differences.
- Order just enough carpet to fit your standard booth space. A 10' x 10' booth should not order 10' x 20' carpet.
- We custom cut carpet to fit your needs.

It's All About the Padding

Ordering carpet for your booth? Think about the kind of padding you need if you are going to be on your feet all day. That little extra cushion can make all the difference at the end of the day.

Carpet and Padding: <http://e.ges.com/071600921/carpet/esm>

What Goes Up Must Come Down

If labor is needed for your booth space at the time of move-in, you will also need labor for move-out. Remember, what you put up must be taken down.

- See Labor Information form for rules specific to the show. Work rules can vary based on show location.
- Gratuities in any form, including cash, gifts, or labor hours for work not actually performed are prohibited by GES.
- All rates are subject to change if necessitated by increased labor and material costs.
- Pre-order labor to save.

- For your convenience, we will use this authorization to charge your credit card for any additional amounts ordered by your representative or services rendered to your company for this event.

AirVenture EAA Fly-In
Wittman Field
July 20 - 26, 2020

We are committed to partnering with you to provide comprehensive and effective graphic solutions for your event. The graphics print and production industry continuously evolves, and we want your graphics and images to look their absolute best. To ensure the highest quality output from your digital files, and to make file transfers as seamless as possible, please review and follow these guidelines when submitting artwork to GES. We also offer layout and design services for a fee. Please contact GES for details.

- Save money by providing your artwork/graphic files in the recommended formats.
- Send your graphics early with client name, show name and booth number to avoid costly delays.
- Do not copy graphics from web pages as they will be low resolution and not suitable for your exhibit/sign.

Graphics

- Avoid setting type in Photoshop - instead use a vector-based program (such as Adobe Illustrator) for your type. If you do use vector smart objects, save the file as an .eps or .psd to retain vector properties.
- If you plan to add effects to your type (such as drop shadows or glows), follow these steps:
 - a. Import the Illustrator type into Photoshop
 - b. Add effects to the type
 - c. Separate the effects onto a layer
 - d. Delete the type layer
 - e. Assemble the type and photo in a vector program
- Always provide logos in a vector format.
- If you have critical PMS colors to match, provide us with a layered Photoshop file to allow for color editing.
- Use gradients carefully and sparingly. Gradients often “band,” and little can be done to correct the problem. Look at your high res file at 100% if you can see the banding, it WILL appear in the print. Adding 1 pt. of noise to the file may resolve the problem.

Suitable programs for images or logos:

- Adobe Illustrator CC 2018 - .ai, .pdf, .eps
- Adobe InDesign CC 2018 - .indd, .pdf
- Adobe Photoshop CC 2018 - .pdf, .tiff, .jpeg
- Adobe Acrobat

Color

If your Vector artwork needs to be color specific, please set up your files using the Pantone color pallet. Some Pantone colors are more likely to be achieved than others, we will match all Pantone colors to the best possible interpretation. We do our best to match any physical print sample, however, the colors may deviate slightly due to the limitations within the print process.

If providing colors as CMYK, please set colors as spot. Spot Colors are colors that have been specifically labeled within design software so that RIP Stations can recognize them. Setting colors to "Spot" it enables the RIP Station to adjust the colors independently of the design software to maximize work flow.

Vector Artwork

For the best quality, create graphics in vector format (AI, EPS). Logos taken from websites are generally GIF files, and those are not acceptable as they will not print clearly. Artwork produced for contour cut decals, such as solid company logos or text, must be supplied in a vector format (AI or vector EPS). Artwork created in a pixel format (TIF, JPG) is not compatible with equipment.

preferred* AI/EPS (vector)

GIF, TIFF, JPEG (raster)

Bitmap/Raster Artwork

TIF, JPEG, PDF and PSD - These are the preferred file formats for raster images. Files should be supplied at 100dpi at full size, or they should scale to those dimensions. If the resolution is lower than 100dpi, images can look blurry or pixelated when printed. If there is a lot of small text in the raster image, the file can be provided at higher resolutions to ensure print quality. Files obtained from the internet (JPG, GIF, PNG) or artwork created in MS Office applications (Word, Excel, PowerPoint, etc.) are often not suitable for high quality output for large/grand sized graphics or signage.

Order graphics and **upload artwork files** directly online: <https://e.ges.com/071600921/signs/esm>

Make sure your file(s) are labeled with the exhibiting company's name, the show name and the booth number (e.g. ABC Company_SHOW_Booth 1234.zip)

Estimating Material Handling Charges

Handling charges are based on the weight of the freight. Shipments are billed by the hundred weight and rounded up to the nearest hundred. Minimum per shipment may apply, see enclosed Material Handling/Drayage Order Form for details. Please prepay all shipping charges - GES cannot accept or be responsible for collect shipments. Crated and uncrated shipments must be separated and clearly identified on separate Bills of Lading with separate weight tickets; otherwise, GES will invoice the entire load at the uncrated rate.

- Crated - Material that is skidded, or is in any type of shipping container that can be unloaded at the dock with no additional handling required.
- Uncrated - Material that is shipped loose or pad-wrapped, and/or unskidded machinery without proper lifting bars or hooks.
- Special Handling - Defined as shipments that are loaded by cubic space and/or packed in such a manner as to require special handling, such as ground loading, side door loading, constricted space loading and designated piece loading or stacked shipments. Also included are mixed shipments and shipments without proper delivery receipts.
- Overtime Surcharges - Shows that move-in or move-out on weekends or after 4:30 PM during the weekday may be subject to additional overtime surcharges. See enclosed Material Handling/Drayage Order Form for details.

Late Surcharges - May be charged an additional overtime surcharge

- If advance freight is received before or after the published deadline date for shipments to arrive at the warehouse. See enclosed Material Handling/Drayage Order Form for details.
- Freight shipments sent to the show after it has opened.
- Freight shipments that are received at show site that do not meet their published date and time.
- Shipment Surcharges - A surcharge will be incurred per shipment for those that are received with incomplete information on shipping labels identifying company name and booth number and/or shipments that are left on the show floor at the end of the show with no labels and no Bill of Lading turned in.

Machinery Labor and Equipment

Labor and equipment for uncrating, unskidding, positioning, leveling, dismantling, recrating, and reskidding machinery and/or equipment must be ordered separately. Place your order for this labor using the Forklift Labor Order Form. If your material requires specialized rigging equipment, please notify us promptly so that we can make arrangements. When possible, supply your own rigging equipment with shipments and pre-rig your material.

Storing Empty Containers

Properly labeled empty shipping cartons will be picked up, stored and returned after the show. Labels are available at the GES Servicenter[®] or from your GES Service Executive and are for empty storage only. Depending on the size of the show, it can take from two to twelve hours to return empty crates. Do not store any items in crates marked "empty." GES has no liability for damage to crates or items sent to empty storage in crates.

Outgoing Shipments

An OMHF (Outbound Material Handling Form / Bill of Lading) must accompany all outgoing shipments. Shipping information, outbound forms and labels will be available at the GES Servicenter[®]. Exhibitors selecting non-official carriers will need to make their own arrangements for pickup. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display and product.

Important Instructions for Personally Owned Vehicles (POV)

To support your event planning for Wittman Field, GES would like to point out the following information related to POVs.

- In order to unload your POV the driver and individuals unloading must be a full time employee of your company.
- All POVs and individuals wishing to gain access to the grounds must check in with the marshaling yard. The registered booth name, number and identification will be required.
- Drayage services provided for POVs are subject to the material handling rates as outlined on the Material Handling/ Drayage Order Form.
- At close of show exhibitors obtain an Outbound Material Handling Form from the GES Servicenter.
- This authorized Outbound Material Handling Form is required to gain access to the field for outbound material handling services. If you need GES to load your vehicle, this paperwork must be in the hands of the POV driver (please do not leave in your booth).
- It is difficult to project the number of exhibitor's who will utilize POV material handling services. POVs are served on a first come, first serve basis and need to follow the times outlined on the Show Information sheet for a smooth process. Exhibitors planning to remove items immediately at show close should anticipate a two-hour window for these services at Wittman Field.
- Exhibitors may pull in next to their hangar or booth and hand carry or cart items to their location.

GES makes it a priority to service POVs in an efficient manner through the material handling process. For additional questions please chat with us www.ges.com/chat/.

- Solicitation of business on the show floor is strictly prohibited. If EAC attempts to provide services designated to another party as "exclusive" or is discovered soliciting on the show floor including the distribution of official company literature, or otherwise does not comply with the rules, the company may be removed from the show floor, and the exhibitor will not be able to use that company for the remainder of the event.
- EAC/ exhibitor may not move freight from one booth to another booth, or to meeting rooms. Global Experience Specialists, Inc. (GES) must provide labor.
- EAC must coordinate all of its activities with Global Experience Specialists, Inc. (GES).
- The exhibitor or its EAC should order services required from GES and the Exhibit Hall in advance. Ordering labor or services onsite (which contractors may not be prepared to provide immediately) may delay the set-up of your booth or force your set-up into overtime.

Rules and Regulations (continued)

17. The exhibitor or its EAC should take steps to protect the exhibitor and the EAC's product in the booth by arranging for booth security and/or cages. GES is not responsible for items left unattended on the show floor.
18. EAC agrees GES is not responsible for any items stored in empty containers. Do not store empty cartons inside of empty crates. Cartons are returned from storage before crates so exhibitors may begin packing their product.
19. EAC/exhibitor agrees to keep "No Freight Aisles" clear at all times. If GES is required to rearrange any material situated in a clearly identified "No Freight Aisle," the exhibitor or the EAC depending upon the billing arrangements with GES will be charged a one hour minimum for forklift rental and labor.
20. EAC/exhibitor agrees that all outbound freight bills should be turned into the service desk on a timely basis. Holding freight bills until late in the day or turning in large amounts of freight bills to the GES Servicerenter at one time may delay outbound truck scheduling and subsequently force your loading out into overtime.
21. During tear down, pull all manageable structures back from aisle carpet lines. Electronics, mannequins, etc. should be placed in the center of the booth.
22. Be aware of vehicle traffic inside and outside of the facility. All attendees should be aware of their surroundings and all individuals are solely responsible for their own safety in parking lots, driveways, access roads and non-exhibit hall areas.
23. Label empty cartons and crates for storage as soon as they are ready. Holding back on "empties" only adds congestion to the aisles.
24. For services such as electrical, plumbing, telephone, cleaning and drayage, no service provider other than the Official Service Provider will be approved. This regulation is necessary due to licensing, insurance and work done on equipment and facilities owned by parties other than the exhibitor. Exhibitors shall provide only the material and equipment they own and those materials are to be used only in their exhibit space.
25. Smoking is prohibited in most facilities. Smoking shall only be allowed in designated areas.
26. This agreement is to be interpreted under the laws of the State of Nevada.
27. A faxed signature will serve as an original signature and will stand as a fully executed agreement once faxed to and received by GES.

Union Information

To assist you in planning your participation in your show, we are certain you will appreciate knowing in advance that union labor will be required for certain aspects of your exhibit handling.

Loading and Unloading Display Material and Equipment

GES, the Official Service Provider, has the sole responsibility to manage docks and schedule vehicles for the smooth and efficient move-in and move-out of the exposition. The unloading and delivery of all display material and equipment from the convention site docks to the exhibitors' booth and loading out from the exhibitors' booths to trucks at the docks must be performed by the Official Service Provider. This includes the storage of empty crates and cartons. GES will not be responsible for any material we do not handle.

All material handling equipment, such as forklifts, pallet jacks and other mechanized equipment are to be supplied and operated by GES.

Exhibitors may unload their own vehicles at the assigned door or ramp area.

Please do not request to borrow or rent any material handling equipment, such as dock carts, hand trucks, dollies, etc. All equipment is under the jurisdiction of the local union.

Installation and Dismantling

Exhibitors have the option of utilizing GES, the Official Service Provider, to obtain quality labor to install and dismantle their exhibit booths. Exhibitors may choose to use display houses. Any outside or additional labor required is to be performed by local union personnel under contract with GES, the Official Services Provider, or under the guidelines established by the Rules and Regulations in this Service Manual for Exhibitor Appointed Contractors. Exhibitors may choose to install and dismantle their own company displays. Company employees must be prepared to produce some type of company identification when engaged in the installation or dismantle of their company displays. It is requested that all exhibiting company employees have a photo ID displayed while on the exhibit floor.

All cleaning is the jurisdiction of the Official Service Provider. Display houses or full-time employees of the I & D companies may not clean exhibit booths.

The personnel in charge of your company exhibit should carefully inspect and sign all Work Order Forms. If there are any questions about any item on your invoice, please bring the invoice to the appropriate GES Servicenter personnel.

Gratuities

Our work rules prohibit the solicitation or acceptance of tips in cash, product or gifts in kind by any employee (union or non-union). Our employees are paid appropriate wages denoting professional status, therefore tipping of any kind is not allowed.

All exits and exit aisles must be kept clear and unobstructed. No furniture, signs, easels, chairs or displays may protrude into aisles. All aisles must be maintained at a minimum of eight (8) feet in width unless otherwise approved on a floor plan.

Designated "no freight" aisles must be maintained clear of crates and exhibit materials during move-in and move-out. These aisles are required for emergency access throughout the hall and to expedite freight and empty crate moving.

All fire hose racks, fire extinguishers and emergency exits must be visible and accessible at all times. This includes fire protection equipment located within exhibits. Exits and exit signs must not be covered by drapes nor obscured from view by exhibit components.

Vehicles on display must have fuel filler caps locked or sealed to prevent escape of vapors and to avoid tampering. Batteries must be disconnected. Fuel in the fuel tank shall not exceed one quarter (1/4) of the tank capacity or five (5) gallons, whichever is less.

Combustible materials cannot be stored beneath display vehicles. Space beneath vehicles must be clear and visible except for permitted electrical supplies.

Vehicles in building for unloading must not be left with engine idling. Exhaust gases present extreme hazards to workers on catwalks. If an engine cannot be shut down, the vehicle must be removed from the building as quickly as possible.

Compressed air cylinders, including LPG, are prohibited unless approved by the fire prevention office. Flammable gases, i.e., butane, propane, natural gas, et al; are subject to prior approval. Nonflammable compressed gas cylinders must be secured in an upright position with gauges and regulator protected against physical damage.

All 110 volt extension cords shall be three-wire (grounded), #14 or larger AWG, copper wire. Connectors must not be supported by cords. Two wire "Zip Cords" are not permitted other than factory installed appliance connectors, these may not exceed six (6) feet in length and must be UL approved.

Cube tap adapters are prohibited (Uniform Fire Code 8507). Multi-plug adapters must be UL approved and have built-in overload protection. Connectors must not be used to exceed their listed ampere rating.

Electrical work under carpets must be done, or supervised, by the electrical contractor. All wiring on the floor must be Type "SO" cord, insulated to qualify for "extra hard usage," must be No. 12AWG or larger, and must be protected against injury or damage.

All temporary wiring must be accessible and free from debris and storage materials. Hard backed booths must have power supplies dropped within the booth.

No storage of any kind is allowed behind booths or near electrical service. Materials for handouts must be limited to one day supply and stored neatly within the booth. Violators will be notified and if the materials are not removed by show opening, show decorator will remove and store them at exhibitors expense, without access until the break of the show.

Areas enclosed by solid walls and ceilings must be equipped with approved smoke detectors.

All empty cartons or crates must be labeled and removed for storage or they will be removed as trash. Crates are not to be used as exhibit supports.

Flammable or combustible liquids are prohibited inside of buildings except as approved by the fire prevention office. Flammable thinners, solvents and paints including aerosol cans are strictly prohibited within the building.

Cooking and warming devices shall be electric. Sterno may be used for warming trays. Cooking devices shall be approved by a recognized testing laboratory; e.g., U.L., F.M. Cooking, warming devices, and/or heated products shall be isolated from the public by either placing the device a minimum of four (4) feet back from the front of the booth or provide a plexiglass shield 18 inches high, 1/4 inch thick across the front, and down both sides of the demonstration area. Please send the above information to the GES office for this show. Taxes vary by location and will be added to your invoice, if you do not submit your tax exempt certificate prior to the deadline date.

Adjustments and Cancellations: No adjustments to invoices will be made after the close of the show. Please refer to the individual forms for labor, etc. for cancellation fees. All orders cancelled by the Exhibitor or due to the cancellation of an event or their non-participation may be subject to cancellation fees equal to 50% - 100% of the total order based upon the status of move-in, work performed and/or GES set-up costs or expenses. A minimum non-refundable deposit of \$25.00 will be applied toward the invoice, unless there is a cancellation of your order. Additionally, GES retains the right to implement/assess a fuel or energy surcharge on all services as necessary based upon market conditions.

If you have any questions regarding our payment policy, please call GES National Servicer[®] at 800.475.2098 or visit the GES Servicer[®] at the show.

You may choose to pay by credit card, check or bank wire transfer; however, we require your credit card charge authorization to be on file with GES even if you are paying by check or bank wire transfer. You are responsible for any wire transfer bank processing fees.

All balances must be paid upon conclusion of the event. You agree to late fees up to 1.5% per month on any balance not paid at the conclusion of the event, or balance left without appropriate credit card on file.

For your convenience, we will use the credit card authorization to charge your credit card for any additional amounts ordered by your representative or services rendered to your company for this event.

GES will charge a convenience fee for each request to reprocess payment to an alternate credit card in order to cover incremental processing costs. An alternate credit card is a credit card different than the one used to process your initial payment in accordance with GES payment policy. The convenience fee will be quoted at the time your request is made to reprocess payment. The convenience fee will be added to your account balance and settled utilizing the new credit card provided.

GES requires the highest standards of integrity from all its employees. Please call our confidential Always Honest hotline at (800) 443-4113 to report fraudulent or unethical behavior.
