

SHIPPING INFORMATION

GES is the official drayage (freight handling) contractor with responsibility for unloading, delivering, storing of empty boxes/crates, re-loading and processing of all Exhibitors' shipments. GES will manage the loading areas to assure an efficient move-in and move-out process. All freight handling at the Show will be on a first-come, first-serve basis.

Exhibitors may get their product to the show in three ways:

1. You may ship in advance to **GES Warehouse** – Must arrive between July 8th and July 30th.
 - Rates can be found in the Minikit, GES' Expresso, or by contacting GES directly.
 - Shipments that arrive on or before July 19th will receive pre-deadline pricing. There will be a 25% surcharge applied for shipments received between July 19th and July 30th.
 - If shipped advance, items will be brought to your booth and will be waiting for you on your setup day. GES will charge Materials Handling for this service, please see Expresso for shipping information.
 - Complimentary Booth Drayage does not apply.
2. You may ship directly to show site (up to a 10 hour wait time).
 - **Important: shipments to show site will be accepted on Saturday, August 3rd from 8AM to 6PM (last check in at 4:30PM). If you ship to arrive beforehand, your packages will be refused by the building.**
 - Complimentary drayage including in your Booth Package (see contract for allotment) will be applied to any direct to show site shipments of product.
3. You may hand-carry your items directly onto the show.
 - Exhibitors must abide by the rules and regulations outlined in the Hand-carry Guidelines document.

INTERNATIONAL SHIPMENTS

Merchandise imported into the U.S. requires Customs House Clearance before being released from any U.S. port/airport. Foreign Exhibitors' freight is entered into the U.S. under "Temporary Trade Fair Status" and is, therefore, considered by Customs to be "in bond." U.S. Customs regulations state, freight entered under trade fair status cannot be removed from the bonded facility unless for exportation, destruction, or for permanent U.S. entry.

ADVANCED WAREHOUSE

Accepted July 8th-July 30th

Freight shipped to the GES warehouse and/or with GES Logistics is unloaded first and will be in the exhibitor's booth prior to move-in hours. Exhibitors may ship crated, boxed or skidded display materials in advance of the Exhibition to GES' warehouse until **June 31st**; a 25% surcharge will be applied to shipments arriving after **July 19th**. Shipments must be pre-paid. Collect shipments will not be accepted. GES will accept shipments 8:30am to 4:30pm, Monday through Friday only (except holidays). Show management does not recommend that you send product and/or samples to the GES warehouse. These valuable items should be sent directly to the exhibit facility to coincide with your arrival or brought with you and hand carried to your booth. Complimentary drayage will not apply to items shipped to the GES warehouse.

ADVANCED WAREHOUSE RATES

\$85* per 100lb (300lb minimum charge)

*Advanced warehouse freight must arrive by **July 19th** to avoid additional surcharges. Warehouse freight is accepted until **July 30th**.

Price includes receiving materials at the GES warehouse and delivery to your booth prior to the first move-In day.

SMALL PACKAGE RATE

Small Package Delivery*: \$40/ item

*Cost applies to shipments to GES Advanced Warehouse and/or direct to Show Site. Small packages that are sent direct to show site will fall into the exhibitor's complimentary drayage if applicable. If the exhibitor has already used their allotment the small package rate will apply.

ADVANCE WAREHOUSE ADDRESS

Exhibiting Company Name

SHOW NAME 2019

Booth #_____/Hall _____

c/o GES

203 Kuller Road

Clifton, NJ 07011

SHOWSITE SHIPMENTS

Accepted August 3rd 8AM-6PM; vehicle must check in no later than 4:30PM

Shipments received outside the above window will be refused by the venue. Wait time for items shipped directly to showsite may be up to 10 hours.

Complimentary drayage included in your Booth Package (see contract for allotment) will be applied to any direct to show site shipments of product. This includes the following services: unloading your vehicle at the loading dock & delivering to your booth, storing empty boxes (with proper empty labels affixed), returning empty boxes to your booth at the close of the show, and re-loading them into your vehicle. Complimentary drayage cannot be split into multiple shipments. Exhibitors may not unload their own vehicle.

Your shipment will be placed in your Booth whether or not a company representative is present. GES/Show management cannot be responsible for your shipment once it is delivered to your booth. Insurance is strongly recommended for all exhibitors; please see Insurance document for more information.

When shipping to the show via a truck or van that needs to utilize the loading dock, the driver must have a Bill of Lading (BOL), (please see GES Bill of Lading document for an example). This document tells the freight crew the shipping company name/contact information, exhibiting company name, booth number for exhibiting company, and weight of each piece.

Each piece on the truck must be itemized on the BOL. For example, 1 crate weighing 500 lbs., ten boxes weighing 200 lbs. If the BOL is not itemized, the freight crew will need to document and weigh each piece. This process will delay unloading and deliver.

Packing the truck is important to help create an efficient and timely unload and reload. You can do this by:

- **Making sure each box, rack, crate, etc. is labeled with the exhibiting company name and booth number in numerous places so it is easily seen.**
- **Place all boxes and loose items on skids and shrink wrap the skid for safe keeping of your items. However, please be sure to label each box/item on the skid in case it comes apart.**
- **Rack should be shrink wrapped and/or completely covered to protect your merchandise.**
- **If something is fragile, BE SURE TO MARK THAT CLEARLY ON BOXES, ETC.**

Trucks must be able to be unloaded at dock height and/or have a lift gate. Pier 94, GES and Show Management do not provide ramps to attach to trucks to unload.

DRIVER CHECK IN

Drivers must park their vehicle in legal locations on the streets near the Exhibit Facility and walk to GES Freight Trailer and bring all shipping paperwork to the GES representative. A GES representative will take the driver's paperwork and cell phone number to contact the driver when GES is ready to bring the vehicle into the unloading area. Once the vehicle is in the unloading area, there still will be wait time for an available "bay" and freight crew. Vehicles will be unloaded on a first-come/serve, which is based on the time the driver checks in and space availability for that size vehicle; thus, there will be wait time to be unloaded.

SHOW SITE RATES

Drayage*: \$60 per 100lb (300lb minimum charge)

*Some show packages include complimentary drayage. Please review your package inclusions for more details. See page 1 of this document for small package rate.

SHIPPING FROM SHOW SITE

Exhibitors have the option to hand-carry their items off the show floor and out the facility's front exit; same hand-carry rules apply for move-out that are enforced for move-in.

If shipping from the facility, exhibitors may select the shipping method of their choice. GES Logistics, which offers a variety of shipping options, will be at the Service Desk. Schedule your own car, van, truck or messenger service. UPS, FedEx, etc. do not typically pick up at the close of exhibitions. If you need to ship via UPS or FedEx you will need to bring your packages to their local facility.

Exhibitors must complete and return a BOL to the Exhibitor Service Center. The BOL tells GES who is sending the shipment, where the shipment is going, the number of pieces, how it is being shipped, and who is responsible for the charges. The BOL must not be turned into GES until all pieces of your shipment are packed and ready to be delivered to the freight dock. Be sure that all shipping information and a form of payment are in the hands of all persons who will be breaking down your booth.

Labor workers are experienced with general freight and are not familiar with delicate merchandise. It is your responsibility to supervise the safe loading and unloading of your merchandise from your booth.

All exhibitor merchandise and samples must be removed from the Exhibit Facility by the end of the evening, the last show day. Informa recommends that exhibitors remain with their shipment until the carrier of your choice picks it up. Show Management, GES, the exhibit facility, and Citadel are not responsible for exhibitors' materials.

If your shipment is not picked up by the scheduled move-out time, it will be "forced" by GES on to the next available carrier at the Exhibitor's expense. If you have an unpaid balance with GES, your shipment will be brought to the GES warehouse and not released until GES fees are paid in full. In addition to shipping charges for forcing the freight you may also incur storage fees.

The same driver check-in rules enforced for move-in will apply to move-out. For more information, see page2 of this document. Drivers may begin to check-in at 2:30PM on the final show day.

Trucks will be loaded on a first-come/serve basis, which is based on the time the exhibitor turns in their BOL at the GES Service Desk, the time the driver checks in at the GES Freight Desk, and space availability for that size vehicle. Once vehicles enter the loading area, they will not be permitted to park; the driver must remain with the vehicle as it is being loaded. If BOL has not been turned in by the time your driver arrives, the vehicle cannot remain in the loading area; the driver will need to circle around and re-enter the loading area.
