The Exhibitor Service Kit Reference Guide

While coordinating an exhibition may seem like a daunting task, this document will help you navigate and explain what is in the **Exhibitor Services Kit**, help you with move in and move out procedures, and give you the framework for putting together a successful show.

How to Navigate the Exhibitor Services Kit:

The **Exhibitor Services Kit**, also known as the **ESK**, is your guide to ordering items for your booth, shipping your materials to the show, and viewing rules & regulations. Here is a section by section summary of how to navigate the ESK.

ESK Homepage:

The ESK homepage provides information on booth inclusions, quick links to important and frequently used items, important dates and deadlines, as well as links to order forms for all official vendors.

Show Information:

The Show Information tab is the starting point for all basic show specific information. Be sure to read through the **Welcome Letter** and **Important Dates & Deadlines** in this section as a starting point to planning.

- The Important Dates and Deadlines is a one stop shop for all the discount deadlines in a handy organized page.
- Need to register for badges or secure a hotel room? Links are available on the ESK Home Page!

Regulations & Guidelines:

The Regulations & Guidelines tab includes all show polices, booth regulations, venue regulations, and safety information. It is critical to read this section in its entirety prior to planning your Exhibit to ensure a successful experience.

- **Show Regulations & Guidelines** include general rules & regulations of the entire exhibition. You can find regulations on animals, age restrictions, rules about booth activities and events, sound level rules, photography/videography rules, and much more.
- **Booth Regulations & Guidelines** will tell you what you can and cannot do when building and designing your booth structure and layout. If you want to know how high your booth structure can go, how tall your sign can be, whether or not you are allowed to have a hanging sign, etc.
- **Fire Rules & Regulations** are different for each facility. It is important to know regulations concerning usage of items such as open flames, cooking devices, hazardous materials, and compresses gasses as well as flame retardant requirements for your booth materials. You will need to follow both show fire regulations and facility regulations. You will find them under the **Regulations & Guidelines** tab under Fire Regulations.
- **Union Rules** also must be observed concerning moving your booth materials in yourself, when you are required to hire labor for installation and dismantling your booth, and when electrical or forklift labor are required and can be found under the Show Site Work Rules/Union Jurisdiction Regulations.

Booth Furnishings & Accessories:

Most shows require some sort of floor covering. Be sure to check the ESK Homepage under 'What's Included in a Standard Booth' for show requirements. If flooring is required, you can provide your own or rent carpet from GES through this tab. You can also order carpet, tables and chairs, as well as other accessories such as wastebaskets and shelving.

- Booth Packages can save you time and money by combining items for a reduced rate.

Graphics & Signage can be ordered as well as shell schemes and hard wall booths.

Inbound & Outbound Targeted Freight:

This section contains **Inbound & Outbound Targeted Freight** information that is critical for a successful show site experience.

- Shows with **Targeted Freight** have assigned move in times for each exhibitor. It is critical that each exhibitor know their target time and date to save money. You will find your target inbound information under the **Target Floorplan** tab.
- Shipments received off target will be assessed an off-target fee that is a percentage of your total material handling charge for the shipment.
- Be sure to read the **Inbound & Outbound Targeted Freight** document while planning your shipping to and from show site. These documents contain information that can save time and money during the planning process.

Hand Carry/Cartload & Privately-Owned Vehicle (POV) Services:

This section contains information on how to move-in your materials if you plan on bringing them in yourself with your personal vehicle. It describes the differences between hand carry and cartload services and instructions of where/how to unload.

- Information on when and where to unload your materials at the show site
- Cartload Service order forms

Instructions on how the **Hand Carry/Cartload/Privately Owned Vehicle** process works

Shipping, Drayage, Material Handling & Access Storage:

Use this section of the ESK to place orders for material handling, print shipping labels and view general information regarding material handling.

- Be sure to fill out the **Freight Service Questionnaire** if you are planning to ship any freight to the event. This form lets GES know what materials to expect and will allow them to better assist you with your shipping needs.
- Pre-print your address labels' using the **Print Shipping Labels** tab to ensure all your freight is shipped to the correct booth space.
- Get a shipping quote. Shipping through GES can save you time and money.
- Create a pre-printed outbound **Bill of Lading** to speed up the move-out process by selecting the **Pre-Printed Bill of Lading (BOL) & Outbound Labels Request** form. Be sure to also review the **Sample Outbound Bill of Lading with Instructions** for tips on how to fill out the form.

Refrigerated & Frozen Storage:

This section contains information on how to ship your refrigerated or frozen products to the show site.

- Instructions on how the **Refrigerated & Frozen Warehouse Shipping** process works and when you need to ship your cold product. **NOTE:** *you may be shipping to a location other than the Convention Center – see Refrigerated & Frozen Storage shipping labels.*
- If you need storage for your cold product during the event, you will find the ordering forms under the **Refrigerated & Frozen Storage** tab. You will order space by the cubic foot by completing the **Refrigerated & Frozen Storage Order Form** located under **Refrigerated/Frozen Storage Order Forms, Delivery Schedule & Shipping Labels**.
- If you have your cold product in storage and need to arrange to have it delivered to your booth, you will need to complete the **Refrigerated & Frozen Order Form, Cold Storage Labor/Delivery Order Form** and the **Cold Storage Delivery Schedule**.
- If you need to ship your cold product to the show site, there are separate **Shipping Labels** also located under the **Refrigerated & Frozen Storage** tab.

Labor/Equipment, Hanging Sign & Rigging:

Using this tab, you can place orders for hanging signs and aerial rigging, order union labor and equipment, submit your layout for sign placement, and access a link to your **Booth Approval Form**.

- All hanging signs *must* be approved by show management. GES will not hang any signs that have not been approved. Be sure to fill out the **Booth Approval Form** located in your **Exhibitor Console** prior to placing your orders.

- All hanging signs must be shipped to the Advance Warehouse prior to the event by deadline, located in the Hanging Sign - Advance Warehouse Shipping Labels tab
- Be sure to review **Booth Regulations & Guidelines** before ordering a hanging signs, as not all exhibit space types are permitted to have them.
- When preparing for the event you may discover the need to hire union labor for the installation and dismantling of your booth. Pricing and options for hiring labor can be found here.

Cleaning, Vacuuming & Porter Service:

Vacuuming, carpet cleaning, floor waxing, and porter service including trash removal and wiping down of counters must be ordered. If you are sampling in your booth, we highly recommend porter service. Keep in mind that waste baskets will NOT be emptied throughout the day without ordering porter service.

Utilities:

This section includes order forms for Utilities such as **Electrical, Internet/Telephone/Cable/ & Plumbing**

- If you need to plug-in a computer, lead retrieval unit, cell phone, lights for your display, a machine, or a showcase you will need to order electrical. Even if an outlet is placed behind your booth onsite, you must place an order to power the outlet. To figure out how much power to order, you can add up the total “Amps” on the tags of each item, or if you give the designated electrical provider a call, they can help you with figuring out how much power will be needed for the items.
- **Ordering Electrical Labor** is only needed if you need a power drop located in a specific area of the booth (other than the back wall) or distributed under the carpet. Please note that any cords and supplies used during Labor will be added to your bill based on usage.
- **Plumbing** can also be ordered under the Utilities tab if needed for your booth. For safety and liability, the specified contractor must handle these services.

Additional Show Services:

This section includes all other vendors outside of the general contractor.

- **Lead Retrieval/Badge Scanner** allows you to capture leads generated at the show electronically as opposed to gathering business cards by hand and risk misplacing them.
- **Catering Menu/Sampling Guidelines** is where you can order food and beverages for your booth, review the sampling guidelines and find the contact information for any catering questions you may have.
- **Security/Booth Monitoring** is personalized in booth security above and beyond the perimeter security provided for the show.
- **Floral Arrangements** can help to spice up your display but be sure all arrangements abide by booth height regulations.
- **Liability Insurance** is required for all exhibitors. You may use your own carrier or our recommended vendor. All International exhibitors are automatically enrolled for U.S. Insurance with ExhibitorInsurance.com
- **Temporary Booth Staff** can assist by working your booth during show floor hours. Exhibitor badges will be required for all temporary booth staff.
- **Lowes Refrigeration Catalog & Order Form** if your product requires refrigeration or frozen storage you can review what is available and place an order.

Exhibitor Appointed Contractors (EACs) & Third Parties:

If you are hiring another company outside of the ones that we have included in the **Exhibitor Services Kit** (to help set-up your booth or deliver special equipment to your booth) that requires access to a booth during installation and dismantling, you will need to complete the information within this section.

- This is a **2-step process:**
 - The exhibiting company needs to fill out the **Notice of Intent to Hire an EAC Form and the Agreement, Rules & Regulations between GES & EAC Form**

- The company you have hired (EAC) will need to submit a valid **Certificate of Insurance** to the general contractor.

How to Save Money When Exhibiting

With so many rules, regulations, deadlines and vendors, planning for any tradeshow can be expensive. We understand that this can be one of the most frustrating parts of planning, and have compiled a list of tips to help you save money.

Save on Shipping:

- **Packages:** Consolidate your packages, don't ship multiple small boxes to an event. They could get separated during transit and arrive on separate days causing additional charges, material handling fees, and set up delays. Remember, there is a minimum material handling fee for each shipment that is received.
- **Electronic Literature:** Attendees often throw away literature rather than take it home. Both shipping and printing these materials can be very expensive. Instead, order the Lead Retrieval device through your Exhibitor Services Kit, scan the attendee badge and email them the information they have requested. Another great option is to load the information on a USB drive that can be given to attendees. It is a great marketing tool, and is less likely to be thrown out.
- **Shipping Documentation:** Often materials are lost or damaged during shipping. Be sure to document all the materials you ship and their condition at the time they leave your possession, and bring tracking information with you on-site.
- **Tradeshow Shipments:** The best way to ensure that shipments will arrive on-time and to the correct venue is to ship with a carrier who knows the ins and outs of tradeshow shipping. Communicate your move-in dates to your carrier as well as marshalling yard information, if applicable.
- **Know Your Carrier:** Have contact information for your carrier readily available, including weekend contact information. Do not leave the convention center until you have confirmation that the carrier has checked in at the marshalling yard during move-out.
- **Insurance:** Make sure the insurance on the shipment covers freight from the time it leaves your possession to the time it returns home.
- **Advanced Warehouse:** It is important to do a cost analysis when deciding whether to ship to the advanced warehouse or direct to show site. Important factors include: the cost of material handling, the cost of your freight carrier waiting in the marshaling yard, the cost of storage you are paying to hold your materials 30 days pre-event (storage is included in the advanced warehouse rate), and the impact the loss of the shipment may have if lost or delayed in transit. Shipping to the advanced warehouse gives you peace of mind that your shipments will be in your booth when you arrive.
- **Special Handling Charges:** Be sure to read the special handling brochure under the Shipping, Drayage, Material Handling and Access Storage tab of the Exhibitor Services Kit, a special handling charges can add up quickly.
- **Cartload Service:** Cartload service is a type of material handling where you can bring your equipment to show site in your vehicle and have it offloaded and delivered to your booth. If you will be driving to the event, rather than shipping your materials and paying for material handling, pre-order the cartload service and bring your materials with you to the event. Be sure to read the Move-In Info page located in the move-in section of your

Exhibitor Services Kit for specific Cartload Service information for the event. **Cartload Service** limited to a total shipment weight of 600lbs.

- **Bill of Lading:** Be sure to fill out your Bill of Lading correctly and turn into the **GES Service Center**. The bill of lading (BOL) tells GES that your shipment is ready to be picked up at your booth and delivered to your carrier. Do not leave the completed form in your booth, it must be turned in at the GES Service Center for processing. Be sure to fill out all information correctly and pay special attention to the section regarding shipping in the event your carrier does not pick up the shipment. Select the “Use GES logistics” option for the least expensive option. Returning shipments to the Warehouse is extremely expensive. Make sure the contact phone number is legible on all copies of the bill of lading.

- **UPS and FedEx:** When shipping with UPS or FedEx never leave shipments on the show floor, more than likely they will end up being shipped via the alternative method you selected on your BOL, and this will cost you more money. UPS and FedEx have unpredictable timelines that are not recommended for tradeshow planning. If using these options take the boxes to the local offices for processing. There is often an office in the convention center or nearby hotel.
- **Move-Out:** Move-out takes time. Depending on the size of the show it could be hours before crates for your booth are returned, and there is no way to tell how long it will take. Schedule your flights far enough out to ensure you have enough time to successfully move out. Scheduling flights too soon could result in missed flights or paying GES to pack and ship your booth materials for you. Reference the Target Move-Out schedule for your carrier check-in time.

Save on Show Orders:

- **GES Service Center:** If you are unsure what to order or which forms to fill out, call the GES Service Center. Submitting the incorrect forms can be costly and result in orders needing to be placed on site. Avoid this by asking questions. GES will be happy to guide you to the correct forms to save you time and money. Don't forget to ask your GES representative what booth packages are available. These packages are designed to save you money.
- **Booth Rules & Regulations:** It is extremely important to read the rules and regulations for each show that you attend. Booths that are out of regulation will be required to make adjustments on site, which can be very costly. These adjustments could include ordering furnishings, removing portions of your booth, or omitting key marketing structures. Do not assume that because it worked last year, it will work this year. If you have any questions on the booth rules and regulations contact your Client Services Specialist. Their contact information can be found in the Exhibitor Services Kit Welcome Letter.
- **Discount Deadlines:** Most vendors have an early bird discount deadline. If you order early you will often save a substantial amount of money on your booth orders and equipment. Discount deadlines can be found in the Critical Dates Checklist under the Show Information tab of the Exhibitor Services Kit.

- **Overtime Labor Charges:** All labor before 8:00 am and after 4:30 pm Monday thru Friday, and all hours Saturday, Sunday and holidays, will be overtime. Straight time rates are for hours worked between 8:00 am and 4:30 pm Monday thru Friday, excluding holidays.
- **Booth Inclusions:** Be sure you know what is included with your booth space. Most events do not have any included furnishings in the booth space, so be sure to check the Exhibitor Services Kit for what is included and place orders accordingly. Orders placed onsite are very expensive.
- **Flooring:** Flooring is **mandatory** for most events. You can often save money on flooring by renting through GES. The cost to purchase flooring, ship it, and have it installed is often more expensive than renting through GES. This of course greatly depends on the flooring you require. If you prefer to purchase carpet be mindful of the color. White carpet may only last one event while dark or patterned colors will last much longer. Lastly, remember that carpeting is not the only option when deciding on booth flooring. Carpet tiles are often an affordable solution that are light weight and easy to transport.
- **Booth Cleaning:** Be sure to pre-order cleaning, vacuuming and porter service for your booth. These services are not included in the booth rental or trash can ordering and will be more expensive if purchased on-site.
- **Booth Security:** Tradeshow are not secure spaces. While show management has perimeter security for the hall, they are not watching individual booths. Items that are stolen are often never recovered. Do not store expensive items in your booth and be sure to order booth security if you will be leaving items of value in the booth overnight.

FREIGHT MOVE-OUT

Expo East 2018 has a **Targeted Move-Out for all areas**. Please reference carrier check-in time & date on the **Target Move-Out Plan** by [CLICKING HERE](#). Please reference the tips below to help make your move-out run smoothly.

Pack freight once the show closes, BUT NOT BEFORE THE OFFICIAL END TIME allowing for return of packing materials. Schedule STAFF DEPARTURE TIMES accordingly:

- After the show closes on the last day of the event, dismantling and packing booth properties can begin. Early move out is not permitted, as it is disrupting for neighboring booths who are trying to do business. It is also a breach of the show contract which may result in loss of privileges for future shows or a penalty fee.
- **Schedule staff departure times to allow enough time to pack the booth.** The return of packing materials may take **over 6 hours** once aisle carpet is removed.
- Make sure to keep all items within the booth space and out of the aisle so that carpet can be rolled up. Security will be ensuring all attendees are off the show floor for safety reasons. Please keep exhibitor badges on.

Prepare freight for outbound shipment from trade show:

- Once the booth properties have been packed, make sure they are labeled for shipping, including the full address of where the shipment is going. It is also recommended to **include a cell phone # and contact name** on the label as well. This can be helpful in the event of a shipping issue.
- **Contact carrier** to verify pickup address and scheduled time. Shipping is not an automatic process. If using a carrier other than GES Logistics, ensure arrangements have been made with the carrier.

Turn in filled out OMHF/BOL to GES Service Center (regardless of carrier) - Please Do Not Leave Bill of Lading (BOL) in the booth:

- Once packed and freight is labeled, leave the freight in the booth space, and take the **Outbound Material Handling form (OMHF / BOL)**, provided by GES, to the GES Service Center. This is a five-page carbon copy form that will serve as the release to give the freight to the selected carrier, whether this is GES Logistics or an outside contracted carrier.
- Please make sure the information placed on the **OMHF/BOL** matches the carrier name and shipping destination used when the driver checks in with GES. If the information doesn't match, there may be a delay in outbound shipment being processed. **PLEASE NOTE: GES will not accept the OMHF/BOL until after the show closes.**
- The **OMHF/BOL** is a multi-page document. Make sure contact name and cell phone number are legible on every page in case any issues arise during shipping.
- **PLEASE NOTE:** Should a small package carrier, i.e. UPS, FedEx, DHL, be selected, please note that they may not pick up within the facility per move out regulations. It is highly recommended that leave these types of shipments not be left in the booth. It is suggested that they be transported to a direct drop off/pickup location, such as the business center or a hotel.

It is recommended that freight not be left unattended.

- However, should freight be left unattended, make sure to verify the pickup address and scheduled time with the carrier, as this may NOT be the address to where freight was originally shipped. All freight must be picked up at the exhibit location to avoid additional fees. Make sure the carrier knows the carrier check in time. Anything that does not have a carrier checked in for the freight will be shipped via GES Logistics or returned to the warehouse, depending on the selection on the **OMHF/BOL**.

Details Matter When Shipping

Material Handling is the unloading of your exhibit materials. The service includes delivery to your booth, handling of empty containers to and from storage and removal of your materials from your booth for reloading onto your outbound carrier. This is not to be confused with the cost to transport your exhibit material to and from the event.

- Unloading the freight and delivery to your booth is not included. Avoid unexpected costs at show site and estimate the cost for this service. <http://e.ges.com/083600172/item/200500>
- We understand that your calculation is only an estimate. Invoicing will be done from the actual weight. Adjustments will be made accordingly.
- Save by combining shipments. A minimum charge applies for each shipment under 200 lbs.
- Make sure that a Bill of Lading is filled out completely for each shipment.
- Confirm that your driver has the correct dates and times that your shipment needs to be delivered and picked up.
- Use provided shipping labels to make sure show name, booth number and other vital information is provided.

No Tipping

GES work rules prohibit the solicitation or acceptance of tips in cash, products or gifts of any kind by any employee. Our employees are paid appropriate wages denoting professional status; therefore, tipping of any kind is prohibited.

Where Did My Crates Go?

After your exhibit is set-up and your products displayed, you must place "empty" stickers on your empty containers for storage during the show. At show site a kiosk with a floor plan and color coded "empty" stickers will be available. Crews will clear the floor of all "empty" stickered containers to clear room for other freight.

- Simply write your booth number, company and show name on the sticker and place the container in the aisle. It will be stored throughout the exposition and then returned to your booth upon show close.
- Place stickers on all four (4) sides of the crate.
- Please label your empty containers as soon as possible to keep your area clear and make it easier to prepare your booth.

Don't Forget to Take Out the Trash

Exhibitors planning on disposing of booth properties and/or floor covering at the end of the show should pre-order this service. In the event that excessive booth properties and/or floor covering are abandoned/left on the floor at the conclusion of a move-out, a dumpster fee will be billed to the exhibiting company.

Keeping Up Appearances

Pay close attention to your booth size when ordering items based on booth sq. footage or quantity of decorating items. Please do not order more than what will comfortably fit in your space.

- Exhibitors that order two (2) standard pre-cut carpet pieces should keep in mind that there will be a visible seam where the pieces of carpet are placed together. GES cannot guarantee that carpet colors will be an exact match due to dye lot differences.
- Order just enough carpet to fit your standard booth space. A 10' x 10' booth should not order 10' x 20' carpet.
- We custom cut carpet to fit your needs.

It's All About the Padding

Ordering carpet for your booth? Think about the kind of padding you need if you are going to be on your feet all day. That little extra cushion can make all the difference at the end of the day.

Carpet and Padding: <http://e.ges.com/083600172/carpet/esm>

What Goes Up Must Come Down

If labor is needed for your booth space at the time of move-in, you will also need labor for move-out. Remember, what you put up must be taken down.

- See Labor Information form for rules specific to the show. Work rules can vary based on show location.
- Gratuities in any form, including cash, gifts, or labor hours for work not actually performed are prohibited by GES.
- All rates are subject to change if necessitated by increased labor and material costs.
- Pre-order labor to save.

Show Regulations and Guidelines

Americans with Disabilities:

All exhibiting companies are required to be in compliance with the Americans with Disabilities Act (ADA), and are encouraged to be sensitive, and as reasonably accommodating as possible, to attendees with disabilities. Information regarding ADA compliance is available from the U.S. Department of Justice ADA Information Line, (800) 514-0301, and from the ADA Web site at www.ada.gov.

Animals:

Animals are not allowed at the Show except for service animals (dogs).

Announcements:

Announcements are only made for lost children. Lost and found is available at the Show Office. We encourage attendees, if separated from their group, to designate the Show Office as the location to meet.

Badge Access/Age Restrictions:

All exhibitors must have their badges before they will be allowed onto the Show floor. No one under the age of 18 will be allowed on the Show floor during set up and break down hours.

Balloons:

Please refer to applicable convention center policies at <https://ordering.ges.com/083600172/convcenterregs>.

Booth Activity/ Events, Meetings & Seminars:

- Demonstrations are part of the exhibit program involving the interaction of exhibit personnel and their audience through corporate presentations, product demonstrations or sampling. All live demonstrations should be documented and submitted to Show Management.
- Live demonstrations consist of presentations/activities such as live music, dancers, special guest appearances, comedian acts, etc. as well as any type of activity, other than daily product sampling, which may attract a large crowd and higher noise levels. If you plan to have this type of activity in your booth, please complete the Exhibitor Hosted Events Form on our website. You will need to go to Exhibitor Login to complete the form so we can monitor for crowd control and noise levels.
- Booth activity, including sales presentations, product demonstrations, entertainment, celebrity appearances, etc., must be confined within the exhibitor space contracted for so as not to interfere with traffic flow in the aisles or encroach into neighboring exhibits. Sampling or demonstration tables must be placed at a minimum of 3ft (.914m) inside your booth. Exhibitors must contract sufficient space in order to comply with this rule.
- Should spectators or samplers interfere with the normal traffic flow in the aisle or overflow into neighboring exhibits, Show Management will have no alternative but

to request that the presentation or sampling be eliminated. Intent: The aisles are the property of the entire Show, and each exhibitor has the responsibility to ensure proper flow of traffic through the entire Show. Aisles must not be obstructed at any time.

- Exhibitors must regulate their own booths to be sure the noise level from demonstrations or sound systems is kept to a minimum and does not interfere with other exhibitors and attendees conducting business.
- Show Management reserves the right to determine at what point sound constitutes interference with others and must be discontinued. Sound levels may not be higher than 85 decibels measured from a minimum of ten feet away.
- All product demonstrations involving any moving and potentially hazardous machines, displays or parts must have hazard barriers to prevent accidental injury to spectators. Demonstrations must always be supervised by exhibitor personnel who can stop the demonstration in an emergency. All demonstrations involving potentially hazardous by-products, such as dust, fumes, sparks or flames, must be approved in writing by Show Management prior to the Show. Demonstrations must be set back at least 3ft (.914m) from the aisles.
- Events, seminars and meetings must be registered and approved by using the Exhibitor Hosted Events Form, which can be found by going to the Exhibitor Login page. Meetings, events and seminars not designated or organized as a part of the Show are not permitted during Show floor hours. Exhibitors have the option to publish their meeting or events online in the Hosted Events listing or indicate on the form that it is a private event. If it is indicated as a private event, it will not be listed online.

Company promotion, sampling and literature distribution by exhibitors must be done within their contracted exhibit space, with the exception of designated sponsorships and event marketing opportunities for which exhibitors have contracted with Show Management. Violation of this policy can result in expulsion from future shows.

At the close of the Show, exhibitors can donate their remaining product to the local food bank or authorize attendees to take the product with them. If an exhibitor would like to authorize an attendee to take a large quantity of product samples that exceeds more than one sample bag, the exhibitor and attendee must visit the GES Service Center prior to the close of the Show floor. GES will provide further instructions to the attendee on pick-up location and time.

Carpet/Floor Covering Requirements:

- Management provides carpet for the uncarpeted floors to enhance the overall appearance of the show floor.
- The exhibitor is required to provide carpet or floor covering to cover its contracted exhibit space including areas that already have facility carpeting. You may bring your own floor covering or order it through the official show decorator, GES. All booths without floor covering at 5:00 pm on the night before Show open or they will be carpeted by GES at the exhibitor's expense.

Character of Exhibits:

- It is the exhibitor's responsibility to create an attractive display area.
- Show Management reserves the right to approve the character of the display and to prohibit any display which, because of noise or other objectionable features, detracts from the general character of the Show. Exhibits must be in good taste as determined by Show Management.

Competing Events:

Show Management reserves the right to control all suites and meeting rooms in the official hotels, which are participating in housing for the Show. Exhibitors shall not have hospitality suites and/or meeting rooms during Show hours or during a time that conflicts with official functions of the Show and shall not host any event during the Show or official functions. Marketing and sales activities are limited to the Show floor during Show hours.

Compressed Gases:

See fire rules and regulations at <https://ordering.ges.com/083600172/fireregs>.

Cooking Regulations/Product Sampling:

- Dishwashing and food prep cleaning: dishwashing, utensil cleaning and food dumping is not permitted in the restrooms. Dishwashing stations are provided to assist with these needs.
- Each exhibitor that is sampling food or beverages must add the exclusive caterer of the convention center as additionally insured. Fire and health regulations are strictly enforced. The exhibit hall will be regularly inspected by fire marshals and representatives from the health department. Please review the following guidelines for exhibiting. Operation of any cooking appliance, e.g., ovens, stoves, barbecues, hot plates, deep fryers, etc., and all demonstrations using these appliances must be isolated away from the public or be protected on the front and sides with a clear plastic or Plexiglas shield.

The shield must be:

- A minimum of 1/4" thick
- 3-sided
- A minimum of 18" high or at least 6" higher than the cooking appliance

- Exhibitors that manufacture or distribute food and beverages may sample these products to attendees. Exhibitors are prohibited from sampling products they do not manufacture or distribute. For example, if you make or distribute veggie burgers, you may not add condiments or buns to the sample.
- Exhibitors that do not manufacture or distribute food and beverage products, but wish to distribute these items to attendees, must go through the exclusive caterer of the convention center.

General Conditions applicable to Food/Non-Alcoholic Beverage Samples:

- Items dispensed are limited to products manufactured, processed or distributed by exhibiting firm.
- Non-alcoholic beverages are limited to a maximum of 8oz. servings.
- Food items are limited to 4oz servings. Full size products will be permitted if the exhibiting firm is the manufacturer, distributor and/or supplier of the specific product only, and it is given out in its original package. For example: If your product is deli turkey meat or beef product, you may give out a full size sample in its original package, but you will not be permitted to give out a full size sandwich or full size hamburger.
- Any exhibiting firm wishing to give out samples that include additional ingredients not distributed and/or manufactured by it are required to purchase these items through the exclusive caterer of the convention center.
- Food and/or beverage items such as traffic promoters (e.g., popcorn, coffee, bar service) MUST be purchased through the exclusive caterer of the convention center.

General Conditions applicable to Alcohol Samples:

- No alcoholic beverages may be brought onto the premises from an outside source.
- All alcoholic beverages being sampled must be ordered through exclusive venue caterer.
*All alcohol that will be sampled must be purchased by the exclusive caterer of the convention center and then resold to the exhibiting firm that is licensed to sample the alcoholic product (even if the exhibiting firm is the manufacturer or distributor of the product).
- No person under the age of 21 will be served alcoholic beverages. Samples are to only be served to persons 21 years of age or older. Each booth must provide a visible sign, stating: *"Guests must be 21 years of age to participate in sampling of alcoholic beverages. Picture I.D. is required."*
- All alcoholic beverages must be served by an exclusive caterer of the convention center certified bartender(s).
- Show Management reserves the right to refuse alcoholic beverage service to anyone who appears to be intoxicated or underage.
- No alcoholic beverage may be removed from the premises.
- All alcohol items are limited to the manufacturer of the product only.
- Items dispensed are limited to products manufactured, processed or distributed by exhibiting firm and must be directly related to the purpose of the Show.
- Standard fee for storage, handling, delivery, etc. will be charged if applicable.

Tips for Sampling

- For cost-effective sampling, only distribute samples to customers and prospects who have entered your booth to discuss your product.
- Sampling further inside of the booth encourages attendees to stop in and speak with you.
- Sampling at the edge of your booth encourages attendees to taste and keep walking.
- An appropriate sample size is typically a bite or drink. After attendees express interest, offer a larger sample.

How many samples do I need?

- Determine the number of product demos one person can make in an hour
- Multiply that by the number of hours of the Show (e.g., 12 hours)
- Multiply the results by the number of sales staff in the booth
- Review the final numbers with your staff

Dismantling:

Exhibitors will not be permitted to dismantle their exhibits or do any packing prior to Show close. **This policy will be strictly enforced.**

Electrical Equipment :

Please refer to GES and venue policies at

<https://ordering.ges.com/083600172/convcenterregs>.

Exhibitor Appointed Contractors:

Please refer to GES for details at <https://ordering.ges.com/083600172/officalserv>.

Federal Tax ID (Penton will not give out its tax ID):

Please be advised that under no circumstances will **Informa (formerly known as Penton)**, **GES** or the convention center provide their Federal Tax Identification numbers for international shipments entering the United States. It is the responsibility of the exhibitor to engage the services of a freight forwarding company/customs broker that can help facilitate the proper clearance of its exhibit material. This includes shipments entering the United States over the borders using the exhibitor's company-owned or privately owned vehicles.

For your convenience, we have secured the services of **GES Logistics** to assist with clearance of goods through customs. Please contact-GESLogistic_International@ges.com.

Fire Laws:

Please read and understand the *fire regulations* located under Regulations and Guidelines in the online ESK - <https://ordering.ges.com/083600172/fireregs>. All materials used in exhibit construction, decoration or as a temporary cover must be certified flame retardant. A sample must be available for fire marshal testing. Crates, packing material and wooden boxes may not be stored in or behind exhibit booths.

Good Neighbor Policy/Noise & Sound Levels:

- Floor manager desks will be located throughout the Show floor in case you have any immediate issues needing attention. Floor managers and floor manager assistants will be available to supervise and coordinate various exhibitor, facility and contractor activities and to assist in a management capacity on the Show floor as directed by Show Management.
- All audio and video should be appropriate for a general audience. In the event of a complaint from any person on a booth's content, Show Management will investigate and determine if the content is offensive or inappropriate. If content is determined to be offensive or inappropriate, the exhibitor must cease use of such content.
- Island Booth Exhibitors: In the spirit of neighborly cooperation, we ask you to avoid adding any unnecessary walls or drapes that may contribute to obstructed views of exhibitors that surround your booth. Feedback from our attendees indicates that this causes substantial frustration in their ability to navigate the Show floor.
- Please take your exhibiting neighbors into consideration when positioning hanging signs and exhibit structures that could impede or obstruct lines of sight to them. Your thoughtful planning will make the Show a better experience for yourself, attendees navigating around the halls and other exhibitors.
- Sound and noise are permitted up to a maximum of 85 decibels. Show Management reserves the right to require any group whose noise levels disturb another group within the building to reduce their sound to a reasonable level that does not disturb any other group. If you feel that your event will have high noise levels at any time (including bands, loud music for dancing, shouting, singing, or other noise), please make arrangements with your Account Manager and Show Management to ensure that no other group will be in the vicinity of your event.
- Show Management will intervene, if necessary, and reserves the right to shut down exhibits deemed objectionable. Floor managers in each show location will rove through the exhibit areas monitoring the decibel level during Show hours. Measurements will be taken at a distance no greater than 10' from the offending display. After measuring a continuous decibel level of greater than 85 dB, following a complaint being registered by a spectator, a neighboring exhibitor or personal observation by a roving designee, disciplinary action may be taken.

Health Department Regulations:

Food may not be served from a "common bowl" unless tongs are used to distribute the food. We suggest compostable single-serve cups, toothpicks and single napkins.

Even if gloves are used, a hand-washing kit is still required. The sole use of a waterless hand sanitizer is not in compliance with health department regulations.

All perishable foods such as milk, fish, eggs and poultry products must be temperature controlled. Cold foods must be kept at or below 41° F (refrigerated or on ice). Hot foods must be maintained above 135° F.

All vendors who wish to sample their product must provide protection of open food sampling (e.g., unpackaged crackers, chips, dips, drinks, etc.). All unpackaged foods on display must be protected with a sneeze guard shield or plastic covering that is rigid, semi-permanent, and

provides adequate protection that follows the Temporary Food Facility Guidelines. All food samples should display a label with its common name and ingredients.

Tip: Per the health department's advice, you may be asked to cease sampling operation at your booth if you do not meet the above requirements. Sneeze guard protection has been required for the protection of open food sampling. This health code is strictly enforced if violated.

You may contact GES to obtain a sneeze guard at <https://ordering.ges.com/083600172/sneeze-guard>.

Personal Care Product Applications

- Sterilized utensils must be used. A fresh, sterilized cotton ball, spatula, Q-tip or powder puff must be used for each individual application. These utensils may not be reused.
- When applying lip applications of any kind, eye shadows, face blushes, etc., a portion of the product must be scraped off with a utensil and applied to the individual with the utensil. The used utensil may not be returned to the pallet. A new, sterilized utensil must be used for each application.
- When using products that are packaged in a container other than a squeeze-type container, such as a jar, a sterilized utensil must be used to remove the product from the container. Once the product has been applied to the individual, you may not return the used utensil to the product (i.e., no double-dipping).

Insurance/Liability:

Liability insurance, property insurance and worker's compensation insurance must be taken out by each exhibitor at its own expense and must comply with state laws. Insurance can be obtained by the exhibitor's insurance company. A rider to existing policies may be taken out providing complete protection for the period of the Show, from move-in to move-out. If you need assistance acquiring insurance, ExhibitorInsurance is our official Show insurance vendor.

Music Licensing:

It is the responsibility of the exhibitor to pay all royalties, license fees, or other charges due to any person or entity for any music or other entertainment played within the exhibitor's contracted space. Exhibitor must obtain music performance rights licenses through ASCAP and/or BMI (and any other necessary performing rights associations) if exhibitor intends to use copyrighted music in its booth.

Moving Displays/Lighting:

Lighting instruments must be focused so as not to interfere with adjacent exhibits.

Special Effects:

Fog, smoke, pyrotechnics, bubbles/snow/confetti and other special effects, are strictly prohibited on the tradeshow floor or meeting rooms.

Onsite Sales/Charitable Donations:

No direct/retail selling is permitted on the Show floor. Attendees may place orders with exhibitors for products/services at the Show, but the product or service ordered/purchased must be delivered to the attendee after the close of the Show. No soliciting of attendees shall be permitted in the aisles or in other exhibitors' booths. Signs showing the prices of items must not be displayed.

Don't let your leftover product go to waste at the end of the Show. You can use it to help those local residents who are struggling in poverty. Not only are you helping people in the area, but you can also save yourself the shipping expense of sending your leftovers back to the office. Donation labels will be available onsite at the GES service desk and the floor managers' desks located on the Show floor. Collection points will be clearly marked on the Show floor.

Personnel:

Booth must be staffed the entire time. To order additional staff please go to <https://ordering.ges.com/083600172/boothstaff>.

Photography/Videography Restrictions :

Exhibitor may take photos or videos of its displays; however, exhibitor is not permitted to directly take pictures of any other display or instruct others to take such pictures without written permission of Show Management and the exhibitor whose display is being photographed.

Privately Owned Vehicles/Hand Carried Items:

Please refer to GES at <https://ordering.ges.com/083600172/povmarshalingyard>.

Roaming Characters:

Roaming characters are not allowed at the Show. Any character in costume must stay within your contracted exhibit space. If roaming characters are found on the Show floor, they will be sent back to the exhibit space. If the roaming character is spotted again, the individual's badge will be confiscated and the individual will be asked to leave the Show floor.

Security:

Show Management, the building operator, the official exhibit services contractor (GES), and the security company (DTA Security Company) provide a measure of protection, such as providing perimeter security, but only you and your staff are responsible for your valuables. Some exhibitors hire designated booth guards to assist in this process. <https://ordering.ges.com/083600172/security>.

We have found that theft at trade shows is most likely to take place during the set-up and dismantling (move-in and move-out) of exhibits. You are responsible for the safety of your booth and all exhibit and personal items. If you would like to hire additional security, simply fill out the Booth Monitor Form in the ESK.

In order to ensure the best possible protection, we would like your cooperation working within the following guidelines to help safeguard your exhibit and your products.

- Don't identify the product or manufacturer on the outside of cartons, crates, boxes, etc. Mark these numerically to indicate the total being shipped (1 of 6, 2 of 6, etc.).

- Stay with your exhibit until your empty cartons are delivered and your goods are packed, sealed and properly labeled.
- Products or equipment given away should be accompanied by donation stickers available on the last day of the Show.
- Use “empty” containers for display purposes.
- After Show hours, cover your display and products.
- If you observe an attendee taking more samples than normal, please contact your floor manager.
- Move all samples and displays to the rear of your booth. Post signs encouraging attendees to take only one sample.
- Do not leave any items of value in your booth overnight. If you order in advance, GES has security cages available for equipment and larger items. You will need to supply your own lock and key for security cages rented from GES.
- Be sure you make all arrangements for your outbound shipping prior to leaving the Show floor.
- Be sure to turn in your Bill of Lading to the GES service desk after your freight is packed and ready to be picked up. Do not leave it in your booth with your freight.
- Remove all old labels from inbound shipping and apply new labels for outbound shipping.
- At the close of the Show, you may begin to pack up products within your exhibit space. Keep all aisles clear of crates, boxes and cartons until the carpeting has been rolled up in front of your booth.

Subletting booth space:

Please refer to the exhibit space contract.

Suitcasing/Soliciting:

Only exhibitors that have contracted with Show Management are permitted to promote their products, services or company at the Show. Unless a marketing opportunity has been contracted by the exhibitor, all company promotion and product sampling must occur within the contracted booth space. This includes, but is not limited to:

- Approaching exhibitor booths to sell products
- Leaving and/or distributing product information in public spaces and Show floor aisles

Exhibitors violating this policy will be sent back to their booth space and materials left will be recycled. Attendees violating this policy will be asked to leave the Show and forfeit their badges. Any "suitcasers" should be reported to the Show Office. Repeated violations will be reported to Security and may result in loss of priority points.

We make every effort to ensure exhibitors will not be solicited in their booths. However, this does occur at trade shows. Should you be approached in your booth, kindly take down the name and company of the solicitor and provide the information to the Show Office or your floor manager.

Termination Rights:

Show Management reserves the right to terminate at any time the privileges of any exhibitor if Show Management determines, in its sole discretion, that an exhibitor is conducting its exhibit in such a fashion that might reflect unfavorably upon Show Management or the Show. In the event of termination by Show Management, the exhibitor shall promptly remove all equipment and personnel from the exhibit area. No portion of payments paid or owed to Show Management on account of said exhibit shall be refundable.

Union Jurisdictions:

Please make sure you read and understand the *Show Site Work Rules* in the GES section of the ESK at <https://ordering.ges.com/083600172/worlrules>.

Variances:

Any displays not conforming to the exhibit specifications outlined in the exhibit space contract or booth guidelines in the ESK must apply for written approval from Show Management by submitting the Approval Request Form by the date listed in the critical dates and deadlines in the ESK. Non-conforming booth structures set up without pre-approved variances may need to be modified or removed from the exhibit hall.

Vehicles on Show Floor:

Please refer to GES at https://ordering.ges.com/083600172/vehicle_placement.

Violations:

Violations of any of these regulations on the part of the exhibitor or its employees or agents shall, at the option of Show Management, constitute cause for the termination of the exhibitor contract for exhibit space and could cause the exhibitor to be expelled from the Show. In the event this action is taken, the exhibitor will forfeit all fees paid and incur all related costs.

Waste Management:

Trash removal service is provided during Show hours and immediately after daily Show closing in the following areas: exhibit hall aisles (excluding exhibit booths), corridors, public space and areas used for meetings. Janitorial services are provided in restrooms throughout Show hours.

Exhibitors are responsible for cleaning their own booths (including but not limited to trash removal and vacuuming) or ordering service through GES. Show Management and GES are committed to reducing our environmental impact on the earth.

By incorporating environmentally-friendly practices into your trade show presence you will encourage your customers and peers to follow. Green business is good business!

IN ADDITION TO THESE RULES AND REGULATIONS AND ALL OTHER TERMS AND GUIDELINES SET FORTH IN THIS ESK, ALL EXHIBITORS MUST COMPLY WITH THE TERMS AND CONDITIONS APPLICABLE TO THE EXHIBIT SPACE CONTRACT AND ALL POLICIES, DIRECTIVES AND STANDARDS PUBLISHED ON THE SHOW WEBSITE OR OTHERWISE PROVIDED BY SHOW MANAGEMENT RELATING TO THE SHOW.

Union Information

To assist you in planning your participation in your show, we are certain you will appreciate knowing in advance that union labor will be required for certain aspects of your exhibit handling.

Carpenter Union

The installation and dismantling of prefabricated displays comes under the jurisdiction of the Carpenter's Union. This includes signs and laying of carpet.

Members of this union claim jurisdiction on the operation of all material handling equipment, all unloading and reloading, and handling of empty containers. An exhibitor may move materials that can be carried by hand, by one person in one trip, without the use of dollies, hand trucks, or other mechanical equipment.

The Official Service Contractor shall be responsible for all matters in the Dock area. This shall include but not limited to such items as assignment of dock space and loading or unloading of all materials and equipment.

Trade and Public Shows

Two (2) full-time exhibitor employees may work without Carpenter labor for one (1) hour on the move in and one (1) hour on the move out, for booths that are larger than 10'x10'. Exhibitors may work in booths 10'x10' or smaller without the use of Union labor.

The use of power tools is not permitted. As an exhibitor, you will be pleased to know that there are no restrictions or requirements to use union labor for the unpacking and placement of your merchandise or product and equipment tuning or calibrating, provided exhibitors use full-time permanent employees.

Gratuities

Our work rules prohibit the solicitation or acceptance of tips in cash, product or gifts in kind by any employee (union or non-union). Our employees are paid appropriate wages denoting professional status, therefore tipping of any kind is not allowed.

- h. **Forced Freight:** GES is not liable for Customer Goods left on the show floor after the show closing deadline, with or without a Material Handling Services/Straight Bill of Lading signed by Customer. It is Customer's responsibility to complete accurate paperwork for shipping and to ensure Customer Goods are properly labeled. If Customer Goods remain on the floor after the show closing deadline, GES has the right to remove the Customer Goods. GES is authorized by Customer to proceed in the manner chosen by Customer on the Order for Material Handling Services/Straight Bill of Lading, if one has been completed, or otherwise to ship Customer Goods at the discretion of GES and at Customer's expense. GES shall incur no liability for such shipment. GES retains the right to dispose of Customer Goods without liability if left on the show floor unattended, without labels or not correctly labeled.

- k. **Hanging items from Booth:** Customer shall not hang any articles, merchandise, product, advertisements, or other similar items from GES supplied booth materials, (this includes but is not limited to GEM panels or pipe and drape), utilized in Customer's own booth set up or in areas occupied by the show organizer or third parties. If Customer does hang any prohibited items, Customer alone shall be held liable for any damages, costs, actions or injuries resulting from the hanging of such item(s). GES shall have no liability for any damages, costs, actions or injuries arising out of Customer's failure to comply with this provision.

- c. **Filing of Claim:** Any claim for loss or damage to Goods must be in writing, containing facts sufficient to identify the Goods, asserting liability for alleged loss or damage, and making claim for the payment of a specified or determinable amount of money. Such claim must be filed with the appropriate party within the time limits specified herein. Damage reports, incident reports, inspection reports, notations of shortage or damage on freight bills or other documents, do not constitute filing of a claim. Claims for Goods alleged to be lost or damaged **during transit** must be received by the responsible party within nine (9) months of date of delivery of Goods. Customer agrees to pay GES prior to the close of the show for all such charges and further agrees that any claim Customer may have against GES shall be pursued independently by Customer as a separate action to be resolved on its own merits. GES retains the right to pursue collection on amounts owed after show close, without regard to any amount alleged to be owed for damage, or loss.
- d. **Filing of Suit:** Any action at law regarding loss or damage to Goods must be filed within one (1) year of the date of declination of any part of a claim (logistics claims excluded).

We are committed to partnering with you to provide comprehensive and effective graphic solutions for your event. The graphics print and production industry continuously evolves, and we want your graphics and images to look their absolute best. To ensure the highest quality output from your digital files, and to make file transfers as seamless as possible, please review and follow these guidelines when submitting artwork to GES. We also offer layout and design services for a fee. Please contact GES for details.

- Save money by providing your artwork/graphic files in the recommended formats.
- Send your graphics early with client name, show name, and booth number to avoid costly delays.
- Do not copy graphics from web pages as they will be low resolution and not suitable for your exhibit/sign.

Graphics

- Avoid setting type in Photoshop - instead use a vector-based program (such as Adobe Illustrator) for your type. If you do use vector smart objects, save the file as an .eps or .psd to retain vector properties.
- If you plan to add effects to your type (such as drop shadows or glows), follow these steps:
 - a. Import the Illustrator type into Photoshop
 - b. Add effects to the type
 - c. Separate the effects onto a layer
 - d. Delete the type layer
 - e. Assemble the type and photo in a vector program
- Always provide logos in a vector format.
- If you have critical PMS colors to match, provide us with a layered Photoshop file to allow for color editing.
- Use gradients carefully and sparingly. Gradients often “band,” and little can be done to correct the problem. Look at your high res file at 100% if you can see the banding, it WILL appear in the print. Adding 1 pt. of noise to the file may resolve the problem.

Suitable programs for images or logos:

- Adobe Illustrator CC 2018 - .ai, .pdf, .eps
- Adobe InDesign CC 2018 - .indd, .pdf
- Adobe Photoshop CC 2018 - .pdf, .tiff, .jpeg
- Adobe Acrobat

Color

If your Vector artwork needs to be color specific, please set up your files using the Pantone color pallet. Some Pantone colors are more likely to be achieved than others, we will match all Pantone colors to the best possible interpretation. We do our best to match any physical print sample, however, the colors may deviate slightly due to the limitations within the print process.

If providing colors as CMYK, please set colors as spot. Spot Colors are colors that have been specifically labeled within design software so that RIP Stations can recognize them. Setting colors to "Spot" it enables the RIP Station to adjust the colors independently of the design software to maximize work flow.

Vector Artwork

For the best quality, create graphics in vector format (AI, EPS). Logos taken from websites are generally GIF files, and those are not acceptable as they will not print clearly. Artwork produced for contour cut decals, such as solid company logos or text, must be supplied in a vector format (AI or vector EPS). Artwork created in a pixel format (TIF, JPG) is not compatible with equipment.

preferred* AI/EPS (vector)

GIF, TIFF, JPEG (raster)

Bitmap/Raster Artwork

TIF, JPEG, PDF and PSD - These are the preferred file formats for raster images. Files should be supplied at 100dpi at full size, or they should scale to those dimensions. If the resolution is lower than 100dpi, images can look blurry or pixelated when printed. If there is a lot of small text in the raster image, the file can be provided at higher resolutions to ensure print quality. Files obtained from the internet (JPG, GIF, PNG) or artwork created in MS Office applications (Word, Excel, PowerPoint, etc.) are often not suitable for high quality output for large/grand sized graphics or signage.

Order graphics and **upload artwork files** directly online: <https://e.ges.com/083600172/signs/esm>

Make sure your file(s) are labeled with the exhibiting company's name, the show name and the booth number (e.g. ABC Company_SHOW_Booth 1234.zip)

Machinery Labor and Equipment

Labor and equipment for uncrating, unskidding, positioning, leveling, dismantling, re-crating, and reskidding machinery and/or equipment must be ordered separately. Place your order for this labor using the Forklift Labor Order Form. If your material requires specialized rigging equipment, please notify us promptly so that we can make arrangements. When possible, supply your own rigging equipment with shipments and pre-rig your material.

Storing Empty Containers

Properly labeled empty shipping cartons will be picked up, stored, and returned after the show. Labels are available at the GES Servicenter® or from your GES Service Executive and are for empty storage only. Depending on the size of the show, it can take from two to twelve hours to return empty crates. Do not store any items in crates marked "empty." GES has no liability for damage to crates or items sent to empty storage in crates.

Outgoing Shipments

An OMHF (Outbound Material Handling Form / Bill of Lading) must accompany all outgoing shipments. Shipping information, outbound forms and labels will be available at the GES Servicenter®. Exhibitors selecting non-official carriers will need to make their own arrangements for pickup. Make sure that someone from your company will be on-site to oversee the outbound shipment of your display and product.

Target Move-In and Freight Information

All orders are governed by the GES Payment Policy and GES Terms & Conditions of Contract as specified in this Exhibitor Services Manual.

Natural Products Expo East / All Things Organic™ BioFach America
Baltimore Convention Center
September 13 - 15, 2018

Form Tips:

- A targeted move-in is a designated day and time for arrival of a particular exhibitor or exhibit area depending on their location within the facility, according to a target map/floor plan.
- Your assigned target is the date and time that your truck must check into the marshalling yard. Once the marshalling yard sends your truck to the building to start unloading your company's truck, your exhibit/samples are taken directly to your booth space.
- As long as your truck arrives on or before your target time on your targeted date, there is no additional off-target charge.
- Find your targeted/scheduled time for move-in by reviewing the Targeted Floor Plan provided by the show organizer for target move-in times. This is for the move-in of your exhibit only. Your product can arrive at a later date.

Attention

Attention:

- All inbound exhibit material and equipment is specifically targeted by booth number.
- Please refer to target assignments contained in this section.
- Do not allow your carrier to block your on-target freight with off-target freight as the entire load may be rescheduled.
- Every attempt will be made to accommodate all inbound deliveries within their targeted day. However, there can be no guarantees with respect to absolute delivery dates and times.
- We recommend scheduling installation labor to begin the day after your inbound target assignment.
- It remains the exhibitors' responsibility to ensure that their freight is loaded to accommodate the inbound target assignments. Please plan carefully.
- Off-target freight and equipment may be refused and/or rescheduled. Off Target Surcharge: 25% (\$30 minimum) will apply to all inbound shipments arriving off-target. Please refer to Target Schedule.

Important Reminders

Reminder

- A target assignment is the point at which direct deliveries may begin checking in. It is not the point at which set-up should be scheduled.
- Freight shipped through our warehouse will be delivered prior to the beginning of your assigned target date and time.
- Route your shipments carefully. Utilize only carriers who provide Bills of Lading and can be contacted at any point in time.
- Insure your material from the time it leaves your facility until it is returned.
- Do not allow your carrier to block your on-target freight with off-target freight as the entire load may be rescheduled.

Clean Floor Policy Information

Attention Natural Products Expo East / All Things Organic™ BioFach America Exhibitors!

Due to the volume of crates, limited space for set up and to facilitate the installation and cleaning of aisle carpet, a Clean Floor Policy will be enforced.

Tuesday, September 11, 2018

5:00 PM Crates for booths 400 square feet and larger must be empty and labeled for removal.

Wednesday, September 12, 2018

12:00 PM Crates for booths 300 square feet and smaller must be empty and labeled for removal.

2:00 PM Cartons, fiber cases and packing materials must be labeled for removal.

5:00 PM Visqueen on booth carpet should be rolled up by the exhibitor or exhibitor appointed contractor and placed in the aisle. Please do not wait until the morning of show open to remove visqueen or you may incur additional janitorial costs.

All aisles must be 100 percent clear of product and any other items that may impede with the installation of aisle carpet.

Please be advised that if your crates are removed on clean floor night and then requested to be brought back from empty storage to your booth before show opening, there will be a \$ 349.50 charge per hour for a forklift and driver to bring your crate back to your booth.

Thank you for your help in making Natural Products Expo East / All Things Organic™ BioFach America a successful event!

Marshaling Yard Process

It is important that you advise your carrier of this Marshaling Yard information to better facilitate your direct shipment to showsite.

- All delivering carriers must check in at the Marshaling Yard prior to show site deliveries. All inbound shipments will be weighed at the Marshaling Yard to obtain the gross or heavy weight.
- All inbound shipments must be accompanied by a certified weight certificate and Bill of Lading.
- At the Marshaling Yard, drivers will be assigned a number and will be dispatched to the appropriate dock at Baltimore Convention Center as space is available. Waiting time at the Marshaling Yard should be anticipated by your carrier. Every effort is made to keep this waiting time at a minimum. However, the waiting time depends on many factors, including the number of vehicles arriving to unload/load, the type of loads being unloaded at the Baltimore Convention Center, the number of booths on a truck, etc.
- All drivers are expected to adhere to GES' policies and procedures with respect to the loading and unloading of trailers.
- All POVs needing to unload at the receiving dock must check in at the POV lot. If "self-unloading" please see Marshaling Yard and Hand Carry Instructions for details: <https://ordering.ges.com/083600172/povmarshalingyard/esm>
- POV (privately owned vehicles) needing Cartload Service must check into the Marshaling Yard Lot (M&T Bank Stadium in Lot O) prior to coming into the receiving dock or you will be turned away.

Easy Ordering Tips:

- An authorized company representative must be present at the time of delivery to your booth to inventory the items and to sign for receipt of items. Delivery hours may be restricted, check with the representatives at the cold storage desk. An advance deposit is required to guarantee storage reservations.
- Containers must be marked either refrigerated or frozen. The facility booth numbers and company name must be also prominently displayed on each container. It is very important to use the Specially Coded Label that is provided in this manual. This ensures perishable items are delivered to the trailers for cold storage when they arrive.
- Exhibitors are not permitted direct access to the cold storage area. A work order must be placed with Centerplate or GES, if food prep is needed, at the GES Servicenter each time material is moved to or from storage. The work order must be signed when delivery is made.
- Shipments will be accepted beginning at 8:00 AM, Monday, September 10, 2018 at the Cold Storage Warehouse - DO NOT ship cold/frozen product direct to show site. Refer to instructions for Cold Storage Warehouse Shipping and Delivery: https://e.ges.com/083600172/cold_storage_shipping_process/esm
- Exhibitors will be able to access product onsite beginning at 12:30 PM on Wednesday, September 12.
- Target dates do not apply to Refrigerated & Frozen Storage.
- Straight Time: Monday through Friday from 8:00 AM to 4:30 PM. - 1 worker per 1 hour at Straight Time Rates
- Overtime: All other times Monday through Friday. All day Saturday. - 1 worker per 1 hour at Straight Time Rates
- Double Time: All day Sunday & Holidays. - 1 worker per 1 hour at Straight Time Rates

Step 1. Order Storage

- 1 Skid or 30 cubic feet per day. Storage charges begin on the day the shipment is received. Labor for delivery is not included. You will be billed for each delivery.
- Please confirm delivery arrangements the day before delivery of stored material is required at the storage control center at the loading docks.
- A work order must be placed at the storage control center each time material is moved to or from storage. The work order must be signed by a representative of the Exhibitor when delivery is made.
- During Show days, with the massive congestion in the aisles, it will take an additional amount of time for deliveries and it will be necessary to use a minimum of two laborers.

Storage is billed per Cubic foot

Cubic footage is determined as follows: Determine measurements of each piece in inches and multiply the width times the length times the height. Divide this figure by 1,728. Example: 10 cartons 24" x 16" x 13.5" = 5,184 (5,184 ÷ 1,728 = 3 cubic feet each x 10 cartons = 30 cubic feet). Storage required would be 1 Skid or 30 cubic feet.

Calculate Cubic Footage: $\frac{\text{Width} \times \text{Length} \times \text{Height}}{1728} = \text{Cubic Footage}$

Item Code	Description	Rate (\$)	X # of Cubic Ft.	Total
Refrigerated Storage				
200515	1 - 30 cu ft	13.60		\$
200515	31 - 120 cu ft	12.80		\$

200514	121 - 240 cu ft	12.25		\$
200514	241 cu ft and Greater	11.45		\$

We understand that your calculation is only an estimate. Invoicing will be done from actual size. Adjustments will be made accordingly.

Attention:

- **This form must be completed by the EAC.**

The undersigned Exhibitor Appointed Contractor (EAC) has been designated by an exhibitor to perform certain services for the exhibitor at the above referenced show. In consideration of the show organizer and GES permitting the EAC to perform such services at the show, the EAC and GES hereby agree as follows:

Rules and Regulations

1. EAC agrees to comply with all rules and regulations of the show as outlined in this agreement, the Exhibitor Services Manual, including all union rules and regulations, and accept liability for any negligent actions.
2. EAC agrees that it must ascertain and comply with all rules and regulations of the venue, Show Management, and/or the Official Service Provider in order to create a safe work environment. A failure to do so can result in a delay or termination of your right to continue work if the condition cannot be corrected.
3. EAC agrees that the show site, dock and surrounding areas are active work zones and the EAC, its agents, employees and representatives are present at their own risk. Entry into the dock area is prohibited.
4. EAC must have all business licenses and permits required by the State and City governments and the convention facility management prior to commencing work. A certificate of insurance naming GES as an additional insured with appropriate insurance limits prepared by the EAC's insurance agent must be submitted to GES at least 30 days prior to the first date of move-in.
5. This Agreement and Rules and Regulations between GES and EAC must be completed by an authorized representative of EAC and returned to GES before the deadline noted above.
6. If the EAC fails to provide the documentation required in paragraphs 4 and 5 above, the exhibitor will be required to use GES for such services at the prevailing rates set forth in the Exhibitor Services Manual.
7. EAC shall provide, if requested, evidence to GES that it possesses applicable and current labor contracts and must comply with all labor agreements and practices. The EAC must not commit or allow to be committed by persons in its employment any acts that could lead to work stoppages, strikes or labor problems.
8. EAC will be responsible for all reasonable costs related to its operation, including overtime pay for stewards, restoration of exhibit space to its initial condition, etc. Where applicable a one hour minimum labor charge will be charged at the appropriate steward rate of pay per day/per union to either the EAC/exhibitor depending upon the billing arrangement set up with GES (based upon EAC not number of booths).
9. The show aisles and public spaces are not part of the exhibitor's booth. Therefore, EAC is required to confine all activities to the exhibit space of the exhibitor who has given a valid order for services. Exhibitors may be charged for costs related to movement of its property if the EAC does not contain its operations within the confines of the booth. No service desks, storage areas or other work facilities will be located anywhere in the building. The show aisles and public space are not a part of the exhibitor's booth space and must be kept clear at all times.
10. During show hours, only EACs with exhibit badges will be permitted on the exhibit floor. No EAC will be permitted on the exhibit floor during show hours without the proper Convention name badge supplied by the exhibiting company. EAC must furnish Show Management and GES with the names of all on-site employees who will be working on the show floor and ensure that they have and wear identification badges at all times necessary as determined by Show Management.
11. EAC has uploaded certificates of insurance through CertFocus, confirming the following required insurance:
 - Commercial General Liability, including contractual liability, with limits of not less than \$1,000,000 each occurrence, \$2,000,000 general aggregate and \$2,000,000 products & completed operations aggregate.
 - Automobile Liability with a limit of not less than \$1,000,000 combined single limit - each accident. All owned, hired and non-owned boxes marked.
 - Workers Compensation, as required by law, with Employers Liability Limits of not less than \$1,000,000 each accident, \$1,000,000 disease - each employee and \$1,000,000 disease - policy limit.
 - Umbrella/Excess Liability with a limit of not less than \$1,000,000 each occurrence/aggregate.
 - All Policies (except Worker's Compensation) shall name GES (Official Service Provider), Informa (Show Management), Natural Products Expo East / All Things Organic™ BioFach America (Show) and Baltimore Convention Center (Facility) as additional insureds on a primary and non-contributory basis per the attached sample certificate of insurance. Umbrella follows form.
12. EAC agrees to indemnify, defend and hold the Show Management, the Facility and GES harmless from and against any and all claims, lawsuits, demands, liability, costs and expenses, including reasonable attorney's fees and court costs, arising out of EAC's operations, including supervision of GES provided labor. EAC also agrees to reimburse GES for all attorney's fees and costs incurred in connection with any and all claims, lawsuits and counterclaims that should arise out of EAC's failure to adhere to the terms of this agreement.
13. Solicitation of business on the show floor is strictly prohibited. If EAC attempts to provide services designated to another party as "exclusive" or is discovered soliciting on the show floor including the distribution of official company literature, or otherwise does not comply with the rules, the company may be removed from the show floor, and the exhibitor will not be able to use that company for the remainder of the event.
14. EAC/ exhibitor may not move freight from one booth to another booth, or to meeting rooms. GES must provide labor.
15. EAC must coordinate all of its activities with GES.
16. The exhibitor or its EAC should order services required from GES and the Exhibit Hall in advance. Ordering labor or services onsite (which contractors may not be prepared to provide immediately) may delay the set-up of your booth or force your set-up into overtime.

Rules and Regulations (continued)

17. The exhibitor or its EAC should take steps to protect the exhibitor and the EAC's product in the booth by arranging for booth security and/or cages. GES is not responsible for items left unattended on the show floor.
18. EAC agrees GES is not responsible for any items stored in empty containers. Do not store empty cartons inside of empty crates. Cartons are returned from storage before crates so exhibitors may begin packing their product.
19. EAC/exhibitor agrees to keep "No Freight Aisles" clear at all times. If GES is required to rearrange any material situated in a clearly identified "No Freight Aisle," the exhibitor or the EAC depending upon the billing arrangements with GES will be charged a one hour minimum for forklift rental and labor.
20. EAC/exhibitor agrees that all outbound freight bills should be turned into the service desk on a timely basis. Holding freight bills until late in the day or turning in large amounts of freight bills to the GES Servicerenter at one time may delay outbound truck scheduling and subsequently force your loading out into overtime.
21. During tear down, pull all manageable structures back from aisle carpet lines. Electronics, mannequins, etc. should be placed in the center of the booth.
22. Be aware of vehicle traffic inside and outside of the facility. All attendees should be aware of their surroundings and all individuals are solely responsible for their own safety in parking lots, driveways, access roads and non-exhibit hall areas.
23. Label empty cartons and crates for storage as soon as they are ready. Holding back on "empties" only adds congestion to the aisles.
24. For services such as electrical, plumbing, telephone, cleaning and drayage, no service provider other than the Official Service Provider will be approved. This regulation is necessary due to licensing, insurance and work done on equipment and facilities owned by parties other than the exhibitor. Exhibitors shall provide only the material and equipment they own and those materials are to be used only in their exhibit space.
25. Smoking is prohibited in most facilities. Smoking shall only be allowed in designated areas.
26. This agreement is to be interpreted under the laws of the State of Nevada.
27. A faxed signature will serve as an original signature and will stand as a fully executed agreement once faxed to and received by GES.

LABOR ORDERING INSTRUCTIONS

Step 1 Review Jurisdiction Information Below

The work outlined under Electrical Jurisdiction below must be performed by Edlen Electricians and cannot be performed by any other union or I&D House. Determine the type of work required in your booth space and complete the corresponding labor forms. The Power Delivery section indicates if power typically comes from the ceiling or the floor which may impact your booth layout.

Step 2 Complete the Appropriate Form

There is a different form utilized to schedule labor in your booth space. This allows exhibitors to pre-pay the estimated labor cost. This is only an estimate. Final labor and/or lift cost may be greater or less depending on time required and minimum labor charges.

A. Electrical Distribution

This form is used for the distribution of power on the floor in your booth space. This form should be completed for all island booths. Inline and peninsula booths need to provide this information only if power is required at any other location than the rear of the booth space.

Step 3 Return the following forms to Edlen

Electrical Order, Method of Payment, applicable Labor Forms and Electrical Layout.

ELECTRICAL JURISDICTION

WORK REQUIRING EDLEN ELECTRICIANS

1. Delivery of main power line to Island Booths only
2. Electrical distribution under carpet or overhead
3. Connection of all high voltage services
4. Hardwiring of any electrical apparatus
5. Installation of lighting hung from ceiling
6. Assembly & installation of lighting hung from truss
7. Motor, truss, rigging installation and cabling

POWER DELIVERY

Power is typically delivered from the floor in this facility and is brought to one main distribution point. From this point it is distributed to all other locations in the booth space. Depending on the total power requirements an electrical panel may be placed at the main distribution point. Electrical panels utilize a minimum of 1'x1'6" floor space. Attention Exhibitors

Using Your Own Badge Scanning Device?

CompuSystems, Inc. is the only company that has lead retrieval devices that provide exhibitors with real-time access to an attendee's full contact information that is stored in the barcodes on the attendee badges. The full contact information is encrypted in the barcode for security purposes and to ensure data integrity. CompuSystems has also made this full contact information available to exhibitors who are using their own lead retrieval devices.

If you plan on using your own hardware and/or software to capture sales leads at the event please be aware that the badges will have multiple barcodes.

QR Code

If you have your own device, make sure you read the QR Code on the badge. The QR Code contains the registrant's First Name, Last Name and Registration ID number. This data can be captured using your own device and using our online, self-service lead converter tool you can convert the data in your file to the full contact information that we have on file.

How do exhibitors using their own Lead Retrieval Devices get full registration contact information?

- If you have your own device and you want to receive full lead information via batch mode (not in real-time) you can convert the data in your file to the full contact information that we have on file using the new, self-service Lead Converter tool. The Lead Converter tool can be found on your Exhibitor Registration Dashboard or at www.compusystems.com/order.
- CSI also offers a lead converter Application Programming Interface (API) that will allow you to capture full contact information in real-time using your own devices.

Pricing for these services is available upon request. If you have any questions, please contact our Exhibitor Services Group at +1 708.786.5565.

ABOUT US

Lowe Refrigeration, Inc opened in 1990 as an extension of our European Company for support of the trade show/convention industry in the United States. We have since provided our services beyond our Contracted Shows to include Non-Contracted Shows and Special Events. Lowe Refrigeration's equipment is housed in our Fayetteville, GA facility located approximately 20 miles south of Atlanta's Hartsfield Jackson International Airport. All orders are processed through this facility along with any required maintenance and repairs to our fleet of equipment. We have a complete inventory of spare parts and components which allows us to maintain the technical condition and cosmetic appearance of our equipment to the very high standards expected by our clients. With over 30 years of experience in refrigerations sales, exhibition, event, and corporate refrigeration rental, you can be certain that we will have the answers to all of your refrigeration requirements.

SERVICES

Contracted Shows:

Since 1990, Lowe Refrigeration, Inc. has been the show appointed "refrigeration contractor" shipping refrigerated display cases to the major food tradeshow across the United States. Lowe Refrigeration's staff are always onsite to offer the technical support and service necessary to ensure the success of your display. Order forms and color brochures are included in the tradeshow kits and can also be found on the show website as well as the Lowe Refrigeration website under "Trade Show Order Forms".

Non-Contracted Shows:

For any size show, expo, convention, or meeting Lowe Refrigeration, Inc. can offer a complete selection of equipment. Non-contracted shows differ from contracted shows, hence in order for Lowe Refrigeration to offer our range for these types of events, we ask that the client cover 50% of the round trip freight. Equipment in small quantity is usually shipped crated to ensure safe arrival to the show as well as the return to Lowe Refrigeration without damage. This allows our clients to have access to our entire range in any quantity, anywhere in the United States. Equipment orders of a larger quantity will usually be shipped as a full truckload, and a staff member from Lowe Refrigeration will be onsite in order to assist in the unload and reload of the equipment. Therefore, if you have a need for equipment in relation to a non-contracted show, keep us in mind. Forms for these events can be faxed or emailed by request.

Special Events:

Following the popularity and success of the Modular Cold Rooms that have been utilized by our locations in Europe and Asia, we decided to introduce the very same to the sporting event/hospitality world in the United States. Modular Cold Rooms (Refrigerators or Freezers) are available, 8ft by 8ft size and multiples thereof, for short-term and long-term rentals. Clean, quiet, electric powered units ensure your equipment will be free of loud engine noise and diesel fumes. Perfect for any indoor or outdoor occasion - sporting events, catered events, carnivals, private gatherings, emergency refrigeration needs, and so much more. Our rental division (trade shows/conventions) compliments our support of the event industry by making available copious amounts of refrigerated display equipment found throughout this brochure.

Call with your request and we will provide the rental package to suit your needs. Lowe Refrigeration, Inc. will work with you to provide what you want, where you want, when you want it!
