

5 Tips for Keeping Shipping Charges Within Your Budget

1. Plan Ahead~

Request a written shipping quotation now! Though fuel may fluctuate, **EAX Worldwide** will lock in your transportation rate thus allowing you to plan your budget and stick to it.

2. Work With Experts in Exhibit Transportation~

EAX Worldwide is **The Official Carrier** as appointed by **Expo! Expo!** We are familiar with the show details i.e.: deadline arrival dates, driver check in times & facility personnel.

3. Use Small/Medium, Completely Packed Boxes~

Compact boxes allow less opportunity for contents to shift and damage. Using larger, less than full containers may result in the dimensional weight of your package exceeding the actual weight of the goods inside.

4. TGTBT~

Beware of the **“Too good to be true”** prices from carriers not affiliated with your event. You may be victim of hidden costs, over-commitment and unreliable service.

5. Preparing a Commercial Invoice ~

The Commercial Invoice is your freight's “Passport” into The United States. **EAX Worldwide** will ensure that all the pertinent information such as registration numbers, detailed description and appropriate values are indicated in accordance with US Customs regulations prior to your shipment importing or exporting to the US.

EAX Worldwide is the Official forwarder for **Expo! Expo! 2021**.
