

Dear Exhibitor,

The Exhibitor Manual is now available through the GES Expresso site! We are pleased to offer you this one stop shop for securing all of your additional booth needs, including power, water, internet, labor, shipping, and rigging.

Please review this information carefully, making special note of all DEADLINES and contact information for each service available for purchase. Be sure to give a copy of ordering forms to anyone else in your organization who is involved with the Expo.

To access the online exhibitor manual, visit <u>https://ordering.ges.com/083630034</u>.

We are here to help you with any questions or concerns you might have. If you need additional assistance, please contact our Event Management team, Linder Global Events, at <u>exhibitors@usasciencefestival.org</u>.

Sincerely,

The USA Science & Engineering Festival Team
