

ELECTRICAL SAFETY CODE REQUIREMENTS

ELECTRICAL RULES

The Electrical Safety Code, a Provincial Regulation, requires that all electrical equipment must be approved before it may lawfully be advertised, displayed, offered for sales, sold or otherwise disposed of or used in Ontario.

- It is the responsibility of each exhibitor to ensure that all electrical equipment in, on, or about his/her booth comply with these regulations. This includes electrical merchandise as well as lighting and display equipment.
- One of the fundamental requirements of approval is that appropriate approval markings must appear on each device. If such markings are missing, the device must be considered unapproved, and therefore, subject to special inspections.
- If you wish to display, offer for sale, or use any electrical equipment which is not approved you are required to obtain permission from the Electrical Safety Authority and pay the necessary fees.
- Please refer to the information sheet and application for information on requesting approval. This form is located in the 'Other Contractors' section of the Exhibitor Manual.
- Failure to comply could result in the equipment being ordered removed from display.
- All electrical approvals and hookups are the sole responsibility of the exhibitor.

CONTACT

All inquiries regarding electrical approvals for equipment should be directed to:

Electrical Safety Authority
P.O. Box 24143, Pinebush Postal Outlet
Cambridge, ON N1R 8E6
