

HELPFUL HINTS

- Borrowing power from an adjoining booth is NOT permitted. Sharing your neighbour's power may overload the circuit.
- All equipment must be approved for use by a recognized certification agency (i.e. CSA, ULC). Approval markings can be found on the rating nameplate located on the back or bottom of the equipment.
- Check the equipment rating nameplate on the bottom or back of your equipment to determine your total electrical needs.
- Order 24-hour outlets if you require your power to remain energized overnight (i.e. for refrigerators, freezers, fish tanks, etc).
- All equipment must have a 3-wire grounded cord, minimum of #14 gauge wire.
- A Ground Fault Circuit Interrupter (GFI) must protect all 120 volt electrical equipment/devices within 6 feet of a water/liquid source.

POWER SUPPLIED AT BACK OF BOOTH	
1500 WATT, 120 VOLT DUPLEX OUTLET (E1500) <ul style="list-style-type: none"> • Approximately 12 amps • Standard office/home outlet with 2 plugs 	15 AMP, 120 VOLT OUTLET (E15A) <ul style="list-style-type: none"> • Standard office/home outlet with 1 plug
