

CANADIAN MANUFACTURING
TECHNOLOGY SHOW

Dear Exhibitor:

Welcome to the 2025 Canadian Manufacturing Technology Show!

This is your Exhibitor Manual - a valuable resource and tool containing the information you need to successfully plan, prepare and organize your exhibit.

We encourage you to review this exhibitor manual in its entirety to get the most out of your CMTS experience.

Within this manual you will find necessary tools including:

- Key Deadlines
- Mandatory Forms – Certificate of Insurance and Health & Safety Acknowledgement
- Order Forms and Links
- Rules and Regulations
- Key Supplier Partner Contacts
- Planning Tools including our SME+ Mobile App!

Please note in our efforts to produce more sustainable events, we have eliminated the traditional printed Show Guide and will instead offer a small printed guide onsite with the floorplan and exhibitor list. Be sure to leverage the SME+ App for all event details including a special "Exhibitors Only Section" for your team.

Please make note of the important deadlines and our Exhibitor Planning checklist and return the forms at your earliest convenience. Early form submission provides you with maximum cost-saving opportunities. It also allows SME and our Partners/Contractors the time to provide you with the best possible service.

For questions or feedback about the contents of this manual, please do not hesitate to contact me. If you have supplier-related questions, please feel free to contact the Supplier Partner directly.

This event represents the collective investment of time, energy, and resources from SME and our Partners along with all our CMTS exhibitors. It is our hope that this manual helps maximize your return on that investment. On behalf of the staff and leadership of SME, we look forward to seeing you at CMTS on September 29 – October 2, 2025.

Sincerely,

Julie Pike
