

The dock will be available to load in 12 - 4 pm for move in, and during exhibit tear down

Approaching the Banff springs, at the end of /405 Spray Ave, the Main loading dock is on the LEFT BEFORE PASSING THE HOTEL - turn left here, past the small parking lot/before the front lobby, (shortly after the tennis courts). Go straight and then right to the big bay doors (green arrows) do not enter the road on the right, it is a one way. – do watch for traffic exiting that road. **There is a freight elevator to the exhibits, and GES will have carts available to use - this is the best most direct path to the exhibits.**

Exhibitors unload their goods, and move the vehicle to parking and return to bring your display up to your booth for set-up.

At teardown, pack your display materials; and bring to the dock, ready to load before bringing your vehicle. It is a busy dock, there is not storage, or space for vehicles to remain at the dock other than to load and unload.

The dock is fixed semi height, there is no lift, items are lifted onto the dock, or up 5 stairs at the side door.

ITEMS OVER 84" LONG 50" WIDE OR 79" TALL DO NOT FIT IN ELEVATOR TO REACH THE SHOW FLOOR.

After unloading please move your vehicle to the pay lot

parkade★(pay)

valet (red line)

Or there is free street parking up to 4 hours, back up on Spray Ave on the right. ▲
