WESTERN MANUFACTURING TECHNOLOGY SHOW

CUSTOMS REGULATIONS & CUSTOMS BOND

CUSTOMS

Equipment and exhibits may qualify for temporary importation into Canada, subject to applicable customs requirements, duties, taxes, and any required security or deposit. The Official Show Customs Broker can assist exhibitors with customs clearance, transportation, and the documentation required for temporary importation and re-exportation. Exhibitors are responsible to confirm the requirements for their shipments.

Exhibitors using their own customs broker will have to arrange their own bond or cash deposit with CBSA.

Official Show Customs Broker

Cross Connect Customs and Event Logistics Inc. is the appointed official customs broker and transportation provider for WMTS 2027.

Important Information for Exhibitors

- Contact the official customs broker well in advance of shipping to confirm the required documentation, submission deadlines, and customs clearance procedures.
- Prepare accurate commercial invoices and packing lists, including detailed descriptions, quantities, values, and other information required by the customs broker.
- Confirm the appropriate arrangements for temporary importation, permanent importation, and the re-exportation of goods.
- Do not remove, transfer, or ship out goods subject to customs control without first confirming the applicable customs requirements and obtaining any necessary authorization.
- At the close of the show, exhibitors are responsible for properly packing and labeling their shipments and arranging outbound transportation in accordance with the show's move-out procedures.
- For customs clearance, shipping instructions, and applicable fees, please contact the official show customs broker directly.

IMPORTANT:

ALL SHIPMENTS MUST BE SENT PREPAID
